applies some of the latest findings on humor and laughter to his writing while comparative chapters bring Dostoevsky's humor into conjunction with other popular works such as Chaplin's *Modern Times* and Lin Manuel Miranda's *Hamilton*. Written with a verve and wit that Dostoevsky would appreciate, this boldly original volume illuminates how humor and comedy in his works operate as vehicles of deconstruction, pleasure, play, and transcendence. **The Cnidaria, Past, Present and Future** Stefano Goffredo, Zvy Dubinsky, 2016-09-07

This volume presents a broad panorama of the current status of research of invertebrate animals considered belonging to the phylum Cnidaria such as hydra, jellyfish, sea anemone, and coral. In this book, the Cnidarians are traced from the Earth's primordial oceans to their response to the warming and acidifying oceans. Due to the role of corals in the carbon and calcium cycles, various aspects of cnidarian calcification are discussed. The relation of the Cnidaria with Mankind is approached in accordance with the Editors' philosophy of bridging the artificial schism between science, arts, and Humanities. Cnidarians' encounters with humans result in a broad spectrum of medical emergencies that are reviewed. The final section of the volume is devoted to the role of Hydra and Medusa in mythology and art.

Alternative Globalizations S. A. Hamed Hosseini, 2009-12-04 This book explores the formation and transformation of ideas, identities, and solidarities in the global opposition to the corporate-led globalization and its ideological basis, neo-liberalism.

Bernstein Meets Broadway Carol J. Oja, 2014 With an innovative historical framework, Carol J. Oja explores the emergence during World War II of Leonard Bernstein, Jerome Robbins, Betty Comden, and Adolph Green. The Father and the Feminine Spencer Miles Boersma, 2024-09-12 How should Christians speak of the transcendent yet personal God when our language for persons is almost always gendered? Is male imagery such as Father, Son, or King the only appropriate way? Are there ways to talk of God using female gendered metaphors and pronouns? And how does the use of such language impact humans as gendered people? Moving beyond the extremes in this debate, *The Father and the Feminine* seeks to clarify the ways Christians speak about God, whether this is by recognizing revelation and Christian tradition upholding God's ineffability using analogies, metaphors, and narratives; referring to God as Father, Son, and Spirit; or by seeking a liberating way of life in community. Spencer Miles Boersma argues that male language for God need not be problematic if used and understood correctly, but at the same time that it cannot be the exclusive way Christians speak of the Divine. The grammar of Christian Scripture and tradition both authorize the use of female language, which Christians ought to use in pursuing a deeper relationship with God and others, as well as a more authentic view of self.

Critical Applied Linguistics Alastair Pennycook, 2021-06-28 Now in its second edition, this accessible guide and introduction to critical applied linguistics provides a clear overview of the problems, debates, and competing views in language education, literacy, discourse analysis, language in the workplace, translation, and other language-related domains. Covering both critical theory and domains of practice, the book is organized around five themes: the politics of knowledge, the

politics of language the politics of difference the politics of texts and the politics of pedagogy Recognizing that a changing world requires new ways of thinking and that many approaches have watered down over time the new edition applies a sharp fresh look at established and new intellectual frameworks The second edition is comprehensively updated with additional research throughout and features new discussions of colonialism queer theory race and gender translanguaging and posthumanism With a critical focus on the role of applied linguists Pennycook emphasizes the importance of a situated collaborative perspective that takes the discussion away from questions of implementation and insists instead that critical applied linguistics has to be an emergent program from the contexts in which it works This landmark text is essential reading for students and researchers of applied linguistics multilingualism language and education TESOL and language and identity
