Circles and the Cross Loren Wilkinson,2023-08-21
Circles and the Cross is an invitation to explore two mysteries One is the miracle of the cosmos why is there something and not nothing The other is the miracle of consciousness why should this collection of stardust be an I and not just an it Our basic response to those mysteries is wonder and from wonder have grown the three great trees of human culture religion art and science This exploration is undertaken in the light of a third mystery the cross of Christ is the clearest picture we have of the triune Creator of both cosmos and consciousness That self emptying of the Creator out of love for the creation helps us understand the pleasures paradoxes and pains of science it helps us understand how evolution can be another name for creation it casts light on the Enlightenment and Romanticism In particular it illuminates the environmental movement an ethic in search of a religion Loren Wilkinson drawing on fifty years of teaching and writing about our relationship to creation invites you to join this journey into understanding how the cross of Christ sheds light on the mysteries that surround us and gives us hope in a difficult age
