Humanitarian and Relief Logistics Vasileios Zeimpekis, Soumia Ichoua, Ioannis Minis, 2014-07-08

This edited volume highlights recent research advances in humanitarian relief logistics The contributed chapters span the spectrum of key issues and activities from preparedness to mitigation operations response planning and execution The volume also presents state of the art methods and systems through current case studies Significant issues in planning and execution of humanitarian relief logistics discussed in this volume include the following Approaches that tackle realistic relief distribution networks In addition to large scale computing issues heuristics may handle the complexity and particularities of humanitarian supply chains Methods that integrate real time information while effectively coping with time pressure and uncertainty both of which are inherent to a disaster scene Judicious recourse strategies that allow a quick and effective restoration of pre planned solutions whenever an unpredictable event occurs Coordination of multiple parties that are often involved in managing a disaster including NGOs local state and federal agencies This volume provides robust evidence that research in humanitarian logistics may lead to substantial improvements in effectiveness and efficiency of disaster relief operations This is quite encouraging since the unique characteristics of disaster scenes provide significant opportunities for researchers to investigate novel approaches contributing to logistics research while offering a significant service to society

Emergency Management and Tactical Response Operations Thomas D. Phelan, 2011-04-08

Is emergency management education undoing an age old tradition in the American Fire Service Has the time arrived to educate emergency managers in college classrooms rather than in twenty years of tactical operations experience Over one hundred

forty three 143 institutions of higher education are now offering certificate or degree programs in emergency management with no tactical operations experience required for admission Resistance by veteran law enforcement officers and fire fighters may have to be overcome if we are to prepare emergency managers with required skill sets Dr Tom Phelan explores the skills being taught to emergency management students and addresses the concerns of experienced first responders in accepting their leadership Discusses the value of emergency management education in the post 9 11 world Makes clear the need for educating emergency managers to prepare them for emergency manager leadership Helps bridge the gap between emergency management and first responders Should be required reading in every college emergency management curriculum The book is clear concise and an easy read
