Crime, histoire et sociétés René Levy, 2004 A Vehicle for Change Éamon Ó Cofaigh, 2022-05-13 An Open Access edition of this book will be available on the Liverpool University Press website and the OAPEN library Since its invention the automobile has been systematically consumed to become part of the fabric of twentieth and twenty first century society its impact and perception making the car an accurate gauge of changing cultural norms and values As it grew in popularity the automobile conditioned the very texture of modern life and the particularly car centred society of contemporary France is an especially apt locus for examination The ubiquity of the automobile across all social strata provides us with a defined lens through which to examine the evolution of French society in the modern and post modern eras Taking the Second World War as a pivotal moment in recent French history this book demonstrates how the automobile was both consumed and fetishized in distinct ways before and after this conflict The ways in which society evolved from the pre to the post war period allow us to view French culture through the prism of the automobile as it embodied technological and social progress in twentieth century France The present volume seeks to explore and interrogate the processes of representation and mediation inherent in the evolving patterns of automobile consumption and their subsequent impacts on local and national identity framed by a detailed case study centred on France from the late nineteenth century to the oil crisis of the early 1970s **Geographical**

On la redoute donc le plus souvent en essayant de l'éviter. Mais plutôt que d'en craindre le pire, ne peut-on en espérer le meilleur dans sa violence même ? La crise ne fait-elle pas apparaître de nouvelles possibilités de vivre ? Ne faut-il pas alors tenter de s'en saisir comme l'occasion d'une renaissance aussi bien dans l'existence personnelle des individus que dans la vie collective des peuples ?

Histoire de l'économie française Jean-François Eck, 2009-05-20 Cet ouvrage se divise en quatre parties : l'évolution des mutations lentes de l'environnement, les transformations du système de production et la place de la France dans le monde. Après la crise des années 1930 vient le temps du redressement, années 1950-1960, puis des incertitudes, années 1970-1990, pour parvenir en 1999 à l'adoption de l'euro. L'auteur conclut l'ouvrage sur la question suivante : existe-t-il un modèle original de capitalisme ?

Pérégrinations ibériques Bartolomé Bennassar, 2018-08-30 Bartolomé Bennassar est un voyageur. Le temps et l'espace sont ses horizons. La profondeur historique de l'histoire espagnole, les grandes terres de l'Amérique latine. Comme tout pérégrinant, il critique ses voyages, mais avec une plume double : celle de l'historien romanesque. L'un de ses romans a connu une adaptation au cinéma et celle de l'historien. Il nous livre dans ce petit ouvrage la quintessence d'un itinéraire humain et intellectuel, de la découverte de la discipline qui sera la sienne à l'histoire, sa carrière scandée au rythme de la publication d'une œuvre historiographique importante de spécialiste attentif des évolutions du monde hispanique sans oublier la passion de l'enseignement qui inlassablement l'emmène avec ses étudiants sur les routes des Andes.

Les Abandonnés Xavier de Jarcy, 2019-02-01 Pourquoi la France qui se voulait la nation de l'art de vivre, de la mesure et de la démocratie a-t-elle tué le pays développé qui a le plus mal logé ses habitants et pourquoi s'est-elle enfoncée dans une perpétuelle crise du logement, cause d'un malaise urbain dont elle peine encore à extraire ? Nous avons aujourd'hui une vision faussée des problèmes des banlieues, la dérive des quartiers commencerait après la crise économique de 1974 et serait liée à l'immigration. Or Xavier de Jarcy, en reconstituant la genèse des quartiers de banlieue, tape par tape et en donnant à entendre la parole de tous les intervenants : ministres, élus locaux, architectes, constructeurs, promoteurs, démographes, géographes et bien entendu habitants, nous montre que les erreurs d'urbanisme et la ségrégation sociale ont commencé bien plus tôt. Women's Rights and Women's Lives in France 1944-1968 Claire Duchen, 2003-09-02

Women's Rights and Women's Lives in France 1944-1968 explores key aspects of the everyday lives of women between the Liberation of France and the events of May 68. At the end of the war, French women believed that a new era was beginning and that equality had been won. The redefined postwar public sphere required women's participation for the new democracy and women's labour power for reconstruction, but equally important was the belief in women's role as mothers. Over the next two decades, the tensions between competing visions of women's proper place dominated discourses of womanhood as well as policy decisions and had concrete implications for women's lives. Working from a wide range of sources including women's magazines, prescriptive literature, documentation from political parties, government reports, parliamentary debates, and personal memoirs, Claire Duchen follows the debates concerning womanhood, women's rights, and women's lives through the 1944-1968 period and grounds them in the changing reality of postwar France.

Past Forward Dayna Oscherwitz, 2010-09-15

In *Past Forward: French Cinema and the Post Colonial Heritage*, author Dayna Oscherwitz focuses on the world of French films with a new lens. Drawing upon a wealth of research and the examination of popular French movies, Oscherwitz offers fresh perspectives not only on the unique importance of motion pictures and their indelible influence on French character, but on current debates regarding individual and collective memory. *Past Forward* traces the development and ascension of the French heritage film: those historical and costume dramas focusing on prestigious French subjects, events, and settings. These motion pictures preeminent during a period of globalization and fear over the effects of immigration in 1980s France quickly came to embody a specific version of French national and collective identity: one that idealized the past, condemned the present, and created an institutional form of memory. Oscherwitz presents the intriguing notion that French heritage films are not exclusively expressions of nationalism and nostalgia, as has commonly been asserted. On the contrary, although these movies were born out of a perceived loss of French culture, their ambivalence toward traditional hallmarks of nationalism opens them up to new interpretation. Also in contrast to typical conceptions, the author suggests that these heritage films are far from cinematic bastions of multicultural backlash; instead, she argues, popular culture has in its own fashion reinserted the history of colonialism and immigration into the national past, thus reimagining heritage itself. Against this backdrop, Oscherwitz goes on to investigate the multicultural worlds of *beur* and *banlieue* movies, cinema seemingly in direct contrast with the heritage film, offering the theory that these films serve as a counter-memory to an institutionalized one and provide alternative models of collective memory and identity. Through careful analysis of several examples, Oscherwitz demonstrates how these two seemingly different realms, heritage and multicultural cinema, are far from mutually exclusive in the construction of French identity. Throughout the volume, numerous well-known French movies are

reexamined inviting new interpretations of and challenging old views through investigations of familiar cinematic works Past Forward is a revolutionary volume that boldly reimagines our ideas about French film and its role in communicating history and memory *Les Cahiers de l'Urbanisme* Pierre Mardaga, 1999 **Les espaces productifs en France** Alexandra Monot, 2023-12-15 L économie française a connu depuis les années 1950 des mutations majeures Si la France demeure une puissance agricole mondiale l'agriculture s'est resserrée socialement et spatialement sur un nombre restreint d'agriculteurs et sur les espaces les plus aisés à exploiter L'industrie a subi une restructuration sur des secteurs innovants au détriment de ceux de faible technologie aujourd'hui largement délocalisés ce qui a modifié la géographie du secteur industriel sur le territoire français Enfin le pays s'est fortement tertiarisé la fois par l'essor d'une économie professionnelle et de la connaissance mais aussi par l'externalisation des services aux entreprises Ces bouleversements structurels de l'économie française s'expliquent en grande partie par le passage de secteurs d'activités des systèmes productifs
