United States Turkey's Path Europe:

The United States and Turkey's Path to Europe Armağan Emre Çakır, 2015-12-22 Turkey's relations with the European Union is one of the most enigmatic topics in the European Studies literature. This country kept at bay by Europeans for centuries once came unexpectedly close to full membership. The progress Turkey recorded in its European quest is difficult to account for with either Turkey's performance or the positive attitude of the Europeans towards Turkey. In this book Armağan Emre Çakır chronicles over six decades of US involvement in EU-Turkey relations. Shedding new light on the reasons, characteristics, transformation and relative importance of the US influence on Turkey-EU relations, he argues that Turkey's quest for EU membership would not have advanced this far without the support from the United States. Çakır's hypotheses and findings are grounded in original research that among other things includes interviews conducted on both sides of the Atlantic with key players, archival material and newspaper articles. The valuable insights presented in this book make for a much needed alternative history of this volatile relationship.

New Perspectives on Turkey-EU Relations Chris Rumford, 2014-10-29 This book makes the case for looking afresh at Turkey-EU relations in order to appreciate the richness and complexity of a relationship which is now more than 50 years old and is still not close to reaching fulfilment. The contributors challenge conventional attempts to understand Turkey-EU relations, revealing that EU integration studies has been rather poor at understanding the global context within which Turkey-EU developments take place. More surprising perhaps, EU integration studies has also struggled to give sufficient weight to the potential of Turkey's domestic politics to shape EU enlargement. The volume attempts to correct these imbalances by offering both a global context and new perspectives on the drivers of domestic politics. It represents a shift from a narrow EU integration/enlargement agenda. Turkey's position vis-à-vis the EU cannot be adequately captured by simplistic notions of conditionality, harmonization and an uncritical interpretation of Europeanization. A more rounded view of Turkey-EU relations is advanced based upon a broader context of European and global transformations. The contributions collected here offer an interpretation of Turkey-EU relations from a novel perspective, utilize a new framework of theory and draw upon insights and perspectives from disciplines underrepresented in mainstream study of Turkey-EU relations. This book was published as a special issue of the *Journal of Contemporary European Studies*.

Turkey's European Future Nathalie Tocci, 2011 A rapidly changing nation and a key player in the Middle East, Turkey has long been centrally important to both the United States and the European Union. A major partner both of the EU and Turkey, the US has also been the most ardent and committed supporter of closer ties between them. Yet while Turkey's relations with the US and the EU have been intimately linked, they have not proceeded along two parallel planes. Nathalie Tocci tells the story of this dynamic triangular relationship, exploring how and why the US has shaped the course of relations among its allies. An empirical study with strong policy relevance, this volume draws on in-depth interviews and official documents to provide a succinct overview of the issues and stakeholders. Tocci argues that the

Turkish situation can be viewed as a quintessential case study tackling broader questions about US foreign policy in the region as a whole Nathalie Tocci is Deputy Director of the Istituto Affari Internazionali in Rome Italy and author or editor of many books including *The EU and Conflict Resolution Promoting Peace in the Backyard* **On the Road to EU Membership** Selen Sarisoy Guerin, 2011 The potential membership of Turkey to the European Union EU carries significant challenges for EU policymaking and integration and this volume brings together academics from several disciplines including international relations economics sociology and public administration to present a holistic picture of the economic dimension of the accession process Assessing the current strengths and weaknesses of the Turkish candidacy this study provides a historical overview of EU Turkey economic relations a comprehensive review of the EU Turkey customs union agreement as well as a discussion of the implications of membership for various sectors of the Turkish economy This comprehensive analysis of Turkey's bid for EU membership will interest government officials and academics alike as more candidate countries seek accession in the years ahead **European Union Enlargement** Vincent Morelli, 2011-04 Oct 2010 marked the 5th anniversary of the EU's decision to proceed with formal negotiations with Turkey toward full membership in the EU It also marked the beginning of the annual period when all three EU institutions the Council Commission and Parliament provide their assessment of the progress Turkey had made in the accession process over the last year and to issue recommendations on how Turkey's accession process should proceed Despite changes taking place in Turkey its EU accession process continued at a relatively slow pace Contents of this report The EU Accession Process Turkey's Initial Path to EU Accession Current Status of Turkey's Accession The Cyprus Dilemma US Perspectives Assessment This is a print on demand report *Turkey's Road to European Union Membership* Susannah Verney, Kostas Ifantis, 2013-09-13 Enlargement to Turkey is arguably the greatest challenge facing the European Union today After the narrowly averted train crash over Cyprus in 2006 the second election victory of the Justice and Development Party in July 2007 opened new prospects for Turkish EU relations But in an EU emphasising a collective identity based on shared civilisational values Turkey's European credentials have been increasingly called into question Amending national identity through political change has become the key to the success or failure of the Turkish integration project This volume examines the EU role in strengthening the domestic pro reform coalition within Turkey the paradox and potential limits of Turkey's europeanising Islamists and the impact of Europeanisation through conditionality including a case study of Turkish policy towards the Cyprus Question Also addressed are the Western stereotypes of Turkish identity influencing the country's EU prospects notably concerning the role of Islam in precipitating acts of political violence and its association with sexual and political violence in the discourse of European opponents of Turkish accession Finally the dynamics of EU accession negotiations are analysed and the potential role of a norm driven rhetorical strategy in promoting Turkish accession as a moral and democratic imperative is discussed Turkey's Accession to the European Union Edel Hughes, 2010-10-04 Turkey's accession to the European Union is undoubtedly one of the Union's

most contested potential enlargements The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey the Kurdish question and the continuing stalemate concerning northern Cyprus This book looks at these issues but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet Whilst there are several questions that Turkey must address particularly in the area of human rights guarantees the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey Turkey's EU experience also raises fundamental questions about religion and the EU project that have greater implication than simply Turkish accession Through the lens of the Turkish example this book addresses these broader questions such as the nature of European identity Europe's Christian past the limits of pluralism and the fundamental question of religion in the European public sphere This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey

The New European Union and Its Global Strategy Valentin Naumescu, 2019-10-17 In a relatively short period of time the European Project has faced an incredibly diverse spectrum of crises and challenges From the Eurozone crisis to the sovereign debt crisis and from the migration crisis to Brexit the European Union has found itself confronted with unprecedented internal and external threats and pressures The Global Strategy of 2016 and the Permanent Structured Cooperation PESCO in the field of defence of 2017 are just two of the new strategies and policies to which it has turned Whether the Franco German engine will succeed in surpassing this critical moment and trigger a deep reform of the European Union remains to be seen Raising its level of strategic ambition the European Union projects itself as a global actor in the system of international relations reshaping its ties with the United States China and Russia However European security along with the topics of European politics and society remain subjects of intense debate This volume offers a number of possible answers to various questions regarding the future of the European Union and its relationships with the rest of the world Based on a variety of perspectives from international relations European studies political science economics and cultural studies the contributions here address the conundrum of the EU's transformations

Turkey's Changing Transatlantic Relations Eda Kusku Sönmez, Çigdem Üstün, 2021-02-12 This edited volume provides a comprehensive analysis of the transformations in Turkey's transatlantic connection including political economic and security relations The book concentrates on the question of how these transformations in conjunction with several other factors are reflected over Turkey's foreign policy behavior and new alignment preferences Contributors especially delve into regional affairs of Turkey seeking to show how the transatlantic frame alternatively impact Turkey's policies in different neighborhoods arguing that Turkish foreign policy cannot be understood without careful analysis of multiple international pressures and changing dynamics at the domestic political scenery

European Institutions, Democratization, and Human Rights Protection in the European

Periphery Henry F. Carey, 2014-10-10 The European Union E U along with the Council of Europe NATO and the Office of Security and Cooperation in Europe are regional organizations which despite their different missions all are designed to support democracy human rights and the rule of law The E U has required that all of its candidate countries for potential and actual membership adhere to these three criteria along with free market practices since its 1993 Copenhagen inter governmental summit In this book experts have contributed chapters on the European record of induced improvements in a variety of countries Current scholarship has debated whether the rational incentives of accession to membership conditionality theory the normative power of European identity socialization theory or international legal processes institutional theory have explained what some claim are significant improvements Other scholars demur arguing that the improvements have been superficial or ephemeral or conversely that real improvement would have occurred anyway Still others argue that real improvements are reversible especially after E U membership is attained and regimes revert to former or new ways that erode democratization The E U and its peer institutions they suggest are not heavy anchors to democracy in periods of economic distress rising nationalism and extremism Yet others argue that out of these challenges the E U has saved the Euro built even stronger institutions and remains a beacon of desired ideals and membership among countries that conceivably could graduate from its partner organizations and eventually join the E U as well Each chapter assesses what difference the E U and other regional organizations have made in the record of a particular country These country chapters include those that were candidate countries and became member states Romania and Bulgaria in 2007 and Croatia in 2013 those that are now officially candidate countries Iceland Macedonia and since 2014 Serbia those have all signed stabilization agreements which are usually precursors of E U candidature Montenegro Bosnia Albania and since 2014 despite being regarded as too large the Ukraine and too poor Moldova and finally a new country Kosovo despite its non recognition by five E U member states which nonetheless appears to be on the road to eventual E U candidacy This study is a highly nuanced picture of a varying European record fraught with conflicting interests but portraying a picture of outer Europe struggling to

EU/Turkey Relations in the Shadows of Crisis A. Asli Bilgin,2021-04-08 Since Turkey's EU accession has arguably come to a halt with the freezing of several negotiation chapters in 2005 Turkey and the European Union have been through many internal and global crises As a result of these crises while the priorities of both parties have changed EU Turkey relations advance still at a snail's pace rather than totally breaking down EU Turkey Relations in the Shadows of Crisis A Break Up or Revival aims to challenge the future of the relations between the European Union and Turkey by discussing the impact of the crises on not only the parties involved but also on their relations by displaying both imperfections in the EU Turkey association and the future cooperation accession alternatives between the European Union and Turkey Turkey in the North Atlantic Marketplace Daniel S. Hamilton,Aylin Ünver Noi,Serdar Altay,2018-07-31 For decades the partnership between North America and Europe has been a steady anchor in a world of rapid change Today however the transatlantic partnership itself has become unsettled and uncertain Nowhere is this clearer than in the economic sphere Nonetheless the European Union and the United States remain each other's largest and most profitable markets And as Europe changes extended value chains across non EU Europe have become important to the bottom line of many companies from the United States Europe and other parts of the world Given both the danger of fragmentation and opportunities that exist for deeper

economic interaction it is time to consider new initiatives that include but go beyond the U S EU partnership to embrace allies and partners across the entire North Atlantic space The concept of the North Atlantic Marketplace would include non EU European countries in a broad North Atlantic commercial architecture Turkey s evolving commercial ties to the EU and the United States are central to such considerations In this book leading experts develop possible ways forward to anchor Turkey in the West by further deepening economic ties between Turkey and its transatlantic partners in the North Atlantic Marketplace

Insight Turkey 2017 - Spring 2017 (Vol. 19, No.2) , The Spring 2017 issue of Insight Turkey aims at analyzing some of the most debated issues during the 15 years rule of the AK Party Foreign and domestic policies political economy Turkey EU relations and the Kurdish issue are among the topics discussed in this issue

The Future of the Middle East Monte Palmer, 2018-11-24 This deeply informed book considers the intertwined roles of faith force and finance in shaping the modern Middle East Leading expert Monte Palmer argues that these factors will continue to have a major impact on the Middle East as the United States and other major powers increasingly find themselves embedded in conflicts that defy resolution Palmer considers the lessons learned from past and current conflicts the limits of using tyrants as avenues of force the transformation of faith into force the root causes of terror and the perils of a global environment that threatens a new cold war between Russia and the United States a war of religions between the Abrahamic faiths and a war of terror that is rapidly becoming global As he clearly shows the relative dominance of faith force or finance is always shifting depending on time place and local conditions Drawing on cases from ten critical periods from World War I through the current chaos and stalemate the author offers constructive paths forward for building a Middle East of peace and stability
