intervenes beyond its borders using case studies to present a theory of practice driven action **Flexible Integration** Alex Warleigh, 2002-07-01 Flexibility is emerging as a key dynamic of European integration This shift towards flexibility has major implications The EU will have to cope with more complexity and less transparency It also affects the way in which European integration is viewed since it makes a state like outcome to the process far less likely Alex Warleigh looks at why flexibility has become such an important feature of the EU He examines its history and puts forward a typology to explain the models by which it is understood He goes on to explore the hazards of flexibility and to look at what it has to offer arguing that it is best seen as a desirable part of the integration process rather than as a problem Flexibility he argues is an important mechanism for the realization of the EU's slogan unity in diversity *Making European Citizens* R. Bellamy, D. Castiglione, J. Shaw, 2015-12-31 *Making European Citizens* examines the forms of transnational citizenship developing in Europe Active citizenship involves more than simply voting Achieving mobilization at a transnational level may involve new democratic techniques and skills The volume explores how far European citizens have acquired the requisite methods and qualities

Peter van der Hoek, 2005-06-13 The *Handbook of Public Administration and Policy in the European Union* focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future Although most existing literature is either policy oriented or institution oriented this textbook employs a different more comprehensive approach Not only does it analyze selected EU laws and most EU institutions it is also unique in that it brings together EU public administration EU institutions and most importantly EU policies into a comprehensive text Divided into five parts the book provides an overview of theory discourses on European integration followed by an analysis of the development of European organizations Part II explains the nature of the EU highlighting its institutions Part III addresses various dimensions of public administration followed by a review in Part IV of major EU policies including the Common Agricultural Policy The textbook concludes with a history of

Economic and Monetary Union and a study of the European Central Bank and the euro **The Changing European Commission** Dionyssis G. Dimitrakopoulos, 2004-07-23 This book newly available in paperback examines a hitherto under researched aspect of the European Union's policy process the extent and the nature of the involvement of central governments in the implementation of EU public policy It discusses how the co ordination of these institutions affects their capacity to shape the way in which the commitments that they make in Brussels are turned into concrete reality at the national level It shows that the nature of their involvement in implementation reflects the pattern of their involvement in the formulation of EU policy However since implementation unfolds over long periods of time its patterns can change over time The author draws on empirical evidence regarding the liberalisation of public procurement to demonstrate how the institutions of central governments bring about change Comparing the central governments of Greece France and Britain over a twenty five year period the author demonstrates that far from being the passive conduits of pressure emanating from the EU the institutions of national central governments actively steer the implementation of EU public policy Theorising Institutional Change: The Impact of the European Integration Process on the Development of Space Activities in Europe Nina-Louisa Remuss, 2018-08-01 The book provides a structural analysis of the European space effort from an institute change perspective It analyzes the EU ESA inter institutional relationship gives an overview of the development of space policy in Europe and advances the debate about the impact of the European integration process on existing institutional actors While European Space collaboration was initially developed outside the competences of the European Union EU with space programmes being carried out almost exclusively under the framework of European Space Agency ESA and national agencies the EU has gained shared competences Art 2 TFEU in space policy following the adoption of the Lisbon Treaty Currently the EU and ESA work together under a Framework Agreement In 2016 the EU Commission has published a Communication entitled European Space Policy ESP Even though ESA's Member States have agreed to keep ESA as an intergovernmental organisation during the ESA Ministerial Council of 2014 the discussion about ESA becoming part of the EU framework continues The EU's ambitions for leadership in European space policy raise question concerning the future of ESA The study of institutions lies at the heart of political sciences Strikingly the theoretic framework qualifying institutional change and making it comparable leaves room for more concrete and testable dimensions of institutional change

European Internal Security Christian Kaunert, 2018-07-30 European institutions are either loathed or underestimated This book analyses the role of EU institutions in the area of European internal security From Justice and Home Affairs this area has become more like a European Area of Freedom Security and Justice In this process the European Commission has demonstrably played the role of an engine of integration in areas such a counter terrorism policing asylum migration and border management This book uses the framework of supranational policy entrepreneurs SPE those who stand at the policy window in order to propose lobby for and sell their policy proposal and synthesises it with insights from the literature on
