book takes 1986 as its cut off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group The book includes Production histories and technical specifications of every major model The special overseas models Appendices on engines code names and factories Buying guidance on the models built in Britain This is the most comprehensive book so far to focus on the cars from British Leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details It is profusely illustrated with 178 colour and 63 b w photographs
