its population was one of the most religiously heterogeneous in early modern Europe The Catholic Church was officially disestablished in the 1570s yet by the 1620s Catholicism underwent a revival flourishing in a semi clandestine private sphere The book focuses on how Reformed Protestants dealt with this revived Catholicism arguing that confessional coexistence between Calvinists and Catholics operated within a number of contiguous and overlapping social political and cultural spaces The result was a paradox a society that was at once Calvinist and pluralist Christine Kooi maps the daily interactions between people of different faiths and examines how religious boundaries were negotiated during an era of tumultuous religious change
