Voting For Peace Postconflict Elections In Liberia Studies In Foreign Policy:

Voting for Peace Terrence Lyons, 2010-12-01 Elections have been used as a mechanism to institutionalize a new political order following internal conflict in Cambodia El Salvador Angola Mozambique Bosnia and now Liberia This book analyzes the Liberian transition and the July 1997 elections in order to better understand the relationship between war termination and transitions to democracy and the role post conflict elections play in promoting both of these goals The Liberian elections represented the final stage of a seven year West African led peace process An overwhelming majority voted for former factional leader Charles Taylor in the belief that if Taylor did not win war would erupt again The Liberian transition demonstrates that post conflict elections may play an important role in a process of war termination In many cases it may be necessary to move forward with war termination and imperfect elections in the short run and pursue goals relating to democratization after the new government has been put in place This study uses a detailed examination of the difficult Liberian case to highlight the more general challenges of helping countries make the transition from civil conflict and authoritarian rule to peace and democracy *Studies in Foreign Policy Extralegal Groups in Post-Conflict Liberia* Christine Cheng, 2018-05-11 In the aftermath of the Liberian civil war groups of ex combatants seized control of natural resource enclaves in the rubber diamond and timber sectors With some of them threatening a return to war these groups were widely viewed as the most significant threats to Liberia s hard won peace Building on fieldwork and socio historical analysis this book shows how extralegal groups are driven to provide basic governance goods in their bid to create a stable commercial environment This is a story about how their livelihood strategies merged with the opportunities of Liberia s post war political economy But it is also a context specific story that is rooted in the country s geography its history of state making and its social and political practices This volume demonstrates that extralegal groups do not emerge in a vacuum In areas of limited statehood where the state is weak and political authority is contested where rule of law is corrupted and government distrust runs deep extralegal groups can provide order and dispute resolution forming the basic kernel of the state This logic counters the prevailing spoiler narrative forcing us to reimagine non state actors and recast their roles as incidental statebuilders in the evolutionary process of state making This leads to a broader argument it is trade rather than war that drives contemporary statebuilding Along the way this book poses some uncomfortable questions about what it means to be legitimately governed whether our trust in states is ultimately misplaced whether entrenched corruption is the most likely post conflict outcome and whether our expectations of international peacebuilding and statebuilding are ultimately self defeating

International Mediation in Civil Wars Timothy D Sisk, 2009-01-08 This book evaluates the role of international mediators in bringing civil wars to an end and makes the case for powerful peacemaking using incentives and sanctions to leverage parties into peace As internal violence within countries is a hugely significant threat to international peace in the post Cold War era the question of how these wars end has become an urgent research and policy question This

volume explores a critical aspect of peacemaking that has yet to be sufficiently evaluated the turbulent period beyond the onset of formal or open negotiations to end civil wars and the clinching of an initially sustainable negotiated settlement The book argues that the transnational flow of weapons resources and ideas means that when civil wars today end they are more likely to do so at the negotiating table than on the battlefield It uses bargaining theory to develop an analytical framework to evaluate peace processes moving from stalemate in wars to negotiated settlement and it rigorously analyses the experiences of five cases of negotiated transitions from war and the role of international mediators South Africa Liberia Burundi Kashmir and Sri Lanka

Building Peace in West Africa Adekeye Adebajo, 2002 The International Peace Academy **Routledge**

Handbook of International Statebuilding David Chandler, Timothy D. Sisk, 2013-09-02 This new Handbook offers a combination of theoretical thematic and empirical analyses of the statebuilding regime written by leading international scholars Over the past decade international statebuilding has become one of the most important and least understood areas of international policy making Today there are around one billion people living in some 50 60 conflict affected fragile states vulnerable to political violence and civil war The international community grapples with the core challenges and dilemmas of using outside force aid and persuasion to build states in the wake of conflict and to prevent such countries from lapsing into devastating violence The Routledge Handbook of International Statebuilding is a comprehensive resource for this emerging area in International Relations The volume is designed to guide the reader through the background and development of international statebuilding as a policy area as well as exploring in depth significant issues such as security development democracy and human rights Divided into three main parts this Handbook provides a single source overview of the key topics in international statebuilding Part One Concepts and Approaches Part Two Security Development and Democracy Part Three Policy Implementation This Handbook will be essential reading for students of statebuilding humanitarian intervention peacebuilding development war and conflict studies and IR Security Studies in general

Law, Morality, and International Armed Intervention Mourtada Deme, 2013-10-14 International law is often manipulated in the debate about humanitarian intervention The Liberian case provides an opportunity to challenge the UN and The Economic Community of West African States ECOWAS new approach ECOWAS and the UN's justifications for moving away from the current norms are flawed No enlightened person would disagree with the values of peace democracy human rights and economic development This book however explores whether these goals be pursued within the current framework or outside it

Strengthening Peace in Post-Civil War States Matthew Hoddie, Caroline A. Hartzell, 2010-09-30 Among the more frequent and most devastating of conflicts civil wars from Yugoslavia to Congo frequently reignite and even spill over into the international sphere Given the inherent fragility of civil war peace agreements innovative approaches must be taken to ensure the successful resolution of these conflicts Strengthening Peace in Post Civil War States provides both analytical frameworks and a series of critical case studies demonstrating the effectiveness of a range of strategies for keeping the peace Coeditors Matthew Hoddie and

Caroline A Hartzell here contend that lasting peace relies on aligning the self interest of individuals and communities with the society wide goal of ending war if citizens and groups have a stake in peace they will seek to maintain and defend it The rest of the contributors explore two complementary approaches toward achieving this goal restructuring domestic institutions and soft intervention Some essays examine the first tactic which involves reforming governments that failed to prevent war while others discuss the second an umbrella term for a number of non military strategies for outside actors to assist in keeping the peace

Civil Wars in Africa Kelechi A. Kalu, George Klay Kieh Jr., 2022-05-05 Civil Wars in Africa edited by Kelechi A Kalu and George Klay Kieh Jr examines civil conflicts throughout various African countries They argue that civil wars in Africa are by products of the contradictions and crises engendered by the post colonial state building and nation building projects in Africa With few exceptions the post colonial states in Africa have failed to build societies that invest in the material well being of their citizens protect their political civil and other rights promote accountability transparency the rule of law judicial independence and the holding of free and fair elections and promote ethnic pluralism tolerance mutual respect and peaceful co existence among others In addition the contributors show that the post colonial states in Africa have been ruled by corrupt and autocratic leaders who are obsessed with the maintenance of state power as the pathway to ensuring the private accumulation of wealth through sundry illegal means including bribery extortion and theft of public funds In sum this volume addresses how the failure of the post colonial African state to shepherd the process of building democratic societies based on the centrality of human security has led to the erosion of the legitimacy of the state and its custodians Thus once the contradictions and crises reached their crescendo these post colonial societies than implode into civil wars even at the micro level

Liberia's Civil War Adekeye Adebajo, 2002 This text aims to unravel the tangled web of the conflict by addressing questions including why did Nigeria intervene in Liberia and remain committed throughout the seven year civil war and to what extent was ECOMOG s intervention shaped by Nigeria s hegemonic aspirations

When States Fail Robert I. Rotberg, 2010-07-28 Since 1990 more than 10 million people have been killed in the civil wars of failed states and hundreds of millions more have been deprived of fundamental rights The threat of terrorism has only heightened the problem posed by failed states When States Fail is the first book to examine how and why states decay and what if anything can be done to prevent them from collapsing It defines and categorizes strong weak failing and collapsed nation states according to political social and economic criteria And it offers a comprehensive recipe for their reconstruction The book comprises fourteen essays by leading scholars and practitioners who help structure this disparate field of research provide useful empirical descriptions and offer policy recommendations Robert Rotberg s substantial opening chapter sets out a theory and taxonomy of state failure It is followed by two sets of chapters the first on the nature and correlates of failure the second on methods of preventing state failure and reconstructing those states that do fail Economic jump starting legal refurbishing elections the demobilizing of ex combatants and civil society are among the many topics discussed All of

the essays are previously unpublished In addition to Rotberg the contributors include David Carment Christopher Clapham Nat J Colletta Jeffrey Herbst Nelson Kasfir Michael T Klare Markus Kostner Terrence Lyons Jens Meierhenrich Daniel N Posner Susan Rose Ackerman Donald R Snodgrass Nicolas van de Walle Jennifer A Widner and Ingo Wiederhofer

web diffusion weighted magnetic resonance imaging dwMRI allows measurement of tissue diffusivity and is a well established non invasive technique for identification of ischemic stroke differentiation of acute from chronic stroke multiple sclerosis schizophrenia or alzheimer s disease 1 4

spin dephasing under nonlinear gradients implications for imaging - Mar 15 2023

web Jul 14 2011 dephasing under nonlinear gradients is increasingly relevant given the growing interest in nonlinear imaging and here we report several notable differences from the linear case most notably in addition to signal loss intravoxel dephasing under gradients creating a wide and asymmetric frequency distribution across the voxel can

real time magnetic resonance imaging radial gradient echo s lww - Jul 07 2022

web the aim of this study is to evaluate a real time magnetic resonance imaging MRI method that not only promises high spatiotemporal resolution but also practical robustness in a wide range of scientific and clinical applications

gradient nonlinearity calibration and correction for a compact - Feb 14 2023

web Dec 29 2016 1 introduction conventional magnetic resonance imaging MRI reconstruction methods based on direct fast Fourier transform implicitly assume that the spatial encoding gradient fields employed for MR signal formation and data acquisition are perfectly linear throughout the entire imaging volume Glover and Pelc 1986

mapping the impact of nonlinear gradient fields with noise on - Jun 06 2022

web May 1 2023 here we investigate the impact of gradient nonlinearity correction in the presence of noise we introduced empirically derived gradient nonlinear fields at different signal to noise ratio SNR levels in two experiments tensor

gradient nonlinearity calibration and correction for a compact - Oct 10 2022

web Dec 29 2016 due to engineering limitations the spatial encoding gradient fields in conventional magnetic resonance imaging cannot be perfectly linear and always contain higher order nonlinear components if ignored during image reconstruction gradient nonlinearity GNL manifests as image geometric distortion

integrated image reconstruction and gradient nonlinearity correction - Apr 16 2023

web Oct 8 2014 to describe a model based reconstruction strategy for routine magnetic resonance imaging that accounts for gradient nonlinearity GNL during rather than after transformation to the image domain and demonstrate that this approach reduces the spatial resolution loss that occurs during strictly image domain GNL correction

relationship between imaging parameters and distortion in magnetic - Mar 03 2022

web Nov 17 2023 1 introduction the gamma knife a stereotactic irradiation STI device is used to treat metastatic brain tumors auditory nerve tumors and cerebral artery malformations 1 3 computed tomography CT and magnetic resonance

imaging mri are performed to determine the irradiated area for sti treatment generally the range of
magnetic resonance imaging with nonlinear gradient fields signal - Jun 18 2023

web this text deals with a radically new approach of image encoding the fundamental principle of gradient linearity is challenged by investigating the possibilities of acquiring anatomical images with the help of nonlinear gradient fields

the role of nonlinear gradients in parallel imaging a k space - Aug 08 2022

web sep 26 2012 more recently researchers have begun to show the utility of hybrid phase encoded projection imaging methods such as four dimensional 4d rio where the initial phase on each projection changes with each readout and cognac in which nonlinear spatial encoding magnetic fields seems are played as phase encodes while linear

real time magnetic resonance imaging radial gradient echo - Sep 09 2022

web real time magnetic resonance imaging radial gradient echo sequences with nonlinear inverse reconstruction real time gradient echo mri with extreme radial undersampling and nonlinear inverse reconstruction allows for direct monitoring of arbitrary physiological processes and body functions

real time magnetic resonance imaging radial gradient echo - Apr 04 2022

web dec 1 2019 real time gradient echo mri with extreme radial undersampling and nonlinear inverse reconstruction allows for direct monitoring of arbitrary physiological processes and body functions in a variety of clinical scenarios

real time magnetic resonance imaging in pediatric radiology - May 05 2022

web feb 10 2021 the recent development of highly undersampled radial gradient echo sequences in combination with nonlinear inverse image reconstruction now allows for mri examinations in real time image acquisition times as short as 20 ms yield mri videos with rates of up to 50 frames per second with spin density t1 and t2 type contrast

magnetic resonance imaging with nonlinear gradient fields - Dec 12 2022

web monoplanar gradient system for imaging with nonlinear rotating frame gradient fields for magnetic resonance tomographic imaging using the nonlinear response of gradient nonlinearity calibration and correction for a magnetic resonance imaging chemistry libretexts magnetic particle imaging mit opencourseware magnetic resonance

mapping the impact of nonlinear gradient fields with noise on - Nov 11 2022

web may 1 2023 diffusion weighted magnetic resonance mr imaging dw mri provides image contrast determined by brownian motion of water protons and has been increasingly used as biomarkers 1 to study acute ischemic stroke 2 brain trauma 3 multiple sclerosis 4 schizophrenia 5 or alzheimer s disease 6
