commonly been examined in depth by legal historians The volume provides a new global interpretative key of the development of family law in Europe It presents essays about family and the Christian influence family and criminal law family and civil liability filiation legitimate natural and adopted children and family and children labour law In addition it explores specific topics related to marriage such as the matrimonial property regime from a European comparative perspective and impediments to marriage such as bigamy The book also addresses topics including family society and European juridical science

Religious Freedom in Italy Alessandro Ferrari, 2023-12-31 Italy seat of the Pope and Vatican City has a long and difficult relationship with religious freedom Often identified as a Catholic nation par excellence Italy owes its unification to a political class that advocated the separation of Church and State Home of the Concordat contemporary Italy recognises a peculiar notion of legal secularism *laicit* as the supreme principle of its constitutional order Through the glasses of law tracing the history of the right to religious freedom from the Unification to the present day the nine chapters of the book allow an insight on paradoxes and contradictions of a complex system made of unresolved stratifications where a strong constitutional recognition of religious freedom is accompanied by a weak legislative protection of religious pluralism and at the same time a vigorous religious agency in the public space Religious freedom in Italy offers an interpretation of a model of religious freedom that is not only a paradigm for many European experiences but also a possible interpretative parameter to better understand the dynamics of religious freedom between the two shores of the Mediterranean

Giurisprudenza del diritto di famiglia: Matrimonio, separazione, divorzio Mario Bessone, Massimo Dogliotti, G. Ferrando, 2007

Comparative Succession Law Kenneth Reid, Marius de Waal, Reinhard Zimmermann, 2015-08-27 Intestate Succession is the second volume in the Comparative Succession Law series which examines the principles of succession law from a comparative and historical perspective This volume discusses the rules which apply where a person dies either without leaving a valid will or leaving a will which fails to dispose of all of the person's assets Among the questions considered are the following What is the nature of the rules for the disposal of the deceased's assets Are they mechanical or is there an element of discretion Are particular types of property dealt with in particular ways Is there entitlement to individual assets as opposed to money Do the rules operate in a parentelic system or a system of some other kind Are spouses treated more favourably than children What provision is made for extra marital children for adopted children for step children Does cohabitation give rise to entitlement How are same sex couples treated Broader questions also arise of a historical and comparative nature Where for example do the rules in intestate succession come from in particular legal systems Have they been influenced by the rules in other countries How are the rules explained and how are they justified To what extent have they changed over time What are the long term trends And finally are the rules satisfactory and is there pressure for their reform As in the first volume this book will focus on Europe and on countries which have been influenced by the European experience such as Australia New Zealand South Africa the United States of America Quebec and the

countries of Latin America Further chapters are devoted to Islamic Law and Nordic law Opening with a discussion on Roman law and concluding with an assessment of the overall development of the law in the countries surveyed this book will provide a wider reflection on the nature and purpose of the law of intestate succession

Recognition of Kafala in the Italian Law System from a Comparative Perspective

Adele Pastena, 2020-07-09 The provision of Islamic kafala has no legal correspondence with secularised political systems and structures and as a result requires a proper understanding of the legislative measures that are indispensable for the protection of the weakest groups of society at least when the latter turn out to be mostly vulnerable or abandoned Most recent international conventions have placed much emphasis on the priority to be given to child protection rather than other personal interests While no syntagmatic principle exists for a theoretical definition and boundary of religious freedoms and legal rules affecting Islamic kafala it has become a prevailing interpretative canon which requires the scholar to aim for a proper understanding of the cultural identities and measures to safeguard individuals concerned This book is a thought provoking study of these important issues and will serve to strengthen further research into this topic area for the benefit of both academic and professional readers
