Jawer,2009-05-21 A cutting edge examination of feelings not thoughts as the gateway to understanding consciousness Contends that emotion is the greatest influence on personality development Offers a new perspective on immunity stress and psychosomatic conditions Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP The Spiritual Anatomy of Emotion challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences *Sensitive Soul* Michael A. Jawer,2020-08-04 Explores how emotion

underlies personality triggers the development of non ordinary states and perceptions and connects all life Shows how the flow of our emotions shapes individual minds and personalities Reveals the significant role of emotion in PTSD alexithymia not knowing what one is feeling autism savantism synesthesia overlapping senses d j vu phantom pain migraines and extreme empathy Looks at the emotional lives of animals demonstrating how life threatening emergencies can trigger amazing sensitivities and abilities in them Emotion as it exists within and between people underpins personality spirituality and a range of extraordinary perceptions conditions and experiences These include d j vu phantom pain post traumatic stress disorder PTSD and extreme empathy where people instantaneously feel the physical or emotional pain of another Many gifted children those with synesthesia and people with autism not to mention highly sensitive people in general report forms of innate knowing and even paranormal experiences In this exploration of the role of emotion in non ordinary states and abilities Michael Jawer shows how the flow of our emotions and those of the people around us greatly influences the development of exceptional capacities and sensitivities Drawing on a range of scientific studies Jawer explores how 5 remarkable kinds of people individuals with autism synesthesia savantism child prodigies and children who remember past lives are linked through the biology of emotion and how a hidden emotional intensity underlies both autism and anomalous perception He examines the psychological concept of thin and thick boundaries and how those with thin boundaries those who are more environmentally sensitive have a greater predisposition toward empathy synesthesia psi abilities and extraordinary states of perception Sharing extraordinary examples the author explores how strong emotion may endure through time and space possibly even after death He also looks at the emotional lives of animals our soulful connections with them and how life threatening emergencies can trigger amazing sensitivities and abilities in our fellow creatures Revealing the unseen role of emotion in mind and personality Jawer shows that emotion is the binding force that connects us with one another with all of life and with nature itself
