The Dollar Crisis Richard Duncan,2011-10-31 In this updated second edition of the highly acclaimed international best seller *The Dollar Crisis Causes Consequences Cures* Richard Duncan describes the flaws in the international monetary system that have destabilized the global economy and that may soon culminate in a deflation induced worldwide economic slump *The Dollar Crisis* is divided into five parts Part One describes how the US trade deficits which now exceed US 1 million a minute have destabilized the global economy by creating a worldwide credit bubble Part Two explains why these giant deficits cannot persist and why a US recession and a collapse in the value of the Dollar are unavoidable Part Three analyzes the extraordinarily harmful impact that the US recession and the collapse of the Dollar will have on the rest of the world Part Four offers original recommendations that if implemented would help mitigate the damage of the coming worldwide downturn and put in place the foundations for balanced and sustainable economic growth in the decades ahead Part Five which has been newly added to the second edition describes the extraordinary evolution of this crisis since the first edition was completed in September 2002 It also considers how the Dollar Crisis is likely to unfold over the years immediately ahead the likely policy response to the crisis and why that response cannot succeed *The Dollar Standard is inherently flawed and increasingly unstable Its collapse will be the most important economic event of the 21st Century* Catalog of Copyright Entries. Traditionally a haven during times of uncertainty gold has risen dramatically since 2001 By the fall of 2004 it was up by nearly 50% at over 400 an ounce But this is just the beginning James Turk a leading gold authority and the founder of GoldMoney com and veteran financial writer John Rubino show readers how to capitalize on gold s dramatic climb In *The Coming Collapse of the Dollar* Turk and Rubino reveal which stocks and bonds will falter as the dollar declines and why that decline is virtually inevitable They offer strategies for using gold coins gold stocks gold based digital currencies and other hard assets to create a profitable portfolio And they explain how to make the most of your gold and other precious metal holdings identifying the opportunities and pitfalls of buying gold mining stocks and the mutual funds that invest in them America s debt binge has put its economy at grave risk The value of the dollar is falling many stocks are once again wildly overvalued and bonds tied to an ever diminishing dollar are a disaster waiting to happen By investing in gold and other hard assets Turk and Rubino explain how you can protect yourself from these dangers *The Coming Collapse of the Dollar and How to Profit from It* is a must read for every investor whatever the size of his or her portfolio For more information visit www.dollarcollapse.com *Meaning and Understanding* Herman Parret, Jacques Bouveresse, 2012-06-04 No detailed description available for *Meaning and Understanding*
