Posting the Male ,2022-06-08 The essays collected in Posting the Male examine representations of masculinity in post war and contemporary British literature focussing on the works of writers as diverse as John Osborne Joe Orton James Kelman Ian Rankin Carol Ann Duffy Alan Hollinghurst Ian McEwan Graham Swift and Jackie Kay The collection seeks to capture the current historical moment of crisis at which masculinity loses its universal transparency and becomes visible as a performative gender construct Rather than denoting just one fixed polarised point on a hierarchised axis of strictly segregated gender binaries masculinity is revealed to oscillate within a virtually limitless spectrum of gender identities characterised not by purity and self containment but by difference and alterity As the contributors demonstrate rather than a gender in crisis millennial manhood is a gender in transition Patriarchal strategies of man making are gradually being replaced by less exclusionary patterns of self identification inspired by feminism Men have begun to recognise themselves as gendered beings and as a result masculinity has been set in motion Subversion, Sexuality and the Virtual Self J.

this edited volume to take a hard look at gender and visual culture Gender and visual culture traverse in quite unique and often fascinating ways On the one hand gender functions as an interdisciplinary approach and critical tool to analyse and investigate several subject fields As such gender contributes to establishing a much needed theoretical and functional

platform spanning across many fields of enquiry from where gender practices can effectively be critiqued and ideally changed. On the other hand, the growing popularity and ubiquity of visual culture in a global context create the increasing need to reflect on and interrogate this phenomenon in an academic manner. Although Visual Culture Studies is an established subject at many Northern institutions, it is fairly new and relatively under-theorised in the South. In response to the growing need to investigate issues dealing with gender and visual culture and particularly how they creatively intersect, this selection of chapters first presented as papers at the Taking a Hard Look Gender and Visual Culture international conference 20-21 June 2007, Institute for Gender and Women's Studies, University of Pretoria, South Africa, are collected here in the hope to make a purposeful contribution to the burgeoning discourse. However, by addressing the creative intersection between gender and visual culture, this edited volume is no novelty. In fact, the topic of gender and visual culture has been addressed over the past decade in several edited volumes. It is in this proud tradition that this book aims to take its place and to create a dialogue with international theory on gender and visual culture studies from a South perspective. Key questions that are explored in the volume: What type of gendered visual culture is being presented and created in the South, particularly but not exclusively? How is visual culture gendered? Can one refer to a move beyond gender in terms of a trans-gendered visual culture, or are we still caught up in the same debilitating role models? How does one address the ever-increasing alienation between gender studies and the younger generation of students and scholars moving into higher education? What is the role of gender as an interdisciplinary tool in the academic analysis of visual culture as it spans across several subjects such as science, social work, technology, psychology, medicine, philosophy, sociology, engineering, communication, economics, religious studies, business management, anthropology, geography, historical studies, cultural and media studies, visual studies, art history, and literature studies.

The History of Men's Underwear and Swimwear, Second Edition Daniel Delis Hill, 2022-01-21

The History of Men's Underwear and Swimwear features a detailed, thoroughly illustrated chronology of the development and changing styles of these two bare necessities of masculine dress. Interwoven throughout the study is also an examination of how these most intimate forms of men's clothing not only reflected society but also how the evolution of styles inexorably influenced social change, especially notions of masculinity, modesty, and erotic exhibitionism. In addition, Daniel Delis Hill looks at more than 100 years of the mass marketing of men's underwear and swimwear, especially the progression of visual presentation and the written message in the era of mass production and mass communication. Cover to cover, the second edition of History of Men's Underwear and Swimwear is richly illustrated in color throughout with over 200 period photos and artwork many never published before.
