Translation Globalisation And Localisation A Chinese Perspective Topics In Translation:

Translation, Globalisation and Localisation Wang Ning, Sun Yifeng, 2008-03-28 The global local distinction has changed significantly and the topic has been heatedly debated in literary and cultural as well as translation scholarship In this age of globalisation the traditional definition of translation has been altered In the present anthology translation is viewed as a cultural and political practice and accordingly translation studies is based on a heightened awareness of global local tensions in translation and of its moderating and transforming impact on local cultural paradigms All the essays in this anthology deal with issues of translation from a cultural and theoretic perspective with regard to tensions and conflicts between global and local interests and values No matter how different their approaches may seem the essays are thematically integrated to discuss translation in a dialectical framework either globalising Chinese issues internationally or localising general and international issues domestically
