Tourist Attractions Gregory Mitchell, 2015-12-09 While much attention has been paid in recent years to heterosexual prostitution and sex tourism in Brazil gay sex tourism has been almost completely overlooked In Tourist Attractions Gregory C Mitchell presents a pioneering ethnography that focuses on the personal lives and identities of male sex workers who occupy a variety of roles in Brazil's sexual economy Mitchell takes us into the bath houses of Rio de Janeiro where rent boys cruise for clients and to the beaches of Salvador da Bahia where African American gay men seek out hustlers while exploring cultural heritage tourist sites His ethnography stretches into the Amazon where indigenous fantasies are tinged with the erotic at eco resorts and into the homes of kept men who forge long term long distance transnational relationships that blur the boundaries of what counts as commercial sex Mitchell asks how tourists perceive sex workers performances of Brazilianness race and masculinity and in turn how these two groups of men make sense of differing models of racial and sexual identity across cultural boundaries He proposes that in order to better understand how people experience difference sexually we reframe prostitution which Marxist feminists have long conceptualized as sexual labor as also being a form of performative labor Tourist Attractions is an exceptional ethnography poised to make an indelible impact in the fields of anthropology gender and sexuality and research on prostitution and tourism The Biopolitics of Beauty Alvaro

Queer Nightlife Kemi Adeyemi, Kareem Khubchandani, Ramon H. Rivera-Servera, 2021-05-03 The mass shooting at a queer Latin Night in Orlando in July 2016 sparked a public conversation about access to pleasure and selfhood within conditions of colonization violence and negation *Queer Nightlife* joins this conversation by centering queer and trans people of color who apprehend the risky medium of the night to explore know and stage their bodies genders and sexualities in the face of systemic and social negation The book focuses on house parties nightclubs and bars that offer improvisatory conditions and possibilities for stranger intimacies and that privilege music dance and sexual gender expressions *Queer Nightlife* extends the breadth of research on everynight life through twenty five essays and interviews by leading scholars and artists The book s four sections move temporally from preparing for the night how do DJs source their sounds what does it take to travel there who promotes nightlife what do people wear to the socialities of nightclubs how are social dance practices introduced and taught how is the price for sex negotiated what styles do people adopt to feel and present as desirable to the staging and spectacle of the night how do drag artists confound and celebrate gender how are spaces designed to create the sensation of spectacularity whose bodies become a spectacle already and finally how the night continues beyond the club and after sunrise what kinds of intimacies and gestures remain how do we go back to the club after Orlando

Sex Richard Joseph Martin, Dieter Haller, 2020-05-27 Focusing on the unacknowledged personal and often unconscious dimension *Sex* explores the intersection between sex and ethnography Anthropological writing tends to focus on the influence of status markers such as position gender ethnicity and age on fieldwork By contrast far less attention has been paid to how sex sexuality eroticism desire attraction and rejection affect ethnographic research In the book anthropologists reflect on their own encounters with sex during fieldwork revealing how attraction and desire influence the choice of fieldwork subjects field sites and friendships They also examine the resulting

impact on fieldwork findings and the generation of knowledge Based on fieldwork in Germany Denmark Greece the USA Brazil South Africa Singapore Turkey Israel Morocco and India the contributors go beyond the common heterosexuality homosexuality divide to address topics which include celibacy polyamory and sadomasochism This long overdue text provides perspectives from a new generation of anthropologists and brings the debate into the 21st century Examining challenging and controversial issues in contemporary fieldwork this is essential reading for students in anthropology gender and sexuality studies sociology research methods and ethics courses *Gendered Lives* Nadine T. Fernandez,Katie Nelson,2022-01-01 *Gendered Lives* takes a regional approach to examine gender issues from an anthropological perspective with a focus on globalization and intersectionality Chapters present contributors ethnographic research contextualizing their findings within four geographic regions Latin America the Caribbean South Asia and the Global North Each regional section begins with an overview of the broader historical social and gendered contexts which situate the regions within larger global linkages These introductions also feature short project people profiles that highlight the work of community leaders or non governmental organizations active in gender related issues Each research based chapter begins with a chapter overview and learning objectives and closes with discussion questions and resources for further exploration This modular regional approach allows instructors to select the regions and cases they want to use in their courses While they can be used separately the chapters are connected through the book s central themes of globalization and intersectionality An OER version of this course is freely available thanks to the generous support of SUNY OER Services Access the book online at <https://milneopentextbooks.org/gendered-lives-global-issues/> *Mobile Orientations* Nicola Mai,2018-11-16 Despite continued public and legislative concern about sex trafficking across international borders the actual lives of the individuals involved and more importantly the decisions that led them to sex work are too often overlooked With *Mobile Orientations* Nicola Mai shows that far from being victims of a system beyond their control many contemporary sex workers choose their profession as a means to forge a path toward fulfillment Using a bold blend of personal narrative and autoethnography Mai provides intimate portrayals of sex workers from sites including the Balkans the Maghreb and West Africa who decided to sell sex as the means to achieve a better life Mai explores the contrast between how migrants understand themselves and their work and how humanitarian and governmental agencies conceal their stories often unwittingly by addressing them all as helpless victims The culmination of two decades of research *Mobile Orientations* sheds new light on the desires and ambitions of migrant sex workers across the world **White Supremacy, Racism and the Coloniality of Anti-Trafficking** Kamala Kempadoo,Elena Shih,2022-09-15 Global efforts to combat human trafficking are ubiquitous and reference particular ideas about unfreedoms suffering and rescue The discourse has however a distinct racialized legacy that is lodged specifically in fears about white slavery women in prostitution and migration and the defilement of white womanhood by the criminal and racialized Other *White Supremacy, Racism and the Coloniality of Anti Trafficking* centers the legacies of race and racism in

contemporary anti trafficking work and examines them in greater detail A number of recent arguments have suggested that race and racism are not only visible but vital to the success of contemporary anti trafficking discourses and movements The contributors offer recent scholarship grounded in critical anti racist perspectives that reveal the historical and contemporary racial working of anti trafficking discourses and practices globally and how these intersect with gender citizenship sexuality caste and class formations and the global political economy *Living with HIV in Post-Crisis Times* David A.B.

Murray,2021-08-18 Over the past decade effective prevention and treatment policies have resulted in global health organizations claiming that the end of the HIV AIDS crisis is near and that HIV AIDS is now a chronic but manageable disease These proclamations have been accompanied by stagnant or decreasing public interest in and financial support for people living with HIV and the organizations that support them minimizing significant global disparities in the management and control of the HIV pandemic The contributors to this edited collection explore how diverse communities of people living with HIV PLHIV and organizations that support them are navigating physical social political and economic challenges during these so called post crisis times
