reasons behind why second homes are becoming more popular both within the usual domicile of the individuals and in international locations. The socioeconomic factors and historical contexts of homes in cultures across the world are fundamental to explaining the choices in transnational home ownership and Paris case studies and comparisons between additional homes in Europe, Australia, America and Asia expand upon the motivation for people to own a second home. Affluence, Mobility and Second Home Ownership draws together debates on gentrification, globalisation, consumerism, environmental factors and investment to provide a balanced look at the pros and cons of second home ownership and what implications it has for the future.
