New Perspectives on Dubliners Mary Power, Ulrich Schneider, 1997

Contextualization and the Old Testament Jerry Hwang, 2022-09-26 Christianity is often viewed in Asia as a Western imposition Challenging this Dr Jerry Hwang examines the Old Testament's cultural engagement of its ancient Near Eastern context arguing that Scripture itself provides the ultimate model for contextualizing theology in Asia While it is common for missiological studies to ignore the Old Testament in their discussion of contextualization truly biblical contextualization must include the whole Bible not simply the New Testament This study provides insightful discourse between the Old Testament and various Asian contexts while demonstrating how Asian perspectives can help overcome the Eurocentrism prevalent in Old Testament scholarship This is an ideal resource for scholars and practitioners interested in a biblical perspective of contextualization especially as related to constructing theology that honors the truth of Scripture in the context of Asia

The Party of Democratic Socialism in Germany Peter Barker, 1998 The Party of Democratic Socialism in Germany which includes the papers from the first conference on the PDS in Britain brings together a range of scholars and politicians from Germany Britain France and the USA It assesses the present position of the party within the German political system shortly before the second Superwahljahr in Germany It also examines its relations with other post communist parties in Europe and evaluates the state of its relations with the other political parties competing for the left of centre vote in the new Länder Above all the volume is concerned with the question as to whether the PDS as the successor party to the former ruling communist party in East Germany represents a modern form of socialism or is merely a populist reaction to the particular concerns of eastern Germans after unification The volume will be of particular interest to students and scholars of German and politics who are concerned with developments in Germany and Europe after the collapse of communism There are twelve contributions to the volume six in German and six in English

Just Postmodernism Steven Earnshaw, 1997 The essays collected here represent the latest thinking on postmodernism in a number of key areas economics law postcolonialism literature feminism film philosophy One of the issues common to the volume is the desire to cast postmodernism in a predominantly ethical just light and the opportunities and obstacles postmodernism might place in the path of the description of and search for justice The collection highlights the most recent trends in postmodern thinking the turn away from postmodernism as mere discourse and language games to a more politically and socially engaged forum The book will be of interest to all students of contemporary cultural social and critical thought

Cultural Politics and Political Culture in Postmodern Europe J. Peter Burgess, 1997 The present volume assembles essays from a broad cultural and professional spectrum around the question of European cultural identity The heterogeneity of the contributors their differing points of departure and methods attests to a tension in intellectual communities which today is more intense than ever Europe's identity crisis is not merely an empirical matter It reflects a far deeper and far older discursive crisis The mandate of Europe's traditional intellectual institutions to preserve and police their own cultural heritage has proved incapable of evolving in a manner sufficient to account for the mutation in its object European culture It is not merely that Europe's identity like any identity in the flux of history has changed Rather the notion of identity the very basis of any questions of who we are where we are going and the appropriate

political forms and social institutions for further existence all rely on a logic of identity which has at best become extremely problematic It is this problematization which provides the common thread unifying the following essays Each contributor in his her own way and with respect to his her own research object confronts the adequacy of the concept of cultural identity The hidden presuppositions of this concept are indeed remarkable and the logic of cultural identity prescribes that they remain undisclosed
