Tropes And Territories Tropes And Territories:

Tropes and Territories Marta Dvorak, W.H. New, 2007-10-26 Tropes and Territories demonstrates how current debates in postcolonial criticism bear on the reading writing and status of short fiction These debates which hinge on competing definitions of trope motif vs rhetorical turn and territory political or aesthetic lead to studies of space place influence and writing and reading practices across cultural divides The essays also explore the character of diasporic writing the cultural significance of oral tale telling and interconnections between socio political issues and strategies of style **Tropes and Territories** Marta Dvorak, William Herbert New, 2007 Breakthrough essays on the postcolonial short stories of writers such as Rohinton Mistry David Malouf and Witi Ihimaera Handbook on the Geographies of Regions and Territories Anssi Paasi, John Harrison, Martin Jones, 2018-07-27 This new international Handbook provides the reader with the most up to date and original viewpoints on critical debates relating to the rapidly transforming geographies of regions and territories as well as related key concepts such as place scale networks and regionalism Bringing together renowned specialists who have extensively theorized these spatial concepts and contributed to rich empirical research in disciplines such as geography sociology political science and IR studies this interdisciplinary collection offers fresh cutting edge and contextual insights on the significance of regions and territories in today's dynamic world *The Confines of Territory* John Agnew, 2020-12-17 The word territory has taken on renewed significance in a world where its close association with state sovereignty has made a serious comeback invoked alike by proponents of Brexit in the UK Making America Great Again in the USA and myriad populists from India to Brazil by way of Italy and Hungary The word has had a contentious history in social science and political theory In its first seven years the journal Territory Politics Governance has published numerous articles examining the ways in which territory figures into contemporary political debates and its limits as a concept when applied to a world in which sovereignty never has simply pooled up within self evidently distinctive blocs of space named as territories Among other things the limits of territory are apparent in terms of the history of a global capitalism that always bursts beyond established boundaries the fact that some states are much more powerful and exercise much more spatial reach than do others and that the political uses of territory in its current usage date back predominantly to seventeenth century Europe rather than being historically transcendental or worldwide The articles in this book are selected from Territory Politics Governance to survey many of the dilemmas and questions that haunt the concept of territory even as its current efflorescence in political discourse ignores them *Unquiet Tropes* Elda E Tsou, 2015-03-27 Until quite recently Asian American literary criticism had little to do with form Instead the tendency was to bind the literary tradition to identity formation For Elda Tsou however the distinctions of ethnic writing extend beyond such facile referential practices to incorporate form and aesthetics In *Unquiet Tropes* Tsou reconceptualizes the literature as a set of highly particular classical rhetorical tropes including antanaclasis rhetorical question apophasis catachresis and allegory Looking at five canonical

works Aiiieeeee No No Boy China Men Blu s Hanging and Native Speaker Tsou shows how these texts use figurative means to confront the problem of race She also explores how traces of Asian American history live on through these figures Each case study in *Unquiet Tropes* considers a different scenario defiance coercion necessity error and deceit to show how literary representation from the 1950s through 1997 has responded to a specific political condition *Gendered Tropes in War Photography* Marta Zarzycka, 2016-09-13 Photographic stills of women appearing in both press coverage and relief campaigns have long been central to the documentation of war and civil conflict Images of non Western women in particular regularly function as symbols of the misery and hopelessness of the oppressed Featured on the front pages of newspapers and in NGO reports they inform public understandings of war and peace victims and perpetrators but within a discourse that often obscures social and political subjectivities Uniquely this book deconstructs in a systematic gender sensitive way the repetitive circulation of certain images of war conflict and state violence in order to scrutinize the role of photographic tropes in the globalized visual sphere Zarzycka builds on feminist theories of representations of war to explore how the concepts of femininity and war secure each other s intelligibility in photographic practices This book examines the complex connections between photographic tropes and the individuals and communities they represent in order to rethink the medium of photography as a discursive and political practice This book interrogates both the structure and transmission of contemporary encounters with war violence and conflict It will appeal to advanced students and scholars of gender studies visual studies media studies photography theory cultural anthropology cultural studies and trauma and memory studies

Territory Nicholas Blomley, 2022-08-31 This book introduces readers to the concept of territory as it applies to law while demonstrating the particular work that territory does in organizing property relations Territories can be found in all societies and at all scales although they take different forms The concern here is on the use of territories in organizing legal relations Law as a form of power often works through a variety of territorial strategies serving multiple legal functions such as attempts at creating forms of desired behaviour Landed property in Western society is often highly territorial reliant on sharply policed borders and spatial exclusion But rather than thinking of territory as obvious and given or as a natural phenomenon this book focuses particularly on its relation to property to argue that territory is both a social product and a specific technology that organizes social relations That is territory is not simply an outcome of property relations but a strategic means by which such relations are communicated imagined legitimized enforced naturalized and contested Accessible to students this book will be of interest to those working in the areas of sociolegal studies geography urban studies and politics *Beneventanum Tropicorum Corpus II, Part 2a* John Boe, 1990-02-01 Genre Tropes Hugo Raines, AI, 2025-05-05 *Genre Tropes* explores the fundamental narrative patterns that define thriller fantasy and horror revealing how these seemingly different genres share common storytelling mechanics The book argues that genre tropes are not clich s but rather essential building blocks that when used effectively create resonant experiences for audiences For

example the final girl in horror and the chosen one in fantasy though distinct both fulfill specific narrative roles that tap into audience expectations and emotional responses The book examines how societal anxieties and aspirations shape these tropes tracing their evolution through literature film and television It delves into the psychological impact of tropes revealing how they cater to our need for narrative and influence our perceptions Understanding narrative tropes provides both creators and audiences a deeper appreciation of storytelling Structured in three parts the book first introduces genre theory and narrative structure It then explores specific tropes within thriller fantasy and horror dedicating chapters to their evolution and cultural significance Finally it synthesizes these findings offering practical guidance for writers and filmmakers on how to use tropes effectively

Image and Territory Jennifer Burwell, Monique Tschofen, 2007 In a culture that often understands formal experimentation or theoretical argument to be antithetical to pleasure Atom Egoyan has nevertheless consistently appealed to wide audiences around the world If films like *The Adjuster* *Calendar Exotica* and *The Sweet Hereafter* have ensured him international cult status as one of the most revered of all contemporary directors Egoyan's forays into installation art and opera have provided evidence of his versatility and confirmed his talents Throughout his career Atom Egoyan has shown himself to possess the rarest kind of singularity As Jonathan Romney puts it Egoyan's preoccupations and tropes have been so consistent that he's practically created his own genre³ 1995:8 Hrag Vartanian adds "Egoyanesque has become a word to film aficionados commonly understood to mean a cinematic moment that examines sexuality technology and alienation in the modern world"³ 2004 For this singularity Egoyan is widely hailed as a true auteur someone carrying on the legacy of the European art house traditions of Bergman Godard and Truffaut Certainly his work bears a most recognizable signature there is no confusing an Egoyan work with anyone else's Like his art house predecessors Egoyan clearly intends that his work be as Dudley Andrew puts it "read rather than consumed"³ that is viewed meditatively reflected upon and discussed 2000:24 And indeed in this world in which filmmaking has become commonplace where as Egoyan has said "what used to be a rarified activity is now available to anyone with a digital camera and a computer"³ 2001b:18 he intends through much of his work to recall an earlier image culture in which artists had an ability to produce something that gained its power precisely through its rarity

"The Disenthralled Hosts of Freedom" David Grant, 2021-05-15 Walt Whitman wrote three distinct editions of *Leaves of Grass* before the Civil War During those years he was passionately committed to party anti slavery and his unpublished tract *The Eighteenth Presidency* shows that he was fully attuned to the kind of rhetoric coming out of the new Republican party This study explores how the prophecies of the pre war *Leaves of Grass* relate to the prophecy of this new party It seeks not only to ground Whitman's work in this context but also to bring out features of party discourse that make it relevant to literary and cultural studies Anti slavery party discourse set itself the task of curing an ailing people who had grown compliant inert and numb it fashioned a complete fictional world where the people could be reactivated into assuming their true role in the republic Both as a cause and a result of this rejuvenation they would come into their own and spread

their energies over the land and over the body politic thereby rescuing their country at the last minute from what would otherwise be the permanent dominion of slavery Party discourse had long hinged its success on such magical transformations of the people individually and collectively and Whitman's celebrations of his nation's potential need to be seen in this context like his party Whitman calls on the people to reject their own subordination and take command of the future and redeem themselves as they also redeem the nation

Territorial Stigmatisation Constanze Letsch, 2023-05-09 In Tarlabasi an Istanbul neighbourhood facing massive redevelopment and displacement marginalised residents speak about belonging stigma and what their community means to them Based on a long term ethnographic study that includes interviews photographs and archival research Constanze Letsch examines how territorial stigmatisation is weaponised by the state and how differently stigmatised groups try to fight against the vilification of their neighbourhood The contested plans of urban renewal threaten not only their homes and workplaces but a rapidly vanishing Istanbul socio demographic interdependencies and networks that have developed over decades

Territorial Terrors Gerhard Stilz, 2007

Ciaran Carson Neal Alexander, 2010-01-01 A PDF version of this book is available for free in open access via the OAPEN Library platform www.oapen.org Ciaran Carson is one of the most challenging and inventive of contemporary Irish writers exhibiting verbal brilliance formal complexity and intellectual daring across a remarkably varied body of work This study considers the full range of his oeuvre in poetry prose and translations and discusses the major themes to which he returns including memory and history narrative language and translation mapping violence and power It argues that the singularity of Carson's writing is to be found in his radical imaginative engagements with ideas of space and place The city of Belfast in particular occupies a crucially important place in his texts serving as an imaginative focal point around which his many other concerns are constellated The city in all its volatile mutability is an abiding frame of reference and a reservoir of creative impetus for Carson's imagination Accordingly the book adopts an interdisciplinary approach that draws upon geography urbanism and cultural theory as well as literary criticism It provides both a stimulating and thorough introduction to Carson's work and a flexible critical framework for exploring literary representations of space

Territory Beyond Terra Kimberley Peters, Philip Steinberg, Elaine Stratford, 2018-03-08 At the root of our understanding of territory is the concept of terra land a surface of fixed points with stable features that can be calculated categorised and controlled But what of the many spaces on Earth that defy this simplistic characterisation Oceans in which places are continuously re formed Air that can never be fully contained Watercourses that obtain their value by transcending boundaries This book examines the politics of these spaces to shed light on the challenges of our increasingly dynamic world Through a focus on the planet's elements environments and edges the contributors to *Territory beyond Terra* extend our understanding of territory to the dynamic contentious spaces of contemporary politics

The Map and the Territory Shyam Wuppuluri, Francisco Antonio Doria, 2018-02-13 This volume presents essays by pioneering thinkers including Tyler Burge Gregory Chaitin Daniel Dennett Barry Mazur Nicholas

Humphrey John Searle and Ian Stewart Together they illuminate the Map Territory Distinction that underlies at the foundation of the scientific method thought and the very reality itself It is imperative to distinguish Map from the Territory while analyzing any subject but we often mistake map for the territory Meaning for the Reference Computational tool for what it computes Representations are handy and tempting that we often end up committing the category error of over marrying the representation with what is represented so much so that the distinction between the former and the latter is lost This error that has its roots in the pedagogy often generates a plethora of paradoxes confusions which hinder the proper understanding of the subject What are wave functions Fields Forces Numbers Sets Classes Operators Functions Alphabets and Sentences Are they a part of our map theory representation Or do they actually belong to the territory Reality Researcher like a cartographer clothes or creates the reality by stitching multitudes of maps that simultaneously co exist A simple apple for example can be analyzed from several viewpoints beginning with evolution and biology all the way down its microscopic quantum mechanical components Is there a reality or a real apple out there apart from these maps How do these various maps interact intermingle with each other to produce a coherent reality that we interact with Or do they not Does our brain use its own internal maps to facilitate physicist mathematician in us to construct the maps about the external territories in turn If so what is the nature of these internal maps Are there meta maps Evolution definitely fences our perception and thereby our ability to construct maps revealing to us only those aspects beneficial for our survival But the question is to what extent Is there a way out of the metaphorical Platonic cave erected around us by the nature While Map is not the territory as Alfred Korzybski remarked join us in this journey to know more while we inquire on the nature and the reality of the maps which try to map the reality out there The book also includes a foreword by Sir Roger Penrose and an afterword by Dagfinn Føllesdal

Huichol Territory and the Mexican Nation Paul M. Liffman, 2023-02-07 The Huichol Wixarika people claim a vast expanse of Mexico's western Sierra Madre and northern highlands as a territory called kiekari which includes parts of the states of Nayarit Jalisco Durango Zacatecas and San Luis Potos This territory forms the heart of their economic and spiritual lives But indigenous land struggle is a central fact of Mexican history and in this fascinating new work Paul Liffman expands our understanding of it Drawing on contemporary anthropological theory he explains how Huichols assert their sovereign rights to collectively own the 1 500 square miles they inhabit and to practice rituals across the 35 000 square miles where their access is challenged Liffman places current access claims in historical perspective tracing Huichol communities long term efforts to redress the inequitable access to land and other resources that their neighbors and the state have imposed on them Liffman writes that the cultural grounds for territorial claims were what the people I wanted to study wanted me to work on Based on six years of collaboration with a land rights organization interviews and participant observation in meetings ceremonies and extended stays on remote ranches as Huichol Territory and the Mexican Nation analyzes the sites where people define Huichol territory The book's innovative structure echoes Huichols

own approach to knowledge and examines the nation and state not just the community Liffman s local regional and national perspective informs every chapter and expands the toolkit for researchers working with indigenous communities By describing Huichols ceremonially based placemaking to build a theory of historical territoriality he raises provocative questions about what place means for native peoples worldwide **For the Nation** Nicholas R. Brown,2016-09-29 The nature of the kingdom Jesus proclaims in the Gospels has long been a subject of intense theological debate More recently the lines of this debate have dramatically shifted as several leading historical Jesus scholars and Christian social ethicists have argued that Jesus kingdom proclamation most likely expresses a first century Jewish hope for Israel s restoration Yet while several are now sanguine that Jesus kingdom vision constitutes nothing less than a full throated restoration of Israel s nationality they are just as certain it rejects a restoration of Israel s land As such it has become increasingly fashionable to say that an authentic practice of the kingdom ethic that Jesus enunciates must necessarily be a territorial The purpose of this work is to respond to these arguments and show why this can and indeed should not be the case Through a careful and detailed process of historical investigation biblical exegesis theological exploration and ethical analysis we will come to see that not only is the kingdom that Jesus proclaims inextricably landed but also why such a kingdom is integral to articulating a Christian ethic of territorial governance *Margin/alias* Sylvia Söderlind,1991 The Routledge Handbook of Comparative Territorial Autonomies Brian C. H. Fong,Atsuko Ichijo,2022-06-28 The Routledge Handbook of Comparative Territorial Autonomies affords a comprehensive pioneering and interdisciplinary survey of this emerging field Moving beyond traditionally narrower engagements with the subject it combines approaches to comparative law and comparative politics to provide an authoritative guide to the principal theoretical and empirical topics in the area Bringing together a team of cutting edge scholars from different disciplines and continents the volume illuminates the latest thinking and scholarship on comparative territorial autonomies This Handbook is an authoritative essential reference text for students academics and researchers in its field It will also be of key interest to those in the fields of comparative politics comparative law local regional government federalism decentralisation and nationalism as well as practitioners in think tanks NGOs and international governmental organisations
