The Ecological Crisis and the Logic of Capital Xueming Chen, 2017-09-11 The worsening environmental crisis has become a serious threat to mankind The search for a solution to this crisis must begin by understanding its causes Taking an eco socialist perspective *The Ecological Crisis and the Logic of Capital* explores the logic of capitalism as a fundamental cause of today's environmental crisis in particular the thirst for profit and the capitalist mode of production By demonstrating the inherent antagonism between capital and ecology this book argues that proposals to resolve the crisis within the capitalist system are utopian that proposed remedies relying on scientific progress alternative energies low carbon technologies or the introduction of ecological ethics and new attitudes toward Nature into market mechanisms are doomed to failure without a radical overhaul of the principles that govern capitalism

Searching for Marx in the Occupy Movement John Leveille, 2017-11-22 Searching for Marx in the Occupy Movement is a critical participant observation study of the Philadelphia branch of the Occupy Wall Street movement John Leveille spent over nine months with Occupy Philadelphia as the members organized and carried out their protests This book describes and analyzes the rise the organization and the demise of this group The important events and activities of Occupy Philadelphia are discussed and dissected with specific attention given to the confusions and chaos that permeated this group and Occupy Wall Street more generally which contributed to its rather rapid decline A revisionist Marxism informed loosely by the critical theory of the Frankfurt school is used here to understand and explain the happenings of this protest group The theory provides an epistemological and methodological framework for this study and it is also used to account for the observed behaviors Leveille argues that an essential conflict between humanism and the forces of rational capitalism lies at the heart of this protest movement This conflict contributed both to the rise of Occupy and to its operations It was manifested in two intersecting ways One of these concerns the destabilization of the self in contemporary capitalism which provided fuel for the movement The second revolves around the limited abilities of existing institutional arrangements to manage or channel the essential conflicts related to values that are produced by rational capitalism Ultimately Searching for Marx in the Occupy Movement makes a controversial claim that the movement was as much if not more about democracy morality and the organization and experience of the self and of social life as it was about economic matters The argument is made that Occupy was as much an expressive movement as it was an instrumental one It was expressing contradictions produced by capitalism through extra institutional means because the existing institutional arrangements have been and continue to be unable to manage or contain them

Merleau-Ponty in Contemporary Context Douglas Low, 2017-09-08 This volume presents the work of Maurice Merleau Ponty a great philosopher and social theorist of mid twentieth century as a viable alternative to both modernism and postmodernism Douglas Low argues that Merleau Ponty s philosophy offers explanations and solves problems that other philosophies grapple with but do not resolve given their respective theoretical presuppositions and assumptions Low brings the work of Merleau Ponty into critical contact with important thinkers including Sartre Heidegger Derrida and Marx He highlights Merleau Ponty s connection to

the early Hegel especially with regard to the criticism of modernism's representational consciousness and its subsequent skepticism with regard to our being in the world Merleau Ponty made a concerted effort to solve the problems that come about due to a wide variety of Western dualisms body and mind perception and conception self and other etc He frequently does so by demonstrating the connection between these disparate terms the connection of perception with affect and interest fact with value and a broadened view of science with moral and philosophical judgment Merleau Ponty's unique contribution is his focus on the lived through perceiving body and its relationship to abstract thought and language In his detailed analysis of the work of Merleau Ponty Low brings attention to a twentieth century master capable of altering the landscape of modern and social philosophy in the twenty first century
