General principles are elucidated in an introduction in a postlude entitled *The Elements of Good Translation* and throughout the French and Spanish parts. Part I, Translating from French into English, is organized alphabetically to cover French words and phrases that cannot be translated literally, absence of an English equivalent, and English locutions with connotations differing from those of their French counterparts. It actually analyzes as well as also addresses special problems: abstract nouns, ambiguity, archaisms. Part II, Translating from Spanish into English, has the same alphabetical organization, covering tricky Spanish terms: *abordaje*, *acciones*, *actitudes*, problematic English translations, alternate aspects, and special problems: ambiguity, Anglicisms, dictionaries. Part II also has an entry under Portuguese dispelling the assumption that facility in translating Spanish guarantees capability to handle Portuguese. *The Translator's Handbook* Catriona Picken, 1983 Reference book on translation reviews the vocational training of translators and interpreters, the reference material and practical tools they use, including office machines and automation of translation, evaluation, revising, and editing methodology. It includes a directory of occupational organizations, fellowships, and awards; a glossary of terms; a guide to information sources; and tables of British and US proof correction marks and for the transliteration of Russian. *Bibliography* *The Translator's Handbook* Morry Sofer, 2004 A practical guide for translators in all languages, including information on all areas of translation and extensive indices of dictionaries, translation work, sources, education programs, translation on the Internet, and more. ***The Translator's Handbook*** Morry Sofer, 2009 Since 1997 this book has served the needs of translators worldwide.
