## **Understanding Marijuana A New Look At The Scientific Evidence:**

**Understanding Marijuana** Mitch Earleywine, 2002-08-15 Marijuana is the world's most popular illicit drug with hundreds of millions of regular users worldwide. One in three Americans has smoked pot at least once. The Drug Enforcement Agency estimates that Americans smoke five million pounds of marijuana each year. And yet marijuana remains largely misunderstood by both its advocates and its detractors. To some, marijuana is an insidious stepping stone drug enticing the inexperienced and paving the way to the inevitable abuse of harder drugs. To others, medical marijuana is an organic means of easing the discomfort or stimulating the appetite of the gravely ill. Others still view marijuana like alcohol as a largely harmless indulgence, dangerous only when used immoderately. All sides of the debate have appropriated the scientific evidence on marijuana to satisfy their claims. What then are we to make of these conflicting portrayals of a drug with historical origins dating back to 8,000 B.C. **Understanding Marijuana** examines the biological, psychological, and societal impact of this controversial substance. What are the effects for mind and body of long-term use? Are smokers of marijuana more likely than non-users to abuse cocaine and heroine? What effect has the increasing potency of marijuana in recent years had on users and on use? Does our current legal policy toward marijuana make sense? Earleywine separates science from opinion to show how marijuana defies easy dichotomies. Tracing the medical and political debates surrounding marijuana in a balanced, objective fashion, this book will be the definitive primer on our most controversial and widely used illicit substance.

**The Routledge Handbook of Post-Prohibition Cannabis Research** Dominic Corva, Joshua Meisel, 2021-09-06 The place of cannabis in global drug prohibition is in crisis, opening up new directions for socially engaged cannabis research. The **Routledge Handbook of Post-Prohibition Cannabis Research** invites readers to explore new landscapes of cannabis research under conditions of legalization, with not after prohibition, post-prohibition. The chapters are organized into five multidisciplinary sections: Governance, Public Health, Markets and Society, Ecology and the Environment, and Culture and Social Change. Case studies from the United States, Uruguay, Morocco, and the United Kingdom show readers alternative ways of thinking about human cannabis relationships that move beyond questions of legality and illegality. Representing a cross-section of cannabis scholarship, the contributors provide readers with critical perspectives on legalization that are not based upon orthodoxies of prohibition. While legalization signals a global shift in the legitimacy of cannabis research, this collection identifies openings for academics, policy makers, and the public interested in ending the drug war, as well as a way to address broader social problems evident in the age of neoliberal governance within which prohibition has been entangled. **The Cannabis Revolution** © Stephen Holt, DSc; MD, 2016-03-24 There is growing public support for the use of cannabis for medical and recreational purposes, but what does science say about the matter? What we know is that cannabis contains more than four hundred potentially bioactive components, and while we are unraveling its secrets, the potential medical benefits of using it remain uncertain. Dr. Stephen Holt, a leader in the field of natural medicine, examines the issue in detail, answering

questions such as How can we responsibly use cannabis What are the risks What are the possible positive outcomes Does the delivery method matter How has cannabis changed over time He also examines diseases that cannabis might help treat as well as social and political questions that revolve around using the substance such as whether it should be taxed how it fits into religious practice and its association with violence and crime Whether you're a health care professional politician someone seeking a new treatment option or a concerned citizen it's critical to inform yourself about The Cannabis Revolution

**Cannabis, Sacred and Profane** Christopher Partridge,2024-08-22 Focussing on the ways in which cannabis has been demonized sacralized and normalized Christopher Partridge analyses the complex and often difficult relationship Western societies have had with the plant since the nineteenth century After an introduction to cannabis and its uses the book discusses how and why it was constructed as a profane influence and a marker of deviance It then examines the emergence of medicinal cannabis showing how this has contributed to its normalization and even its sacralization Finally there is a discussion of sacred cannabis which looks at its use within modern occultism Rastafari and several cannabis churches Overall the book provides a cultural history of cannabis in the modern world which exposes the underlying reasons for the various and changing attitudes to this popular psychoactive substance

Cannabis Robert Clarke,Mark Merlin,2016-06-28 Cannabis Evolution and Ethnobotany is a comprehensive interdisciplinary exploration of the natural origins and early evolution of this famous plant highlighting its

historic role in the development of human societies Cannabis has long been prized for the strong and durable fiber in its stalks its edible and oil rich seeds and the psychoactive and medicinal compounds produced by its female flowers The culturally valuable and often irreplaceable goods derived from cannabis deeply influenced the commercial medical ritual and religious practices of cultures throughout the ages and human desire for these commodities directed the evolution of the plant toward its contemporary varieties As interest in cannabis grows and public debate over its many uses rises this book will help us understand why humanity continues to rely on this plant and adapts it to suit our needs

**Pot Politics** Mitch Earleywine, 2006-08-31 Marijuana use continues to attract interest and fuel controversy Big green pot leaves have adorned the covers of Time National Review and Forbes Almost 100 million Americans have tried marijuana at least once Groups such as The National Organization for the Reform of Marijuana NORML and The Marijuana Policy Project MPP have tens of thousands of members Polls suggest that 70 80% of Americans support medicinal marijuana At least 11 U S states have experimented with decriminalization and medical marijuana laws with new initiatives appearing each year Meanwhile other groups such as Partnership for a Drug Free America and Mothers Against Drugs protest legalization Clearly debate about marijuana policy shows no sign of abating In his earlier book Understanding Marijuana Mitch Earleywine forced researchers policy makers and citizens to avoid oversimplification separate empirical findings from their interpretations and understand that some things may be neither good nor evil Pot Politics continues with these same themes showing multiple perspectives from a variety of experts on an important problem with vast implications The volume presents ethical religious economic psychological and political arguments for cannabis policies that range from prohibition to unrestricted legalization By presenting a unique perspective on overlapping issues each chapter demonstrates how even recognized experts draw markedly different conclusions from the same data Some contributors evaluate policy by weighing the costs and benefits of control while others eschew policy by presenting moral arguments against our attempts at control Pot Politics should be read by everyone interested in the politics of both marijuana use and governmental regulation of our actions
