Around the World in Eighty Days Jules Verne, 2023-04-04 A classic tale of adventure from renowned French author

Jules Verne Originally published in 1872 *Around the World in Eighty Days* imagined for readers the possibility of circumnavigating the world when the prospect of such a feat was still in its infancy After an argument with colleagues at London's Reform Club the wealthy Phileas Fogg wagers 20 000 that he can circumnavigate the globe in eighty days and then sets out that very evening with his servant Passepartout A series of adventures on the seas and rails as well as the presence of a detective from Scotland Yard who mistakes Fogg for a wanted criminal provide readers with intriguing plot twists along the way Will Fogg make it back to London in time *Spatial Boundaries, Abounding Spaces* Mohit Chandna, 2021-06-30

Colonialism advanced its project of territorial expansion by changing the very meaning of borders and space The colonial project scripted a unipolar spatial discourse that saw the colonies as an extension of European borders In his monograph Mohit Chandna engages with narrations of spatial conflicts in French and Francophone literature and film from the nineteenth to the early twenty first century In literary works by Jules Verne Ananda Devi and Patrick Chamoiseau and film by Michael Haneke Chandna analyzes the depiction of ever changing borders and spatial grammar within the colonial project In so doing he also examines the ongoing resistance to the spatial legacies of colonial practices that act as omnipresent enforcers of colonial borders Literature and film become sites that register colonial spatial paradigms and advance competing narratives that fracture the dominance of these borders Through its analyses *Spatial Boundaries Abounding Spaces* shows that colonialism is not a finished project relegated to our past Colonialism is present in the here and now and exercises its power through the borders that define us *Transcultural History* Madeleine Herren, Martin Rüesch, Christiane Sibille, 2012-06-19

For the 21st century the often quoted citation past is prologue reads the other way around The global present lacks a historical narrative for the global past Focussing on a transcultural history this book questions the territoriality of historical concepts and offers a narrative which aims to overcome cultural essentialism by focussing on crossing borders of all kinds *Transcultural History* reflects critically on the way history is constructed asking who formed history in the past and who succeeded in shaping what we call the master narrative Although trained European historians the authors aim to present a useful approach to global history showing first of all how a Eurocentric but universal historiography removed or essentialised certain topics in Asian history As an empirical discipline history is based on source material analysed according to rules resulting from a strong methodological background This book accesses the global past after World War I looking at the well known stage of the Paris Peace Conferences observing the multiplication of new borders and the variety of transgressing institutions concepts actors men and women inventing themselves as global subjects but sharing a bitter experience with almost all local societies at this time namely the awareness of having relatives buried in far distant places due to globalised wars **World Literature Reader** Theo D'haen, César Domínguez, Mads Rosendahl Thomsen, 2012-06

World Literature is an increasingly influential subject in literary studies which has led to the re framing of contemporary ideas of national literatures language and translation *World Literature A Reader* brings together thirty

Peru After the ship stopped for repairs in Kanagawa Bay a number of legal issues arose that were destined to change the perception and use of the law in Japan forever The case had a tremendous impact on the collective imagination both Japanese and international it is one of the first occurrences in which an Asian country decided to resist the pressure of a Western nation and responded using the most refined tools of domestic and international law Moreover the final outcome of the case arbitration in front of the Czar of Russia marks the debut of Japan on the stage of international arbitration While historians have written widely on the subject the legal importance of this event has been relatively neglected This book uses the case to explore the technical legal issues Japan was facing in its transition from pre modernity to modernity These include unequal treaties extraterritoriality clauses the need to establish an updated judicial system and a delicate balance between asserting sovereignty and resorting to diplomacy in solving disputes involving foreigners Based on original documents this book is an invaluable resource for researchers and academics in the fields of legal history dispute resolution international law Japanese history and Asian studies
