Carter,Thomas D. Reginald Daniel,2002 In the United States anyone with even a trace of African American ancestry has been considered black Even as the twenty first century opens a racial hierarchy still prevents people of color including individuals of mixed race from enjoying the same privileges as Euro Americans In this book G Reginald Daniel argues that we are at a cross roads with members of a new multiracial movement pointing the way toward equality Tracing the centuries long evolution of Eurocentrism a concept geared to protecting white racial purity and social privilege Daniel shows how race has been constructed and regulated in the United States The so called one drop rule i e hypodescent obligated individuals to identify as black or white in effect erasing mixed race individuals from the social landscape For most of our history many mixed race individuals of African American descent have attempted to acquire the socioeconomic benefits of being white by forming separate enclaves or passing By the 1990s however interracial marriages became increasingly common and multiracial individuals became increasingly political demanding institutional changes that would recognize the reality of multiple racial backgrounds and challenging white racial privilege More Than Black regards the crumbling of the old racial order as an opportunity for substantially more than an improvement in U S race relations it offers no less than a radical transformation of the nation's racial consciousness and the practice of democracy Corrections Mary K. Stohr,Anthony Walsh,2024-05-24 Written by

former practitioners who are experts in the field Corrections The Essentials provides an in depth yet accessible guide to the world of corrections The Fifth Edition presents an engaging blend of historical context research findings and contemporary issues all while challenging students to think critically about the complexities of the correctional system **Critical Multiculturalism and Intersectionality in a Complex World** Lacey Sloan,Mildred Joyner,Catherine Stakeman,Cathryne Schmitz,2018-06-01 Critical Multiculturalism and Intersectionality in a Complex World guides the reader through a process of critical self reflection that allows for examination of social identities biases and experiences of oppression and privilege Its exploration of the history sources mechanisms structures and current manifestations of oppression complimented by case examples with new stories from across the globe and guiding questions provides a framework for improving the ability to recognize confront and dismantle oppressions Deeper cultural patterns implicit biases and internalized negative perceptions are examined enabling readers to explore cultures that have different patterns values and behaviors while challenging their own biases about other cultures In addition to a focus on the USA this edition features added content on Brazil United Arab Emirates Canada South Africa Australia India and Kenya This new edition will appeal to all graduate and undergraduate students of the social sciences human sciences and humanities American Ethnicity Adalberto Aguirre,Jonathan H.
