## **Trauma And Memory Reading Healing And Making Law Cultural Sitings:**

*Trauma and Memory* Austin Sarat, Nadav Davidovitch, Michal Alberstein, 2007 The book explores the social construction of different dimensions of trauma in law and medicine

*Arts of Healing* Arleen Ionescu, Maria Margaroni, 2020-06-22 This book occurs at the intersection of philosophy critical theory psychoanalysis and the visual arts Each chapter looks at art produced in various traumatogenic cultures detention centres post Holocaust film autobiography and many more Other chapters look at the Juarez femicides the production of collective memory of makeshift memorials acts of forgiveness and contemporary forms of trauma The book proposes new ways of thinking trauma foregrounding the possibility of healing and the task that the critical humanities has to play in this healing Where is its place in an increasingly terror haunted world where personal and collective trauma is as much of an everyday occurrence as it is incomprehensible What has become known as the classical model of trauma has foregrounded the unrepresentability of the traumatic event New revisionist approaches seek to move beyond an aporetic understanding of trauma investigating both intersubjective and intrasubjective psychic processes of healing Traumatic memory is not always verbal and iconic forms of communication are part of the arts of healing

*Fragments of Trauma and the Social Production of Suffering* , Marilyn Charles, Michael O'Loughlin, 2014-11-05

*Fragments of Trauma and the Social Production of Suffering* Trauma History and Memory offers a kaleidoscope of perspectives that highlight the problem of traumatic memory Because trauma fragments memory storytelling is impeded by what is unknowable and what is unspeakable Each of the contributors tackles the problem of narrativizing memory that is constructed from fragments that have been passed along the generations When trauma is cultural as well as personal it becomes even more invisible as each generation s attempts at coping push the pain further below the surface Consequently that pain becomes increasingly ineffable haunting succeeding generations In each story the contributors offer there emerges the theme of difference a difference that turns back on itself and makes an accusation Themes of knowing and unknowing show the terrible toll that trauma takes when there is no one with whom the trauma can be acknowledged and worked through In the face of utter lack of recognition what might be known together becomes hidden Our failure to speak to these unaspirated truths becomes a betrayal of self and also of others In the case of intergenerational and cultural trauma we betray not only our ancestors but also the future generations to come In the face of unacknowledged trauma this book reveals that we are confronted with the perennial choice of speaking or becoming complicit in our silence
