The Unthinkable Family By Choice 13:

Bitter Choices Ellen Israel Rosen, 1990-03-23 Ellen Israel Rosen presents a compelling portrait of married women who work on New England's assembly lines while they also maintain their homes and marriages. With skill and sympathy she documents the reasons these women work, their experiences on the job, in the union and at home, the sources of their job satisfaction and their management of the double day. The major issue for this segment of the labor force, Rosen suggests, is not whether to work but the availability and quality of jobs. Rosen argues that deindustrialization, plant closings and job displacement confronts blue collar women, factory workers with a bitter choice between work at lower and lower wages or no work at all. Drawing on quantitative and qualitative data from interviews with more than two hundred such women, factory workers, Rosen traces the ways in which women who do unskilled factory work have gained in self-esteem as well as financial stability from holding paid jobs. Throughout, Rosen explores the relationship between public work experiences and private family life. She analyzes the dynamics of two paycheck working class families, clarifies relationships between class and gender and explores the impact of patriarchy and capitalism on working class women. At the same time, Rosen places women's job loss within the broader economic context of global industrial transformations, demonstrating how international capital shifts to cheaper labor in developing countries as well as technological progress are changing the shape of the entire American labor force and are beginning to undermine the material and symbolic gains of the American female factory worker, the promise of market equality and progressive working conditions. This book is a significant contribution to our understanding of women's work and family lives but it is also a valuable look at the consequences of deindustrialization in America for workers, their families and their communities. Families and Religion Christel Gärtner, Linda Hennig, Olaf Müller, 2025-03-20 This comparative study examines the transmission of religion in families in Germany, Italy, Hungary, Finland and Canada. The authors rely on the widely shared argument that religious change can primarily be understood as an intergenerational process. Based on a mixed methods design, the book investigates the question of how, when, exactly and under what conditions the following generations become less religious than the previous ones. From the perspective of familial and historical generations, the authors examine the significance of religious socialization for the transmission of non-religious worldviews, affiliation, practice and identity. According to a central finding, religious change takes place primarily in the phase of adolescence against the background of the respective social context.

Protection and the Social Responsibility of Firms Bruce L. Hay,Robert N. Stavins,Richard H. K. Vietor,2010-09-30 Everyone agrees that firms should obey the law But beyond what the law requires beyond bare compliance with regulations do firms have additional social responsibilities to commit resources voluntarily to environmental protection How should we think about firms sacrificing profits in the social interest Are they permitted to do so given their fiduciary responsibilities to their shareholders Even if permissible is the practice sustainable or will the competitive marketplace render such efforts and their impacts transient at best Furthermore is the practice however well intended an efficient use of social and economic resources And as an empirical matter to what extent do firms already behave this way Until now public discussion has generated more heat than light on both the normative and positive questions surrounding corporate social responsibility CSR in the environmental realm In Environmental Protection and the Social Responsibility of Firms some of the nation s leading scholars in law economics and business examine commonly accepted assumptions at the heart of current debates on corporate social responsibility and provide a foundation for future research and policymaking **The Essential Guide to**

Children and Separation Jennifer Croly,2013-08-20 Do you know a child affected by the break up of their parents marriage It could be your own child or grandchild your niece nephew or even one of your pupils Divorce is common but for each child involved it is a bewildering and hurtful experience similar to bereavement yet without the same level of support This practical guide is written by a mother who saw how divorce impacted her own four children It shows how family break up affects children differently at various ages and carries on doing so in new ways at later stages of life and as parents move on into new relationships maybe with new siblings The Essential Guide to Children and Separation includes interviews with those who have come through divorce and a lot of input from children currently affected by parental separation This helpful

and caring book shows that divorce may mean the end of a marriage but does not need to be the end of the world for the children involved *Paradigms of Clinical Social Work* Rachelle A. Dorfman,2015-11-17 This fully integrated volume written by the leading experts in the field of social work presents a wide range of therapeutic paradigms Especially noteworthy is the common framework provided for all paradigms discussed thus facilitating comparison and contrast between each approach These paradigms include cognitive brief oriented and psychosocial therapies as well as Adlerian theory and radical behaviorism **Eudora Welty, Whiteness, and Race** Harriet Pollack,2013-01-01 Faced with Eudora Welty's preference for

the oblique in literary performances some have assumed that Welty was not concerned with issues of race or even that she was perhaps ambivalent toward racism This collection counters those assumptions as it examines Welty's handling of race the color line and Jim Crow segregation and sheds new light on her views about the patterns insensitivities blindness and atrocities of whiteness Contributors to this volume show that Welty addressed whiteness and race in her earliest stories her photography and her first novel *Delta Wedding* In subsequent work including *The Golden Apples* *The Optimist's Daughter* and her memoir *One Writer's Beginnings* she made the color line and white privilege visible revealing the gaping distances between lives lived in shared space but separated by social hierarchy and segregation Even when black characters hover in the margins of her fiction they point readers toward complex lives and the black body is itself full of meaning in her work Several essays suggest that Welty represented race like gender and power as a performance scripted by whiteness Her black characters in particular recognize whiteface and blackface as performances especially comical when white characters are unaware of their role play Eudora Welty *Whiteness and Race* also makes clear that Welty recognized white material advantage and black economic deprivation as part of a cycle of race and poverty in America and that she connected this history to lives on either side of the color line to relationships across it and to an uneasy hierarchy of white classes within the presumed monolith of whiteness Contributors Mae Miller Claxton Susan V Donaldson Julia Eichelberger Sarah Ford Jean C Griffith Rebecca Mark Suzanne Marrs Donnie McMahon David McWhirter Harriet Pollack Keri Watson Patricia Yaeger
