Biblical Approaches to Pastoral Counseling Donald Capps, 2003-01-17 What role should the Bible play in pastoral counseling Donald Capps here explores the use of the Bible in counseling and shows how the methods and objectives of counseling can be defined and shaped by three biblical forms psalms proverbs and parables Applying these forms Capps demonstrates how the Bible can influence the three major types of pastoral counseling grief premarital and marriage He examines the capacity of these forms to comfort to instruct and to diagnose problems He explains how through psalms feelings can be vented through proverbs moral learning can take place and through parables new understandings of experience can occur With actual case study examples and practical suggestions this refreshingly perceptive book offers positive steps for furthering dialogue between biblical scholarship and pastoral counseling **The Formation of Pastoral Counselors** Duane R. Bidwell, 2006 Two dozen of the most prominent clinicians and scholars in the field reflect on The Formation of Pastoral Counselors from clinical theological and theoretical perspectives This unique book explores the challenges to the personal and professional formation of pastoral counselors in a cultural and historic context that is radically different from the era when the profession first emerged as a specialized ministry Contributors examine formation from a variety of contexts and perspectives including spirituality and gender address theological education and intercultural issues and present emerging models for pastoral counselors *Moving Beyond Individualism in Pastoral Care and Counseling* Barbara J. McClure, 2010-01-01 Despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices As heirs and often enthusiasts of the Freudian tradition of which Rieff and others are critical pastoral

theologians have felt the sting of his charge and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change. Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field's dominant theological and theoretical resources, practices, and organizational arrangements. Only a radical reappraisal of these will make possible pastoral counseling practices in a post-individualistic mode. McClure proposes several critical transformations: broadening and deepening the operative theologies used to guide the healing practice; expanding the role of the pastoral counselor; reimagining the operative anthropology; reclaiming sin and judgment; nuancing the particular against the individual; rethinking the ideal outcome of the practices; and reimagining the organizational structures that support the practices. Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex, effective, and socially adequate ways.

Clinical Handbook of Pastoral Counseling Robert J. Wicks, Richard D. Parsons, Donald Capps, 1993. Building on the groundbreaking original work with the same title, these articles focus on current issues such as certain life stages, special populations, the devalued and abused, the addicted, and special issues of the 1990s.
