Hartog, Clare E. Wilde, 2023-10-04 Travel and pilgrimage have become central research topics in recent years Some archaeologists and historians have applied globalization theories to ancient intercultural connections Classicists have rediscovered travel as a literary topic in Greek and Roman writing Scholars of early Judaism Christianity and Islam have been rethinking long familiar pilgrimage practices in new interdisciplinary contexts This volume contributes to this flourishing field of study in two ways First the focus of its contributions is on experiences of travel Our main question is How did travelers in the ancient world experience and make sense of their journeys real or imaginary and of the places they visited Second by treating Jewish Christian and Islamic experiences together this volume develops a longue dur e perspective on the ways in which travel experiences across these three traditions resembled each other By focusing on experiences of travel we hope to foster interaction between the study of ancient travel in the humanities and that of broader human experience in the social sciences Traveling with Philosophes Ken Ewell, 2006-08 Join a fellow traveler on a walkabout through Paris and London and then travel with him across England Scotland and Wales After those walkabouts accompany him as he journeys across America and follows the equator to Australia Finally wander with him along the corridors of modern and postmodern philosophy and as he travels with old and new Philosophes who all voiced an opinion as regards this travel book It is a book that people won t buy won t read and won t praise Mark Twain After reading only a few pages I gave up the study of philosophy forever Voltaire I cannot look upon the book without shedding tears Bertrand Russell If I could only make a travel book like that I would be perfectly willing to die even anxious John Dewey I have seen a great many travel books in my time but none that this one reminds me of Will Durant This travel book is one third fabrication one third prevarication and one third barefaced lies However the rest of the book is the unadulterated truth Dr Morris A Nussbaum **Travel** ,1916 **Travel Magazine** ,1915 **Sketches of Travel** Horatio King, 1878 **Paul, Apostle to the Nations** Walter F. Taylor, 2012 Who was Paul what did he do what did he write Walter F Taylor sets out to bring together a wealth of contemporary perspectives in a clear and accessible synthesis bringing

to bear on his subject the best of recent social scientific and cultural anthropological thinking on Paul An appendix presents a clear summary of issues related to Pauls thought on gender and sexuality Landscape and Identity Wendy Joy

Darby,2020-08-20 In England perhaps more than most places people s engagement with the landscape is deeply felt and has often been expressed through artistic media The popularity of walking and walking clubs perhaps provides the most compelling evidence of the important role landscape plays in people s lives Not only is individual identity rooted in experiencing landscape but under the multiple impacts of social fragmentation global economic restructuring and European integration membership in recreational walking groups helps recover a sense of community Moving between the 1750s and the present this transdisciplinary book explores the powerful role of landscape in the formation of historical class relations and national identity The author s direct field experience of fell walking in the Lake District and with various locally based clubs includes investigation of the roles gender and race play She shows how the politics of access to open spaces has implications beyond the immediate geographical areas considered and ultimately involves questions of citizenship Just Traveling Jaco J. Hamman,2021-08-17 Just Traveling celebrates overcoming distance and seeking difference as defining human traits Following the scriptural witness of God as the Earthroamer the book explores the liminal qualities of traveling through six movements anticipating leaving surrendering meeting caring and returning To travel is to move at the speed of being present to one s experiences bridging distance and difference through acts of care Drawing on personal experience as well as the wisdom of theology anthropology psychology philosophy and cultural studies Hamman reimagines travel in a welcoming and beautiful yet also complex and troubled world Whether leaving home serves our wanderlust and curiosity or has personal or spiritual purposes whether we travel a few miles or cover vast distances we travel best when we contribute to human flourishing Care the compassionate reaching out to someone or something is the practice that allows one to travel differently The spirituality of roads is filled with hopeful restorative potential and life is best lived with the Earthroamer

Traveling Back Susan McWilliams,2014-03 What does it mean to think globally Susan McWilliams argues that to understand politics in our new world we should revisit one of the oldest themes in political theory travel This title uncovers the rich travel story tradition of political theorizing and shows how it helps to answer today s toughest political questions
