Trinidad and Tobago and Guyana Ann Marie Bissessar, John Gaffar La Guerre, 2013 In this book an attempt is made to probe more carefully the processes by which social and ethnic problems as these pertain to Caribbean countries Trinidad and Tobago and Guyana are conveyed to the political arena and the mechanisms by which they determine critical outcomes The authors of this book have accordingly distinguished between predisposing factors and what are described as triggering mechanisms The factors that trigger dramatic changes will differ between Guyana and Trinidad and Tobago In short while in some respects these societies are similar in others there are dramatic differences in their respective histories and political developments This study begins with a survey of the literature on race relations and their connections with politics it then proceeds to examine the context for the insertion of the two major groups into these societies the emergence of ethnic groups and their relationships with political organizations The nature and politics of the leaders are then analyzed along with the political structures with a view to identifying what factors were responsible for the differing political experiences of both countries

Historical Dictionary of Trinidad and Tobago Rita Pemberton, Debbie McCollin, Gelien Matthews, Michael Toussaint, 2018-03-19 As separate entities and later a unified state the Caribbean islands of Trinidad and Tobago boast very unique histories Initially claimed by the Spanish in 1498 these territories were affected by the imperialist thrusts of various European nations including the French British and Dutch The mercantilist infiltrations of these groups particularly in the 18th century led to the islands belated development as sugar producers and particularly Trinidad as a cradle of migration World War II and the development of the oil and tourism industries in the 20th century transformed the economies culture and society of these islands The country has been one of the most important in the region in relation to economic and political leadership and as a centre of cultural development Historical Dictionary of Trinidad and Tobago contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500

cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Trinidad and Tobago **Unraveling**

Ethnic Relations in Plural Societies , 2025-10-27 One of the main legacies of slavery and indentured labour is the existence of multi ethnic and multicultural societies in former tropical colonies of the European empires After the abolition of slavery the indentured labourers were brought to the plantation colonies in order to meet the need for cheap labour for the production of tropical goods From the beginning they faced a situation in which they were regarded as competitors for the freed slaves and or the local population At the same time in various cases the freed slaves and their descendants considered themselves as the indigenous people and were treated as such by the colonial governments In their perspective the colonial governments spent too many resources on the immigration of foreign labourers resources that could have been used to improve the socio economic situation of the descendants of the former slaves To this date this historical past overshadows the relations between different ethnic groups in so called plural societies This book deals with the relations between different ethnic groups in these societies and the challenges they meet to establish peaceful and democratic societies The volume consists of chapters on these societies such as South Africa Guyana Trinidad and Tobago and Suriname

The Dilemmas of Ethnic Policy John Gaffar La Guerre, 2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups From Indians in Trinidad to Indo-Trinidadians N. Jayaram, 2022-09-12 This book explores the dynamics of the socio cultural baggage that Indian indentured migrants took with them to the Caribbean island of Trinidad and how they have since become a vibrant diaspora community namely the Indo Trinidadians It combines social history with first hand fieldwork data to portray human ingenuity in terms of social reconstitution and community building in a hostile socio cultural environment Furthermore it addresses key social institutions religion caste and family and cultural elements language foodways and ethnicity Its analytical framework is guided by the concept of metamorphosis it steers clear of the persistence versus change hypotheses Given its focus it will be of interest to students and scholars of sociology social anthropology history and migration and diaspora studies *Ethnic Conflict in Developing Societies* Ann Marie Bissessar, 2017-06-14 This book examines the experience of post colonial territories and their attempts to manage ethnic communities within their countries The study focuses on Trinidad and Tobago Guyana Suriname and Fiji This project looks at the mechanisms which vary from legislation to political structures systems and institutions that have been introduced to allow for greater integration by these communities and assesses their strengths and weaknesses *The Legacy of Indian Indenture* Maurits S. has approximately ten ritual segments which include the pouring of libation to welcome or appease the ancestors a procession from the groom's residence to the bride's residence or central kweh kweh venue the hiding of the bride and the negotiation of bride price Each ritual segment is executed with music and dance which allow for commentary on conjugal matters such as sex domestication submissiveness and hard work Come to My Kwe Kwe replicates the overarching segments of the traditional kweh kweh but a couple male and female from the audience acts as the bride and groom and props simulate the boundaries of the traditional performance space such as the gate and the bride's home This book draws on more than a decade of ethnographic research data and demonstrates how Come to My Kwe Kwe allows African Guyanese Americans to negotiate complex overlapping identities in their new homeland by combining elements from the past and present and reinterpreting them to facilitate rediasporization and ensure group survival

world **Politicized Microfinance** Caroline Shenaz Hossein, 2016-08-04 When Grameen Bank was awarded the Nobel Peace Prize in 2006 microfinance was lauded as an important contributor to the economic development of the Global South. However, political scandals, mission drift, and excessive commercialization have tarnished this example of responsible or inclusive financial development. *Politicized Microfinance* insightfully discusses exclusion while providing a path towards redemption. In this work, Caroline Shenaz Hossein explores the politics, histories, and social prejudices that have shaped the legacy of microbanking in Grenada, Guyana, Haiti, Jamaica, and Trinidad. Writing from a feminist perspective, Hossein's analysis is rooted in original qualitative data and offers multiple solutions that prioritize the needs of marginalized and historically oppressed people of African descent. A must read for scholars of political economy, diaspora studies, social economy, women's studies, as well as development practitioners. *Politicized Microfinance* convincingly and deftly argues for microfinance to return to its origins as a political tool fighting for those living in the margins.

Diversity, Equality, and Inclusion in Caribbean Organisations and Society Jacqueline H. Stephenson, Natalie Persadie, Ann Marie Bissessar, Talia Esnard, 2020-09-16 This book focuses on equality, inclusion, and discrimination within the English-speaking Caribbean region, specifically as it relates to employment, education, society, and the law. Though anti-discrimination laws have recently been enacted in the Caribbean, this in and of itself neither translates to societal changes nor changes within the organisational context. The authors examine racial diversity in public sector organisations in Trinidad and Tobago and Guyana, gender diversity in organisations across the Caribbean region, sexual orientation and its impact on employment, disability, and access within organisations, and equality and inclusion within Caribbean institutions of higher education. Further, the book explores the region's equality laws and compares them with legislation from selected developed countries. This interdisciplinary text provides researchers in HRM, organisational behavior, sociology, and public policy with an overview of the types of discrimination prevalent within the Caribbean, as well as the varied institutional frameworks in place that encourage equality.

Politics, Ethnicity and the Postcolonial Nation Eleonora Esposito, 2021-05-15 This book explores the politics of ethnicity and nationalism in the Caribbean from a critical discourse analytical perspective. Focusing on political communication in Trinidad and Tobago, it offers unique socio-political insights into one of the most complex and diverse countries of the Archipelago. Through a detailed reconstruction of Kamla Persad Bissessar's 2010 victorious run for office, this book offers ample empirical evidence of the multimodal discursive strategies that held the key to the success of the first woman PM candidate and her inter-ethnic coalition bid to overcome political tribalism in the country. In parallel, it explores the implications and challenges of the postcolonial Trinbagonian national project caught between pluralism and creolization. Through its innovative context-dependent and interdisciplinary CDS approach, this book breaks new ground in Caribbean Studies while at the same time broadening the horizons of the Euro-American tradition of Political Discourse Studies to address the complexities of global postcoloniality.
