Understanding International Differences In The Gender Pay Gap Nber Working Paper Series:

Understanding International Differences in the Gender Pay Gap Francine D. Blau, Lawrence M. Kahn, 2001 This paper tests the hypotheses that overall wage compression and low female supply relative to demand reduce a country's gender pay gap Using micro data for 22 countries over the 1985-94 period we find that more compressed male wage structures and lower female net supply are both associated with a lower gender pay gap Since it is likely that labor market institutions are responsible for an important portion of international differences in wage inequality the inverse relationship between the gender pay gap and male wage inequality suggests that wage setting mechanisms such as encompassing collective bargaining agreements that provide for relatively high wage floors raise the relative pay of women who tend to be at the bottom of the wage distribution Consistent with this view we find that the extent of collective bargaining coverage in each country is significantly negatively associated with its gender pay gap Moreover the effect of pay structures on the gender pay gap is quantitatively very important a large part of the difference in the gender differential between high gap and low gap countries is explained by the differences across these countries in overall wage structure with another potentially important segment due to differences in female net supply

The gender pay gap in the health and care sector World Health Organization, International Labour Organization, 2022-07-13 *Working Paper Series*, 2002 *Arbeit der Zukunft* Reiner Hoffmann, Claudia Bogedan, 2015-05-11 Wirtschaft und Arbeitsleben verändern sich rasant Technologische Umbrüche folgen immer schneller aufeinander Dienstleistungen werden in globalem Maßstab erbracht prekäre Beschäftigungsformen und psychische Belastungen nehmen zu Neue Lebensentwürfe stellen den klassischen Arbeitstag infrage Konflikte brechen auf um den Wert der Arbeit um gerechte Bezahlung um die Entgrenzung von Arbeit und Leben Dieses Buch analysiert aktuelle Entwicklungen auf nationaler und internationaler Ebene nennt Handlungsfelder und Lösungssansätze für Politik Gewerkschaften und Arbeitgeber Im Spannungsfeld der neuen Wirtschafts- und Arbeitsbedingungen zeigt es programmatisch auf wie neue Leitlinien für Gute Arbeit entwickelt werden können für eine Arbeit der Zukunft

Babies and Bosses - Reconciling Work and Family Life A Synthesis of Findings for OECD Countries OECD, 2007-11-29 This book synthesises the finding of the 13 individual country reviews published previously and extends the scope to include other OECD countries examining tax benefit policies parental leave systems child care support and workplace practices

The Economic Crisis in Social and Institutional Context Sebastiano Fadda, Pasquale Tridico, 2015-02-20 This book explores the foundations of the current economic crisis Offering a heterodox approach to interpretation it examines the policies implemented before and during the crisis and the main institutions that shaped the model of advanced economies particularly in the last two decades The first part of the book provides a theoretical analysis of the crisis The roots of the great recession are divided into fundamentals with origins in financial liberalisation financial innovation and income distribution and complementary or contributory factors such as the international imbalances the monetary policy and the role of credit rating agencies Part II

suggests various paths to recovery while emphasising that it will be necessary to develop alternative strategies for sustainable economic recovery and growth These strategies will require genuine political support and a new great European vision to address major issues concerning the EU such as unemployment structural regional differences and federalism Drawing on various schools of thought this book explains the complexities of the crisis through a wider evolutionary institutional and heterodox framework *Frontiers in the Economics of Gender* Francesca Bettio,Alina Verashchagina,2009-11-24 Gender is now recognized as a fundamental organizing principle for economic as well as social life and related research has grown at an unprecedented pace in the recent decades across branches of economics The volume takes stock of this research proposes novel analytical frameworks and outlines further research directions It grew out of the Summer School of International Research in Pontignano University of Siena that traditionally brings together the most representative scholars in the chosen field The thirteen essays included in the volume cover recent advances in gender related issues across disciplinary branches from Economic History and the History of Economic Thought to Macroeconomics Household Economics the Economics of Care Work Labour Economics Institutional and Experimental Economics The volume is primarily addressed to graduate students in Economics and is an essential companion for researchers in the area of Gender Economics As most essays are written in a non technical language it is also of interest to a wider audience including specialists in Sociology Demography and History **The Oxford Handbook of the Economy of Cameroon** Célestin Monga,2022 This Handbook provides a critical assessment of the history patterns and strategies of economic development in Cameroon and outlines new approaches to economic enquiry for prosperity and social change *Pensions at a Glance 2015 OECD and G20 indicators* OECD,2015-12-01 The 10 year anniversary edition of Pensions at a Glance highlights the pension reforms undertaken by OECD and G20 countries over the last two years Two special chapters provide deeper analysis of first tier pension schemes and of the impact of short or interrupted careers due to late entry **European Social Policy and the COVID-19 Pandemic** Stefanie Börner,Martin Seeleib-Kaiser,2023-08-08 This is an open access title available under the terms of a Creative Commons Attribution Non Commercial No Derivatives 4 0 International license CC BY NC ND 4 0 It is free to read at Oxford Academic and offered as a free PDF download from OUP and select open access locations European Social Policy and the COVID 19 Pandemic Challenges to National Welfare and EU Policy provides an encompassing and longer term analysis of the social policy responses of European countries as well as the European Union EU to the challenges of the pandemic The book asks in which direction the European welfare states on the one hand and EU social policy on the other are developing as a result of the pandemic with respect to polity politics and policy instruments The issues raised not only concern the future of welfare states in Europe but also EU level social policy making and European integration in general [Women in Science Now](#) Lisa M. P. Munoz,2023-10-31 Silver Medal in the Social Change and Social Justice Category 2024 Nautilus Book Awards Winner 2024 Choice Outstanding Academic Title Women working in the sciences face

obstacles at virtually every step along their career paths From subtle slights to blatant biases deep systemic problems block women from advancing or push them out of science and technology entirely Women in Science Now examines solutions to this persistent gender gap offering new perspectives on how to make science more equitable and inclusive for all This book shares stories and insights of women from a range of backgrounds working in various disciplines illustrating the journeys that brought them to the sciences the challenges they faced along the way and the important contributions they have made to their fields Lisa M P Munoz combines these narratives with a wealth of data to illuminate the size and scope of the challenges women scientists face while highlighting research based solutions to help overcome these obstacles She presents groundbreaking studies in social psychology and organizational behavior that are informing novel approaches for combating historic and ongoing inequities Through a combined focus on personal experiences and social science research this timely book provides both a path toward greater gender equity and an inspiring vision of science and scientists *Gender*

Inequality David E. Newton, 2019-10-25 Gender Inequality A Reference Handbook discusses the role women have played throughout human history and play in the modern day including both advances that have been made in the fight for equality and problems remaining to be solved Gender Inequality A Reference Handbook is divided into two parts Chapters One and Two provide a historical background to the topic and a review of current issues and problems The remaining chapters aid readers in continuing their own research on the topic through an extended annotated bibliography chronology glossary noteworthy individuals and organizations in the field and important data and documents This book covers the topic of gender inequality from the earliest pages of human history to the present day It differs from other works in the field primarily because of the variety of resources provided such as further reading perspective essays on the topic a historical timeline and useful terms in the field It is intended for readers of high school through the community college level along with adult readers who may be interested in the topic **Economic Impact and Recovery Following a Global Health Crisis**

Sloboda, Brian W., Sissoko, Yaya, 2022-01-14 The COVID 19 pandemic has raised challenges in the assessment of macroeconomic and microeconomic impacts The impacts of COVID 19 on the macro and micro sectors of the economy and the current and future economic tendencies have yet to be determined The impact of COVID 19 research holds limitless potential but the necessary research for professionals to understand the economic impacts is lacking and unclear Economic Impact and Recovery Following a Global Health Crisis assesses the economic impacts of the COVID 19 pandemic with a focus on the macroeconomic and microeconomic and uses various statistical methods and real world data to predict and establish specific trends within the economy Covering topics such as firm behavior and national economies it is ideal for policymakers industry professionals researchers academicians instructors and students *Inequality in the United States* John Brueggemann, 2020-11-25 For courses in Inequality Social Stratification and Social Problems A thoughtful compilation of readings on inequality in the United States The main objective of this text is to introduce students to the subject of social

stratification as it has developed in sociology The central focus is on domestic inequality in the United States with some attention to the broader international context The primary goal of the text is to offer an understanding of the history and context of debates about inequality and a secondary goal is to give some indication as to what issues are likely to arise in the future **The Oxford Handbook of Economic Inequality** Wiemer Salverda, Brian Nolan, Timothy M.

Smeeding, 2009-02-19 Comprehensive analysis of economic inequality in developed countries The contributors give their view on the state of the art scientific research in their fields and add their own visions of future research Foundations of Real-World Economics John Komlos, 2023-03-20 The 2008 financial crisis the rise of Trumpism and the other populist movements which have followed in their wake have grown out of the frustrations of those hurt by the economic policies advocated by conventional economists for generations Despite this textbooks remain frozen in time continuing to uphold traditional policies as though nothing has happened Foundations of Real World Economics demonstrates how misleading it can be to apply oversimplified models of perfect competition to the real world The math works well on college blackboards but not so well on the Main Streets of America This volume explores the realities of oligopolies the real impact of the minimum wage the double edged sword of free trade and other ways in which powerful institutions cause distortions in mainstream models Bringing together the work of key scholars like Kahneman Minsky and Schumpeter this textbook takes into consideration the inefficiencies that arise when the perfectly competitive model is applied to the real world dominated by multinational oligopolies The third edition has been updated throughout bringing in new material on the financial crises the rise of populism racism inequality climate change and the Covid 19 pandemic A must have for students studying the principles of economics as well as micro and macroeconomics this textbook redresses the existing imbalance in economic teaching as John Komlos focuses on the paradigm of humanistic economics Handbook of Social Problems George Ritzer, 2004 Ritzer s Handbook of Social Problems offers a comprehensive treatment of today s major societal issues The articles are authored by some of the top scholars in the field and address problem areas that will capture the interests of students and professors alike The international coverage is most welcome in this time of intensifying global inequalities Nancy Jurik Arizona State University The Handbook of Social Problems A Comparative International Perspective provides a unique broadly comparative perspective on the current state of social problems and deviance in a variety of societies around the world Editor George Ritzer along with leading U S and international sociologists examines the relationship between social problems and a society s level of development and affluence The essays in this volume focus on four interrelated issues involved in the relationship between social problems and the level of development and affluence Less developed and less affluent societies are more likely to experience a range of social problems than developed and affluent societies Affluence causes or at least brings with it a series of social problems that do not exist in less affluent societies It is only with affluence that certain things can come to be imagined as social problems such as excessive consumption The very affluence of a society

makes it vulnerable to problems that would not be social problems in poorer societies The Handbook explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies This theory is clearly illustrated in this volume by the aftermath of September 11 2001 depicting the vulnerability of the U S to social problems in far removed corners of the world In addition the international and comparative essays in this volume cover other important issues such as the impact of modern technologies on social problems ecological problems global inequality health as a social problem and much more The Handbook of Social Problems is a vital resource for sociologists and graduate students as well as an excellent addition to any academic library **Society at a Glance 2001 OECD Social Indicators** OECD,2001-08-21 OECD s new annual publication that provides statistical data on such topics as fertility asylum seekers and refugees employment retirement early childhood education and care replacement rates poverty the gender wage gap social expenditure health suicide group membership and prisoners

Gender in the Labor Market Solomon W. Polachek,Konstantinos Tatsiramos,Klaus F. Zimmermann,2015-08-20 Why in 2015 are there still large gender differences in economic success This volume consists of a set of state of the art research articles to answer this question Focus areas include educational attainment financial risk management bargaining power social mobility and intergenerational transfers in the US and abroad *The Declining Significance of Gender?* Francine D. Blau,Mary C Brinton,David B. Grusky,2006-05-11 The last half century has witnessed substantial change in the opportunities and rewards available to men and women in the workplace While the gender pay gap narrowed and female labor force participation rose dramatically in recent decades some dimensions of gender inequality most notably the division of labor in the family have been more resistant to change or have changed more slowly in recent years than in the past These trends suggest that one of two possible futures could lie ahead an optimistic scenario in which gender inequalities continue to erode or a pessimistic scenario where contemporary institutional arrangements persevere and the gender revolution stalls In *The Declining Significance of Gender* editors Francine Blau Mary Brinton and David Grusky bring together top gender scholars in sociology and economics to make sense of the recent changes in gender inequality and to judge whether the optimistic or pessimistic view better depicts the prospects and bottlenecks that lie ahead It examines the economic organizational political and cultural forces that have changed the status of women and men in the labor market The contributors examine the economic assumption that discrimination in hiring is economically inefficient and will be weeded out eventually by market competition They explore the effect that family organizational policies have had in drawing women into the workplace and giving them even footing in the organizational hierarchy Several chapters ask whether political interventions might reduce or increase gender inequality and others discuss whether a social ethos favoring egalitarianism is working to overcome generations of discriminatory treatment against women Although there is much rhetoric about the future of gender inequality *The Declining Significance of Gender* provides a sustained attempt to consider analytically the forces that are

shaping the gender revolution Its wide ranging analysis of contemporary gender disparities will stimulate readers to think more deeply and in new ways about the extent to which gender remains a major fault line of inequality
