The Eighth Day - Two Jews against The Third Reich Dr. rer. nat. habil. Tim Bodan, 2021-04-29 Can it be that an old box of papers from over 80 years ago hidden for more than half a century in the attic of a godforsaken old house in east Germany contained all the necessary hints to find the World Formula or Theory of Everything Can it be that these papers originally belonged to two Jews father and son who were killed by the Nazis during the Second World War Two Jews who had already been about to find the Holy Grail of Science long before others even thought about this problem But then briefly before they could finish their work had been gasified like so many others in Auschwitz A story by far too horrifying and fascinating to be true And yet here it is a book which brings the two things together the story of the two Jews and the derivation of the World Formula

Ehlers, Jr., 2015-04-15 When large formations of Allied four engine bombers finally flew over Europe it marked the beginning of the end for the Third Reich Their relentless hammering of Germany totaling more than 1 4 million missions took out oil refineries industries and transportation infrastructures vital to the Reich's war effort While other accounts have focused on operational details this is the first book to reveal the crucial role of air intelligence in these dramatic campaigns

Robert Ehlers reexamines these bombings through the lens of both air intelligence and operations a dual approach that shows how the former was so vital to the latter's success. Air intelligence was essential to both targeting and damage assessment and by demonstrating its contributions to the Combined Bomber Offensive of 1943-1945 Ehlers provides a wealth of new insight into the war. Ehlers describes the close ties that developed between the Royal Air Force's precision intelligence arm and the U.S. Army Air Force's precision bombardment forces, telling how the RAF's photographic reconnaissance and signals intelligence steered both British and American bombers to the right targets at the right intervals with the right munitions. He shows that the greatest strength of this partnership was its ability to orchestrate all aspects of damage assessment within an effective organizational structure so that by 1944 senior air commanders like the RAF's Arthur Bomber Harris and the AAF's Carl Tooley Spaatz could gauge the accuracy of bombing with a high degree of precision, analyze its effects on the German war effort, and determine its effectiveness in helping the Allies achieve strategic objectives. Ehlers focuses on three key offensives in 1944: against French and Belgian rail supply lines delivering German troops and supplies to Normandy; against German oil refineries; and against railroads and waterways inside the Reich that had a disastrous effect on the Nazi war effort. In the process, he underscores the degree to which bombers constituted part of a highly effective combined arms force, giving Allied armies crucial advantages on the battlefield. Drawing on a huge collection of bomb damage assessment photographs and a wealth of other archival sources, he shows that the success of these and other efforts can be traced directly to the success of air intelligence. Providing a deeper and more accurate understanding of the bomber campaigns' role in the Allied victory, Ehlers's study testifies to the strategic importance of these efforts in that war and provides a tool for understanding the importance of intelligence operations in future conflicts.

The Third Reich Tony Le Tissier, 2004-11-30 In this book, Tony Le Tissier, author of *Berlin Then and Now*, traces the rise of Hitler, the Nazi Party, and its ramifications together with its deeds and accomplishments during the twelve years that the Third Reich existed within today's boundaries of the Federal Republics of Germany and Austria. The subjects covered include the homes or sites of them of the *dramatis personae*, the Nazi legends of their martyrs, the sites of the former Third Reich shrines at the Obersalzberg in Munich, Nuremberg, Bayreuth, and in Berlin, the Hitler Youth schools and the Party colleges, the euthanasia killing centers, the concentration camps, and much, much more. Tony then follows the progress of Hitler's war from the attack on Poland on September 1, 1939, to defeat in Berlin and the final round-up at Flensburg in May 1945. A final chapter covers the denazification of Germany, the whole volume being illustrated by then-and-now comparison photographs which are the central theme of *After the Battle*.
