Critical Method and Contemporary Film Christopher K. Brooks,2019-09-24 This volume offers film enthusiasts and teachers an investigation into what film critics do and examines what ideologies inform their evaluations By employing recent television programs and films and comparing them to older ones the study is able to trace changes in the methodologies of film and media critics The work argues for the emergence of neofuturism as a chosen method of interpretation contrasting with the dominance of postmodernism as the evaluative method through the early years of the new millennium It also asks the questions who evaluates film and why In doing so the study questions the criteria for film evaluation the validity of some reviews and asks the question whether the evaluative system needs to change altogether **Knowing Tomorrow Today**

The Religion of Tomorrow Ken Wilber,2018-05-01 A provocative examination of how the great religious traditions can remain relevant in modern times by incorporating scientific truths learned about human nature over the last century A single purpose lies at the heart of all the great religious traditions awakening to the astonishing reality of the true nature of ourselves and the universe At the same time through centuries of cultural accretion and focus on myth and ritual as ends in themselves this core insight has become obscured Here Ken Wilber provides a path for re envisioning a religion of the future that acknowledges the evolution of humanity in every realm while remaining faithful to that original spiritual vision For the traditions to attract modern men and women Wilber asserts they must incorporate the extraordinary number of scientific truths learned about human nature in just the past hundred years for example about the mind and brain emotions and the growth of consciousness that the

ancients were simply unaware of and thus were unable to include in their meditative systems Taking Buddhism as an example Wilber demonstrates how his comprehensive Integral Approach which is already being applied to several world religions by some of their adherents can avert a cultural disaster of unparalleled proportions the utter neglect of the glorious upper reaches of human potential by the materialistic postmodern worldview Moreover he shows how we can apply this approach to our own spiritual practice This his most sweeping work since Sex Ecology Spirituality is a thrilling call for wholeness inclusiveness and unity in the religions of tomorrow **Reflections of the Future** Russell Hill,1975
