

ECONOMIE SOCIALE ET SOLIDAIRE : QUEL RÔLE POUR LA FRANCE DANS L'UNION EUROPÉENNE ?

Situation européenne

L'économie sociale et solidaire (ESS) est une réalité européenne : Elle a été un facteur de croissance et d'emploi dans le passé récent. Elle procure 15,1 millions d'emplois dans l'Union Européenne, dont 12,5 millions d'emplois payés et le reste d'emplois bénévoles, soit resp. 19% (et 6,7%) de la population active de l'UE*. La contribution de l'ESS au PIB européen est estimée entre 8 et 10%. L'emploi fourni par l'ESS dans l'Union Européenne s'est accru d'environ 20% entre 2002 et 2015, période ponctuée par une crise économique et sociale profonde pendant laquelle l'ESS a maintenu une forte résilience.

Les potentialités de l'ESS sont de plus en plus reconnues par les gouvernements européens. Sous présidence luxembourgeoise (2005), ont été adoptées des conclusions du Conseil sur l'ESS où tous les pays membres se sont engagés à développer des actions de soutien à l'ESS. Par vagues successives, certains pays membres ont rejoint un noyau dur d'états-membres prêts à jouer un rôle leader en Europe en faveur de l'ESS: 6 pays d'abord (déclaration de Luxembourg en 2005) et maintenant 11 pays (déclaration de Madrid en 2017). La France fait partie de ces pays avec l'Espagne, l'Italie, l'Allemagne, le Portugal, la Suède, la Grèce, la Slovaquie, la Slovaquie, etc.

Union Europ Enne Europe Sociale Solidaire:

The Principle of Solidarity Eva Kassoti, Narin Idriz, 2023-02-13 This edited volume explores the principle of solidarity in international and EU law. Although the concept is regularly invoked in international and EU legal and policy debates alike its meaning, nature and functions as well as normative contours still remain nebulous. The contributions in this volume reflect on the legal trajectory of solidarity in international and EU law and offer unique insights into the evolution and status of the principle in different fields of international and EU law. By doing so the book also serves as a springboard for answering broader questions pertaining to what the stage of development of this principle may imply for the two legal orders and their interaction. As the chapters of this book show the debate on solidarity is premised on conflicting visions regarding the values underpinning the international legal order as well as the self interest or community oriented driving forces behind States' action at the international level. The regional EU law perspective offers a new lens through which to revisit classic questions pertaining to the nature of modern international law and to assess its continuing relevance in a world of regional organizations presenting different visions and levels of co operation. This book the second volume to appear in the Global Europe Series will appeal to international and EU law researchers and policy makers alike with an interest in the nature and function of the principle of solidarity in international and EU law. Eva Kassoti is Senior researcher in EU and International Law at the T M C Asser Institute in The Hague The Netherlands and the Academic Co ordinator of CLEER. Narin Idriz is Researcher in EU Law at the T M C Asser Institute in The Hague The Netherlands.

Private Health Insurance and the European Union Cyril Benoît, Marion Del Sol, Philippe Martin, 2020-12-03 Research has paid little attention to date on how European Union law and regulation affect both the public private mix in healthcare and the organization of private health insurance as an industry. Filling this gap this collective book provides insights on the political economy of EU insurance regulation its impact on private health insurers and on its interactions with domestic healthcare policy making in four countries. Assembling original contributions drafted by a multidisciplinary team *Private Health Insurance and the European Union* offers a thorough examination of a largely unrecognized source of EU influence in healthcare and sheds a new light on the role played by private actors in social policy. Abdelkhaleq Berramdane, Karine Abderemane, 2015-11-05 The French Nonprofit Sector Laura Nirello, Lionel Prouteau, 2018-08-20 This article deals with the literature on the French nonprofit sector NPS A preliminary part is devoted to presenting and discussing the characteristics that shape the approaches to this sector in France We stress the strong influence of legal categories on the sector's definition and in this context the importance of the status inherited from the 1901 Act on contracts of association This raises a problem for a more analytical approach to the sector because the diversity of the nonprofit organizations NPOs regulated under this Act risks being overshadowed In this first part we also underline the primacy accorded in France to the concept of the social economy which has today become the social and solidarity economy SSE over that of the nonprofit sector In the second part the article outlines some landmarks in the history of the French NPS French NPOs were for many years objects of suspicion arbitrariness and repression on the part of the public authorities and this persisted until the 1901 legislation on contracts of association was enacted However this hostile context did not prevent the sector from having a richer existence than is sometimes admitted This literature review also focuses on empirical studies of the sector placing a particular emphasis on the more recent ones These French studies basically adopt

two types of approach The first is concerned essentially with the NPOs and focuses its attention on their economic importance whether measured in terms of financial resources employment or less frequently added value The second approach investigates the kinds of individual participation the sector engenders by examining the various forms it takes such as membership of NPOs or voluntary work This review ends with the analysis of the challenges that NPS faces in a context characterized by the increasing constraints on public funding changes in the nature of such funding with a substitution of contracts for subsidies an increased competition among NPOs as well as between NPOs and for profit enterprises The article concludes that despite the advances in research on the French NPS some aspects like formal volunteering and the role of voluntary associations are still understudied while others like informal groups and informal volunteering are almost totally ignored

Editorials and the Power of Media Elisabeth Le, 2010 Editorials define at a given time how media construct their socio cultural environment and where they position themselves in it In this sense they are snapshots of media socio cultural identities whose study is crucial for the understanding of media actions and interactions on the political stage This book contributes to the study of media roles in politics with a methodological discursive communication identity framework and its application to a corpus of editorials This allows for the definition of editorials as a genre and it reveals that thanks to a very adroit interweaving of their socio cultural identities news media can play a much more active role on the political stage than studies on framing and agenda setting have hitherto shown The place of media in political communication models might therefore need to be reviewed This book is intended for all those interested in media and politics whatever their academic specializations

Networks Governance, Partnership Management and Coalitions Federation Christophe Assens, Aline Courie Lemeur, 2016-05-12 This book explores the governance of networks. A network's governance mechanisms are based on trust and confidence which go beyond a simple economic logic. As the network's boundaries expand to include clusters of businesses and stakeholders and the emergence of coalitions of all kinds the trust will gradually dilute and the network's unifying role will be lost. The organization then evolves into the form of a network of networks where the challenge is to bring together coalitions. Using examples from the European Union and the Regional Health Federation of Networks this book explores the political and socio-economic challenges including the decision making and division of tasks faced by network organizations which move to a federation model of governance.
