Understanding Literary Text:

Literature and Understanding Jon Phelan, 2020-10-08 *Literature and Understanding* investigates the cognitive gain from literature by focussing on a reader's close analysis of a literary text. It examines the meaning of literature, outlines the most prominent positions in the literary cognitivism debate, explores the practice of close reading from a philosophical perspective, provides a fresh account of what we mean by understanding and in so doing opens up a new area of research in the philosophy of literature. This book provides a different reply to the challenge that we can't learn anything worthwhile from reading literary fiction. It makes the innovative case that reading literary fiction as literature rather than as fiction stimulates five relevant senses of understanding. The book uses examples of irony, metaphor, play with perspective and ambiguity to illustrate this contention. Before arguing that these five senses of understanding bridge the gap between our understanding of a literary text and our understanding of the world beyond that text. The book will be of great interest for researchers, scholars and post graduate students in the fields of aesthetics, literary theory, literature in education and pedagogy.

Using Key Passages to Understand Literature, Theory and Criticism Barry Laga, 2018-09-21 *Using Key Passages to Understand Literature, Theory and Criticism* is a completely fresh and innovative approach to teaching and learning literary theory using short passages of theory to make sense of literary and cultural texts. It focuses on the key concepts that help readers understand literature and cultural events in new and provocative ways. Covering a wide variety of iconic and contemporary theorists, the book offers a broad chronological and global overview including thirty passages from theorists such as Viktor Shklovsky, Roland Barthes, Judith Butler, Diana Fuss, Jean Baudrillard, Kwame Anthony Appiah, Michel Foucault, Monique Wittig and Eve Sedgwick. Built on the premise that scholars use theory pragmatically, *Using Key Passages to Understand Literature, Theory and Criticism* identifies problems, puzzles and questions readers may encounter when they read a story, watch a film or look at artwork. It explains in detail thirty concepts that help readers make sense of these works and invites students to apply the concepts to a range of writing and research projects. The textbook concludes by helping students read theory with an eye on finding productive passages and writing their own theory chapter, signaling a shift from student as critic to student as theorist. Used as a main text in introductory theory courses or as a supplement to any literature, film, theater or art course, this book helps students read closely and think critically.

Martin Guiney, 2017-05-31 This book argues for the importance of literature studies using the historical debate between the disinterested disciplines art for art s sake and utilitarian or productive disciplines Forgoing the traditional argument that literature is a unique spiritual resource as well as the utilitarian thought that literary pedagogy promotes skills that are relevant to a post industrial economy Guiney suggests that literary pedagogy must enable mutual access between the classroom and the outside world It must recognize the need for every human being to become a conscious producer of

culture rather than a consumer through an active process of literary reading and writing Using the history of French curricular reforms as a case study for his analysis Guiney provides a contextualized redefinition of literature s social value
