Tristan Isolde Manfred Albrecht:

Pleasure and Leisure in the Middle Ages and Early Modern Age Albrecht Classen, 2019-08-05 Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre modern civilization Recent research has begun to acknowledge the fundamental importance of these aspects in cultural religious philosophical and literary terms This volume expands on the traditional approach still very much focused on the materiality of game toys cards dice falcons dolls etc and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune Whether considering blessings or horse fighting falconry or card games playing with dice or dolls we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time The contributions examine a wide gamut of approaches to pleasure considering health issues eroticism tournaments playing music reading and listening drinking alcohol gambling and throwing dice This large issue was also relevant of course in non Christian societies and constitutes a critical concern both for the past and the present because we are all homines ludentes Public Library Catalog ,1972

Multilingualism in the Middle Ages and Early Modern Age Albrecht Classen, 2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms

Music & Opera Around the World ,2008 *Einführung in die Film Didaktik* Petra Anders, Michael Staiger, Christian Albrecht, Manfred Rüssel, Claudia Vorst, 2019-08-27 Das Medium Film ist ein zentraler Gegenstand des Deutschunterrichts von der Grundschule bis zur Oberstufe und Bestandteil der Bildungspläne aller Bundesländer Dieser Band führt Studierende Lehramtsanwärter und Lehrkräfte in grundlegende Ansätze der Film Didaktik ein Die Autorinnen erläutern das Handwerkszeug für die Analyse und Didaktisierung von Filmen anhand zahlreicher Filmbeispiele aus verschiedenen Genres und am Spiel und Dokumentarfilm Animationsfilm an Nachrichtensendungen Werbespots und Internet Tutorials Neben Literaturverfilmungen spielen auch neue Formen des Internetfilms Originalstoffe und Stummfilme sowie die Didaktik des Horrorfilms eine Rolle In zweifarbiger Gestaltung mit vielen Abbildungen sowie mit

zahlreichen Beispielanalysen und Unterrichtsvorschlägen **The Secret in Medieval Literature** Albrecht Classen, 2022-10-17 The Secret in Medieval Literature Alternative Worlds in the Middle Ages explores the many strange phenomena both in the Middle Ages and today that do not find any good rational explanations Those do not pertain to magic or to religion in the traditional sense of the word they are secrets of an epistemological kind and tend to defy human rationality without being marginal or irrelevant At first sight we might believe that we face elements from fairy tales but the medieval cases discussed here go far beyond such a simplistic approach to the mysterious dimension of secrets In fact as this book argues medieval poets commonly engaged with alternative forces and described their workings within the human context both in the Latin West and in the East without being able to come to terms with them critically Those mysteries appear both in heroic epics and courtly romances among other genres and they figure more frequently than we might have assumed On the one hand we could conceive of those secrets as the product of literary liberties and imagination on the other those secrets prove to be rather serious agents intervening in the lives of the fictional protagonists By the same token our modern world is not all rationality and material conditions either The study of secrets in the Middle Ages thus opens the pathway toward a new epistemology both for the people in the pre modern age and us today **The New Cambridge Companion to Medieval Romance** Roberta L. Krueger, 2023-05-25 This new Companion introduces the most important medieval vernacular literary genre in Britain and continental Europe **Nature in the Middle Ages and the Early Modern Times** Albrecht Classen, 2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches Arthurian Bibliography IV Elaine Barber, 2002 This fourth volume of entries culled in the main from BBSIA covers the years 1933 to 1998 inclusive The cumulative volumes of the Bibliography offer an exhaustive author and title database of the burgeoning scholarship in this

field *Bruckner's Symphonies* Julian Horton, 2004-11-25 Few works in the nineteenth century repertoire have aroused such extremes of hostility and admiration or have generated so many scholarly problems as Anton Bruckner's symphonies In this 2004 book Julian Horton seeks fresh ways of understanding the symphonies and the problems they have accrued by treating them as the focus for a variety of inter disciplinary debates and methodological controversies He isolates problematic areas in the works analysis and reception and approaches them from a range of analytical historical philosophical literary critical and psychoanalytical viewpoints The symphonies are thus explored in the context of a number of crucial and sometimes provocative themes including the political circumstances of the works production Bruckner and post war musical analysis issues of musical influence the problem of editions Bruckner and psychobiography and the composer's controversial relationship to the Nazis **Opera in Performance** Clemens Risi, 2021-09-27 Opera in Performance elucidates the performative dimension of contemporary opera productions What are the most striking and decisive moments in a performance Why do we respond so strongly to stagings that transform familiar scenes to performers bodily presence and to virtuosic voices as well as ill disposed ones Drawing on phenomenology and performance theory Clemens Risi explains how these moments arise out of a dialogue between performers and the audience representation and presence the familiar and the new He then applies these insights in critical descriptions of his own experiences of various singers stagings and performances at opera houses and festivals from across the German speaking world over the last twenty years As the first book to focus on what happens in performance as such this study shifts our attention to moments that have eluded articulation and provides tools for describing our own experiences when we go to the opera This book will particularly interest scholars and students in theater and performance studies musicology and the humanities and may also appeal to operagoers and theater professionals British Museum Catalogue of printed Books ,1895 The Musical World ,1876

Lexikon der antiken Gestalten in den deutschen Texten des Mittelalters Manfred Kern, Alfred Ebenbauer, 2012-03-12 Die Auseinandersetzung mit der Antike hat die mittelalterliche Geistesgeschichte wesentlich bestimmt. Antike Stoffe und Texte leisteten einen entscheidenden Beitrag zur Entstehung des volkssprachlichen Romans. Die antike Mythologie ist in einer breiten Tradition von Exempla und Vergleichen das ganze Mittelalter hindurch präsent. Das Lexikon der antiken Gestalten in den deutschen Texten des Mittelalters gibt nun in Form eines Namenlexikons erstmals einen systematischen Überblick über die Antikerezeption des deutschen Hochmittelalters. Verzeichnet sind alle Gestalten aus antiker Mythologie und Geschichte, die in der weltlichen, geistlichen und historiographischen Literatur von ca. 1100–1350 belegt sind. Die Artikel gliedern sich in einen Belegteil mit Angaben zum Inhalt und in einen Kommentarteil der Grundlinien und Bereiche in der Rezeption sowie Verbindungen zur Antikerezeption der mittellateinischen und romanischen Literatur darstellt. Eine ausführliche Bibliographie und mehrere Indices komplettieren das umfassende Nachschlagewerk.
