synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading *The Bibliographers Manual of English Literature* Henry G. Bohn, William T. Lowndes, 2022-03-12 Reprint of the original first published in 1864 **A History of Renaissance Rhetoric 1380-1620** Peter Mack, 2011-07-14 This is the first comprehensive History of Renaissance Rhetoric Rhetoric a training in writing and delivering speeches was a fundamental part of renaissance culture and education It is concerned with a wide range of issues connected with style argument self presentation the arousal of emotion voice and gesture More than 3 500 works on rhetoric were published in a total of over 15 000 editions between 1460 and 1700 The renaissance was a great age of innovation in rhetorical theory This book shows how renaissance scholars recovered and circulated classical rhetoric texts how they absorbed new doctrines from Greek rhetoric and how they adapted classical rhetorical teaching to fit modern conditions It traces the development of specialised manuals in letter writing sermon composition and style alongside accounts of the major Latin treatises in the field by Lorenzo Valla George Trapezuntius Rudolph Agricola Erasmus Philip Melanchthon Johann Sturm Juan Luis Vives Peter Ramus Cyprien Soarez Justus Lipsius Gerard Vossius and many others
