Understanding Jihad Understanding Jihad:

Understanding Jihad David Cook, 2015-09-01 First published in 2005 Understanding Jihad unraveled the tangled historical intellectual and political meanings of jihad within the context of Islamic life In this revised and expanded second edition author David Cook has included new material in light of pivotal events over of the past ten years such as the revolutionizing events of the Arab Spring the death of Osama bin Laden and the rise of new Islamic factions such as ISIL Jihad is one of the most loaded and misunderstood terms in the news today Contrary to popular understanding the term does not mean holy war This judiciously balanced accessibly written and highly relevant book looks closely at a range of sources from sacred Islamic texts to modern interpretations of the term opening a critically important perspective on the role of Islam in the contemporary world As David Cook traces the practical and theoretical meanings of jihad he cites from scriptural legal and newly translated texts to give readers a taste of the often ambiguous information that is used to construct Islamic doctrine He looks closely at the life and teaching of the Prophet Muhammad and at the ramifications of the great Islamic conquests in 634 to 732 A D He sheds light on legal developments relevant to fighting and warfare and places the internal spiritual jihad within the larger context of Islamic religion He describes some of the conflicts that occur in radical groups and shows how the more mainstream supporters of these groups have come to understand and justify violence He has also included a special appendix of relevant documents including materials related to the September 11 attacks and published manifestos issued by Osama bin Laden and Palestinian suicide martyrs Provided by publisher **Understanding Jihad and Jihadism** Sebastian Kusserow, Patryk Pawlak, 2015 Since the rise of al Qaeda and most recently ISIL Da esh the term jihad has become a ubiquitous part of public discourse on terrorism and radical Islam Although jihad does not constitute one of the Five Pillars of Muslim faith many consider it to be a duty of the Muslim community as a whole It is therefore important to understand the origins of the term as well as its religious and political evolution from jihad different kinds of religiously inspired efforts to jihadism a modern ideology Understanding Jihad, Deconstructing Jihadism John L. Esposito, Brian P. Glenn, 2007 **Reconciling Justice** Salim J. Munayer, 2024-07-05 Christians too often disregard the depth and thoughtfulness of Jewish Muslim and Middle Eastern Christian concepts of justice To fill this lack this book explores the rich development of justice within each Abrahamic faith as it relates specifically to the Palestinian Israeli context From a uniquely Palestinian Christian perspective this book offers a theological framework through the concept of reconciling justice to facilitate better understanding for multiethnic political and religious encounters as a prophetic imagination for peace and reconciliation in the region *The Mind of Jihad* Laurent Murawiec, 2008-08-11 This book examines contemporary jihad as a cult of violence and power All jihadi groups whether Shiite or Sunni Arab or not are characterized by a similar bloodlust Murawiec characterizes this belief structure as identical to that of Europe s medieval millenarians and apocalypticists arguing that both jihadis and their European cousins shared in a Gnostic ideology a God given mission endowed the Elect with

supernatural powers and placed them above the common law of mankind Although the ideology of jihad is essentially Islamic Murawiec traces the political technologies used by modern jihad to the Bolsheviks Their doctrines of terror as a system of rule were appropriated by radical Islam through multiple lines of communication This book brings history anthropology and theology to bear to understand the mind of jihad that has declared war on the West and the world *Contesting the Theological Foundations of Islamism and Violent Extremism* Fethi Mansouri,Zuleyha Keskin,2018-12-29 This edited volume discusses critically discursive claims about the theological foundations connecting Islam to certain manifestations of violent extremism Such claims and associated debates become even more polarizing when images of violent acts of terrorism performed in the name of Islam circulate in the global media The authors argue that the visibility of such mediated violent extremism in particular since the emergence of ISIS has created a major political and security challenge not only to the world but also to the global Muslim community This is particularly true in relation to the way Islam is being understood and characterized in the modern world Existing studies on radicalization generally deal with causes and strategies to address violent extremism The book will appeal to scholars researchers and students in political science Middle Eastern and Islamic Studies **Leo Tolstoy** Ani Kokobobo,2025-07-29 The Tolstoy that emerges from this volume is a thinker who resists easy answers explores contradictions and seeks deeper reconciliation This collection presents him as an open ended conversation partner rather than a moral authority grappling urgently with dilemmas of identity human relationships colonial violence and integrity The Tolstoy I have always sought and hope is foregrounded here is one whose meanings remain open engaging in dialogue with both our present and an unknown future From his time he speaks to today s most pressing issues In an era of polarization and simplistic narratives Tolstoy offers a methodology of dissent and independent thought This is Tolstoy the dissenter whose voice is extraordinarily valuable for our time *Routledge Encyclopedia of Ancient Mediterranean Religions* Eric Orlin,2015-11-19 The Routledge Encyclopedia of Ancient Mediterranean Religions is the first comprehensive single volume reference work offering authoritative coverage of ancient religions in the Mediterranean world Chronologically the volume s scope extends from pre historical antiquity in the third millennium B C E through the rise of Islam in the seventh century C E An interdisciplinary approach draws out the common issues and elements between and among religious traditions in the Mediterranean basin Key features of the volume include Detailed maps of the Mediterranean World ancient Egypt the Roman Empire and the Hellenistic World A comprehensive timeline of major events innovations and individuals divided by region to provide both a diachronic and pan Mediterranean synchronic view A broad geographical range including western Asia northern Africa and southern Europe This encyclopedia will serve as a key point of reference for all students and scholars interested in ancient Mediterranean culture and society **Guardians of God** Mona Kanwal Sheikh,2016-09-22 This book is an account of the emergence and key events related to the origin and expansion of Pakistani Taliban since 2001 with a focus on the role of religion in their actions policies and worldviews The author brings to light rare

insight into the ideological basis of Pakistani Taliban drawing upon first hand research comprising participant observation interviews content analysis of organizational literature and Taliban communications such as recruitment videos recorded speeches leaflets and pamphlets jihadi anthems and press releases to the local media The book demonstrates how religion simultaneously appears as an object to be defended as a threat as the purpose of violence as the source of rules and limitations on violent action and as the source of motivational imagery and myths Going into an analysis of just what role religion plays in violent activities of this group and how does it do so the author shows that Taliban narratives are both secular and religious at the same time contradicting a clear cut divide between religious and secular motivations for violence The book advocates against extreme positions that accord religion either a primary or a negligent position in explaining the raison d'être of Pakistani Taliban It makes a plea for more informed and empathetic approach instead of the purely militaristic stance towards extremism which has only helped it grow in the past

At the Feet of Abraham Levi UC Nkwocha, 2020-11-30 This book advances an Abrahamic asymmetric mutual substitutive model of hospitality as a practical approach to establish peaceful coexistence between Muslims and Christians The merits include its helpful survey of the four models of interfaith dialogue and its clear exposition of the dialogue of life its constructive use of the philosophy of Levinas particularly in supporting its vision of asymmetrical moral responsibility among Muslim and Christians and its familiarity with an extensive philosophical literature on alterity gift exchange and responsibility The research also demonstrates strong command of the relevant Christian and Muslim scriptures and Catholic teaching on interfaith relations in addition to a wide range of background material on African Ubuntu spirit visible in Nigerian sociocultural and religious interdependent relations Through a consistent engagement of these philosophical ethical and cultural dimensions the Abrahamic theology of hospitality is ingeniously crafted to fill the age old gap mutual inability to deal with religious otherness At once the book provokes further scholarship inquiries on and around the identified concerns Its commonness and concreteness with the proposed respect for each other's faith commitment further underscores its quality

Popular Muslim Reactions to the Franks in the Levant, 1097-1291 Alex Mallett, 2016-03-23 The issue of Muslim reactions to the Franks has been an important part of studies of both the Crusades and Islamic History but rarely the main focus This book examines the reactions of the Muslims of the Levant to the arrival and presence of the Franks in the crusading period 1097-1291 focussing on those outside the politico military and religious elites It provides a thematic overview of the various ways in which these non elites of Muslim society both inside and outside of the Latin states reacted to the Franks arguing that it was they as much as the more famous Muslim rulers who

were initiators of resistance to the Franks This study challenges existing views of the Muslim reaction to the crusaders as rather slow and demonstrates that jihad against the Franks started as soon as they arrived It further demonstrates the difference between the concepts of jihad and of Counter Crusade and highlights two distinct phases in the jihad against the Franks the unofficial jihad that which occurred before uniting of religious and political classes and the official jihad which happened after and due to this unification and which has formed the basis of modern discussions Finally the study also argues that the Muslim non elites who encountered the Franks did not always resist them but at various times either helped or were unresisting to them thus focussing attention away from conflict and onto cooperation In considering Muslim reactions to the Franks in the context of wider discourses this study also highlights aspects of the nature of Islamic society in Egypt and Syria in the medieval period particularly the non elite section of society which is often ignored The main conclusions also shed light on discourses of collaboration and resistance which are currently focussed almost exclusively on the modern period or the medieval west

Fields of Blood Karen Armstrong, 2014-10-28 A sweeping exploration of religion and the history of human violence from the New York Times bestselling author of *The History of God* Elegant and powerful Both erudite and accurate dazzling in its breadth of knowledge and historical detail The Washington Post In these times of rising geopolitical chaos the need for mutual understanding between cultures has never been more urgent Religious differences are seen as fuel for violence and warfare In these pages one of our greatest writers on religion Karen Armstrong amasses a sweeping history of humankind to explore the perceived connection between war and the world's great creeds and to issue a passionate defense of the peaceful nature of faith With unprecedented scope Armstrong looks at the whole history of each tradition not only Christianity and Islam but also Buddhism Hinduism Confucianism Daoism and Judaism Religions in their earliest days endowed every aspect of life with meaning and warfare became bound up with observances of the sacred Modernity has ushered in an epoch of spectacular violence although as Armstrong shows little of it can be ascribed directly to religion Nevertheless she shows us how and in what measure religions came to absorb modern belligerence and what hope there might be for peace among believers of different faiths in our time

Islam in the Eyes of the West Tareq Y. Ismael, Andrew Rippin, 2010-07-02 From the terrorist attacks of September 11 2001 in New York to the Madrid and London bombings of 2004 and 2005 the presence of Muslim communities in the West has generated security issues and major political concern The government the media and the general public have raised questions regarding potential links between Western Muslims radical Islam and terrorism This speculation has given rise to popular myths concerning the Islamic world and led to a host of illiberal measures such as illegal warranting denial of Habeas Corpus black prisons and extreme torture throughout the democratic world This book challenges the authenticity of these myths and examines the ways in which they have been used to provide an ideological cover for the war on terror and the subsequent Iraq war It argues that they are not only unfounded and hollow but have also served a dangerous purpose namely war mongering and the empowering of the

national security state It further considers the origin and transmission of these myths focusing on media government policy and popular discourse *Interreligious Curriculum for Peace Education in Nigeria* Isaiah Ekundayo Dada,2019-04-18

Nigeria a country under a military regime for several years transitioned to a civilian regime in May 1999 Since this change violent conflicts between Christians and Muslims have continued to erupt They constitute one of the gravest dangers facing Nigeria a country with a population of 189 million people What have Nigerian religious leaders done about this situation especially in educational circles Have they received formal educational training to understand the causes of this violence and especially how to provide alternatives for more peaceful relations within Nigeria Does the current educational system in Nigeria provide the main ingredients for the promotion of a culture of peace The absence and neglect of interreligious peace education as part of a peace education core program and the lack of an interreligious curriculum for peace education in the training of religious leaders are the two problems contributing towards the lack of effectiveness of religious leaders in promoting less violent and more peaceful living The solution to the problem is proposed in this book entitled *Interreligious Curriculum for Peace Education in Nigeria* The book develops a one year curriculum building on Yoruba Islamic Christian conceptions of peace and teaches how to create safe caring spiritual peaceful and successful interfaith relationships between all Nigerian religious communities In the long term the book helps to educate religious leaders to contribute in themselves and with the help of their respective religious communities to reducing the growing religious violence in Nigeria

Washington's Dark Secret John Maszka,2018-10-01 As a scholar of terrorism John Maszka has examined how politics the media and the War on Terror play off one another His most startling claim is that the War on Terror is a war for natural resources and that terrorism has little to do with it Once the military became mechanized oil quickly became the most sought after commodity on the planet and the race for energy was eventually framed as a matter of national security Ironically Maszka argues the true threats to national security are the massive oil conglomerates themselves Maszka delves into the repercussions of a government that capitalizes on an us versus them mentality such as the demonizing of an entire religion sensationalizing radical violent attacks and loosely applying the word terrorism Because the United States current approach to terrorism has led to the politicization and abuse of the term Maszka suggests a need for a standardized definition of terrorism Currently too many acts of violence can be labeled terrorism resulting in state and nonstate actors labeling their enemies as terrorists yet claiming their own acts of violence as legitimate and retributive Maszka argues that much of the violence labeled as terrorism today is not terrorism at all In an ambitious attempt to connect seemingly unrelated events in politics and the media Maszka offers an unflinching portrayal of the hypocrisy underlying our foreign policy **Syria in Crusader Times** Hillenbrand Carole Hillenbrand,2020-05-28 Presenting numerous interconnected insights into life in Greater Syria in the twelfth century this book covers a wide range of themes relating to Crusader Muslim relations Some chapters deal with various literary sources including little known Crusader chronicles a jihad treatise a lost Muslim history of

the Franks biographies letters and poems Other chapters look at material culture from coins to urban development internal relations between Sunni and Shi'ite Muslims and between Crusader and Oriental Christians and the role of the Turkmen New insights into the career of Saladin are revealed for example through the work of a little known propagandist at his court and Saladin's use of gift giving for political purposes as well as neglected aspects of the rule of his family dynasty the Ayyubids which succeeded him Special attention is paid to the Christians residing in the Middle East from Italians to Melkites and Armenians

Violence in the Name of God Joel Hodge, 2020-01-23 This book traces the trajectory of militant jihadism to show how violence is more intentionally embraced as the centre of worship social order and ideology Undertaking an in depth analysis of militant jihadist groups and utilising the work of Ren Girard Joel Hodge argues that the extreme violence of militant jihadists is a response to modernity in two ways that have not been sufficiently explored by the existing literature Firstly it is a manifestation of the unrestrained and escalating state of desire and rivalry in modernity which militant jihadists seek to counter with extreme violence Secondly it is a response to the unveiling and discrediting of sacred violence which militant jihadists seek to reverse by more purposefully valorising sacred violence in what they believe to be jihad Relevant to anyone interested in Islam philosophy of religion theology and terrorism Violence in the Name of God imagines new ways of thinking about militancy in the name of Islam in the twenty first century

Shaping a Qur'anic Worldview Vanessa De Gifis, 2014-04-16 Exploring the subjectivity of the Qur'an's meaning in the world this book analyses Qur'anic referencing in Muslim political rhetoric Informed by classical Arabic Islamic rhetorical theory the author examines Arabic documents attributed to the Abbasid Caliph al Ma'mun r 813-833 whose rule coincided with the maturation of classical Islamic political thought and literary culture She demonstrates how Qur'anic referencing functions as tropological exegesis whereby verses in the Qur'an are reinterpreted through the lens of subjective experience At the same time socio-historical experiences are understood in terms of the Qur'an's moral typology which consists of interrelated polarities that define good and bad moral characters in mutual orientation Through strategic deployment of scriptural references within the logical scheme of rhetorical argument the Caliph constructs moral analogies between paradigmatic characters in the Qur'an and people in his social milieu and situates himself as moral reformer and guide in order to persuade his audiences of the necessity of the Caliphate and the religious moral imperative of obedience to his authority The Ma'munid case study is indicative of the nature and function of Qur'anic referencing across historical periods and thus contributes to broader conversations about the impact of the Qur'an on the shaping of Islamic civilization This book is an invaluable resource for those with an interest in Early Islamic History Islam and the rhetoric of contemporary Middle East regional and global
