Fundamental Principles of Democracy

- **Direct Democracy** – citizens meet and vote directly on government decisions

○ **Consent of the Governed** – principle that there are no supreme rulers, all rulers depend on the approval of the people; when governments fail to protect rights the people have the right to change the government

○ **Natural Rights** – principle that all people are born with certain rights: life, liberty, and property (Jefferson changes property into pursuit of happiness)

- **Declaration of Independence** – Thomas Jefferson's document built on principles of "life, liberty, and the pursuit of happiness" consent of the governed, and social contract theory. It also justified American revolution against England

Scheurman, Ronald W. Evans, 2018-07-01 The New Social Studies refers to a flurry of academic and commercial activity
during the 1960s and 1970s that resulted in the mass development and dissemination of revolutionary classroom materials
and teacher resources In science as well as social studies a spirit of inquiry based teaching filled the air during this time
resulting in the development of curricula that were both pedagogically innovative and intellectually rigorous Constructivism
and the New Social Studies contains a collection of classic lessons from some of the most successful projects of the era
providing a resource of exceptional ideas and materials that have stood the test of time These revealing artifacts are
presented with commentaries from some of the original directors of major projects including Edwin Fenton Barry Beyer and
Suzanne Helburn In addition to American and World History groundbreaking lessons are represented in Economics
Government Sociology and Geography including the Public Issues Series Fred Newann The Amherst History Project Richard
Brown and Geoffrey Scheurman and Teaching American History The Quest for Relevancy Allan Kownslar Gerald Ponder and
Geneva Gay and Man A Course of Study Peter Dow With a Foreword by Jerome Bruner the volume not only provides a
resource of exceptional curriculum ideas and actual materials it also builds a lucid bridge between the theoretical ideas of
constructivism and the pedagogical principles of inquiry learning With over 50 years of expertise from curriculum history and
social studies pedagogy the editors make the case that guided inquiry as presented in these projects was constructivist by
design offering a range of instructional methods that begin with questions rather than answers and considers progress in
terms of the development of analytical skills and experimental habits of mind rather than the mere acquisition of knowledge
Projects developed during the New Social Studies serve as both an interesting historical archive of powerful curricular
innovations as well as a treasure trove of actual lessons and materials still useful in social studies classrooms striving to
become more constructivist The lessons and other materials we chose should be relevant if you are an historian researcher
theorist or teacher of any subject but it will be especially significant if you are interested in the nature of social civic or
historical literacy in America including how to teach for authentic achievement in those areas **National Library of**
