The Heart of Nursing Jeanne Koester, 2020-10-22 This book is about the adventures and experiences I had as a registered nurse over 53 years I wanted to share these experiences to inspire men and women to choose nursing as a lifetime career Nurses truly make a difference in the lives of people they care for These adventures all touched my heart in various ways It made me realize how just the simplest act like a hug holding their hand or a smile can mean so much to someone who is scared of dying or someone who feels like there is no one who can help them There is the excitement of saving a life or holding a newborn child There is the rush of energy you get when there is a crisis in a patient's condition that makes your heart pump faster and the look of peace on the face of a woman who died knowing that someone cared and was there for her Nursing is not just theory and based on technology but true hands on care It should be a combination of both
