The Remittance Market in India Gabi G. Afram, 2012-01-09 Millions of migrants worldwide send billions of dollars in remittances each year to their families or communities of origin In many developing countries remittances are an important source of family and national income and also are the largest source of external financing Remittances are better targeted at the needs of the poor than foreign aid or foreign direct investment FDI as recipients often depend on remittances to cover daily living expenses to provide a cushion against emergencies or to make small investments in business or education Therefore international remittance services should be safe efficient and reliable This can be achieved by increasing competition in the remittance industry providing broader access to payment system infrastructure enhancing transparency and ensuring a sound and predictable legal and regulatory framework With an estimated US 55 billion in remittance inflows in 2010 India is the world s foremost remittance destination The size and potential impact of these inflows is large Despite substantial progress over the past 15 years the provision of accessible efficient and cost effective remittance services in India could be improved Remittances transfers often can be costly relative to the low incomes of remitters and the small amounts involved especially in rural India and are not accessible Attempts to examine the remittance market in India have been limited This policy note attempts to fill this gap by undertaking a broad detailed investigation of the Indian remittance market and analyzing its characteristics based on the General Principles for International Remittance Services GPs It identifies some of the key actions and public policy measures for the improvement and future development of this market that would make it more contestable transparent accessible and sound Such actions and policy measures could assist financial institutions and policy makers in enhancing the safety and efficiency of as well as lowering the costs of remittance services in India

The Evolution of Law against Payment Frauds Christopher Chen, 2022-12-09 This book examines the evolution of legal institutions in containing and tackling fraudulent activities plaguing payment systems payment fraud e g forged cheques wrongful payment instructions etc in Asia focusing on laws in Greater China and Singapore In the past century the payment system has invited much innovation changing the modes of payments from exchanging cash and coins to the use of cards wire transfers and other new types of payment instruments or services e g bitcoins or QR code payments As the nature of payment services is to move money from one place to another it naturally attracts fraudsters Even with advanced computer technology payment fraud is still rampant in the market causing billions of dollars in losses globally per annum Through an examination of payment instruments and

associated frauds over time the book illustrates a shifting trend of legal solutions from criminal sanctions and civil compensation to a gradual focus on regulations of payment intermediaries This trend reflects the complexity of payment systems and the challenge of protecting them The book also identifies the underlying actors and institutional characteristics driving the evolution of legal institutions to deal with payment fraud and illustrates how the arrival of new technology may affect the market and thus the evolution of legal institutions The book will help readers to better understand the interaction between technology the market and law and help regulators financial institutions practitioners and end users as well as about payment fraud and corresponding legal responses Banking in the New Millennium W.
