Toward A Native American Critical Theory Toward A Native American Critical Theory:

Toward a Native American Critical Theory Elvira Pulitano, 2003-01-01 Unlike Western interpretations of Native American literatures and cultures in which external critical methodologies are imposed on Native texts ultimately silencing the primary voices of the texts themselves Pulitano's work examines critical material generated from within the Native contexts to propose a different approach to Native literature Pulitano argues that the distinctiveness of Native American critical theory can be found in its aggressive blending and reimagining of oral tradition and Native epistemologies on the written page a powerful complex mediation that can stand on its own yet effectively subsume and transform non Native critical theoretical strategies BOOK JACKET

Towards a Native American Critical Theory Elvira Pulitano, 2002 **Tribal Theory in Native American Literature** Penelope Myrtle Kelsey, 2008-01-01 Scholars and readers continue to wrestle with how best to understand and appreciate the wealth of oral and written literatures created by the Native communities of North America Are critical frameworks developed by non Natives applicable across cultures or do they reinforce colonialist power and perspectives Is it appropriate and useful to downplay tribal differences and instead generalize about Native writing and storytelling as a whole Focusing on Dakota writers and storytellers Seneca critic Penelope Myrtle Kelsey offers a penetrating assessment of theory and interpretation in indigenous literary criticism in the twenty first century Tribal Theory in Native American Literature delineates a method for formulating a Native centered theory or more specifically a use of tribal languages and their concomitant knowledges to derive a worldview or an equivalent to Western theory that is emic to indigenous worldviews These theoretical frameworks can then be deployed to create insightful readings of Native American texts Kelsey demonstrates this approach with a fresh look at early Dakota writers including Marie McLaughlin Charles Eastman and Zitkala a and later storytellers such as Elizabeth Cook Lynn Ella Deloria and Philip Red Eagle This book raises the provocative issue of how Native languages and knowledges were historically excluded from the study of Native American literature and how their encoding in early Native American texts destabilized colonial processes Cogently argued and well researched Tribal Theory in Native American Literature sets an agenda for indigenous literary criticism and invites scholars to confront the worlds behind the literatures that they analyze **The Poetry and Poetics of Gerald Vizenor** Deborah L.

Madsen, 2012-12-01 The first book devoted exclusively to the poetry and literary aesthetics of one of Native America's most accomplished writers this collection of essays brings together detailed critical analyses of single texts and individual poetry collections from diverse theoretical perspectives along with comparative discussions of Vizenor's related works Contributors discuss Vizenor's philosophy of poetic expression his innovations in diverse poetic genres and the dynamic interrelationships between Vizenor's poetry and his prose writings Throughout his poetic career Vizenor has returned to common tropes themes and structures Indeed it is difficult to distinguish clearly his work in poetry from his prose fiction and drama The essays gathered in this collection offer powerful evidence of the continuing influence of Anishinaabe dream songs and the

haiku form in Vizenor's novels, stories, and theoretical essays, this influence is most obvious at the level of grammatical structure and imagistic composition but can also be discerned in terms of themes and issues to which Vizenor continues to return.

The Cambridge Companion to Native American Literature Joy Porter, Kenneth M. Roemer, 2005-07-21 An informative and wide-ranging overview of Native American literature from the 1770s to present day.

The Rhizomatic West Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's *Generation X*? In Jim Jarmusch's movies? In Calexico's music? Or is the American West as this book tells us a constantly moving, mutating idea within a complex global culture? And what, precisely or better yet imprecisely, does it mean? Using Gilles Deleuze and Félix Guattari's concept of the rhizome, Neil Campbell shows how the West or westness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms. A region long traversed by various transient peoples from tribes and conquerors to immigrants, traders, and trappers, the West reflects a mythic quest for settlement, permanence, and synthesis, even notions of a national or global identity at odds with its rootless history, culture, and nature. Crossing the concept of roots with routes, this book shows how notions of the West in representations ranging from literature and film to photography, music, and architectural theory give expression to ideas about identity, nationhood, and belonging in a world increasingly defined by movement across time and borders. *The Rhizomatic West* offers a new vision of the American West as a hybrid performative space, a staging place for myriad intersecting and constantly changing identities.

Enduring Critical Poses Gordon Henry Jr., Margaret Noodin, David Stirrup, 2021-02-01 *Enduring Critical Poses* examines the stories, poems, plays, and histories centered in the Great Lakes region of North America where the Anishinaabeg live in a space Basil Johnston referred to as Maazikamikwe, a maternal earth. The Anishinaabeg are a confederacy of many communities, including the Odawa, Sauk, Ojibwe, Potawatomi, Ojibwe, and Algonquin peoples who share cultural practices and related languages. Bringing together senior scholars and new voices on the Anishinaabe intellectual landscape, this volume specifically explores Ojibwe, Odawa, and Potawatomi culture, language, and literary heritage. Through a tribal-centric framework, the contributors connect various branches of Native American literary studies and celebrate Anishinaabe narrative diversity to offer a single overarching story of Anishinaabe survival and endurance.

Native Authenticity Deborah L. Madsen, 2012-02-01 An indispensable resource for readers, students, and scholars of Native literatures in North America, *Native Authenticity* offers a clear, comprehensive, and systematic look at the diversity of critical approaches to the idea of Indian-ness. Some of the foremost transatlantic scholars of Native Studies in North America and Europe share their insights on this highly charged aspect of the contemporary theoretical field of Native Studies. The issue of authenticity or Indian-ness generates a controversial debate in studies of indigenous American literatures. The articulation of Native identity through the prism of Euro-American attempts to confine Indian groups to essentialized spaces is resisted by some Native writers, while others recognize a need for essentialist categories as a key

strategy in the struggle for social justice and a perpetually renewed sense of Native sovereignty Pressure from neo colonial essentializing practices is in conflict with a politics of cultural sovereignty which demands a notion of Indian essence or authenticity as a foundation for community values heritage and social justice Contributors participate in a scholarly and pedagogical search for an intellectual paradigm for Native literary studies that is apart from yet cognizant with powerful colonial legacies The complex politics of Polynesian authenticity versus Native indigeneity is engaged by Native Hawaiian writers as they negotiate conflicting demands upon personal and tribal identities Related to this questioning is the authenticity debate in Canadian First Nations writing where the claim to authenticity rests upon a claim to historical precedence also related is the highly contentious claim by some Chicano writers to an indigenous heritage as a claim to authority and American authenticity Essays in this volume are focused upon the diverse and sophisticated responses of Native writers and scholars while offering comparative perspectives on Native Hawaiian Chicano and Canadian literatures

Other Worlds Here Theresa Warburton, 2021-04-15 *Other Worlds Here Honoring Native Women's Writing* in *Contemporary Anarchist Movements* examines the interaction of literature and radical social movement exploring the limitations of contemporary anarchist politics through attentive engagement with Native women's literatures Tracing the rise of New Anarchism in the United States following protests against the World Trade Organization in 1999 interdisciplinary scholar Theresa Warburton argues that contemporary anarchist politics have not adequately accounted for the particularities of radical social movement in a settler colonial society As a result activists have replicated the structure of settlement within anarchist spaces All is not lost however Rather than centering a critical indictment of contemporary anarchist politics *Other Worlds Here* maintains that a defining characteristic of New Anarchism is its ability to adapt and transform Through close readings of texts by Native women authors Warburton argues that anarchists must shift the paradigm that another world is possible to one that recognizes other worlds already here stories networks and histories that lay out methods of building reciprocal relationships with the land and its people Analyzing memoirs poetry and novels by writers including Deborah Miranda Elissa Washuta Heid E Erdrich Janet Rogers and Leslie Marmon Silko *Other Worlds Here* extends the study of Native women's literatures beyond ethnographic analysis of Native experience to advance a widely applicable contemporary political critique

Concepts of Cabralism Reiland Rabaka, 2014-07-16 By examining Amílcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory *Concepts of Cabralism* Amílcar Cabral and *Africana Critical Theory* simultaneously reintroduces chronicles and analyzes several of the core characteristics of the *Africana* tradition of critical theory Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of Léopold Senghor Aimé Césaire and Jean Paul Sartre

Next it shifts the focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization. Finally it offers an extended engagement of Cabral's critical theory and contributions to the African tradition of critical theory. Ultimately Concepts of Cabralism chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called African critical theory

The Native American Renaissance Alan R. Velie, A. Robert Lee, 2013-11-11
The outpouring of Native American literature that followed the publication of N. Scott Momaday's Pulitzer Prize-winning *House Made of Dawn* in 1968 continues unabated. Fiction and poetry, autobiography and discursive writing from such writers as James Welch, Gerald Vizenor, and Leslie Marmon Silko constitute what critic Kenneth Lincoln in 1983 termed the Native American Renaissance. This collection of

essays takes the measure of that efflorescence. The contributors scrutinize writers from Momaday to Sherman Alexie analyzing works by Native women, First Nations Canadian writers, postmodernists, and such theorists as Robert Warrior, Jace Weaver, and Craig Womack. Weaver's own examination of the development of Native literary criticism since 1968 focuses on Native American literary nationalism. Alan R. Velie turns to the achievement of Momaday to examine the ways Native novelists have influenced one another. Post-renaissance and postmodern writers are discussed in company with newer writers such as Gordon Henry Jr. and D. L. Birchfield. Critical essays discuss the poetry of Simon Ortiz, Kimberly Blaesus, Diane Glancy, Luci Tapahonso, and Ray A. Young Bear, as well as the life writings of Janet Campbell Hale, Carter Revard, and Jim Barnes. An essay on Native drama examines the work of Hanay Geiogamah, the Native American Theater Ensemble, and Spider Woman Theatre. In the volume's concluding essay, Kenneth Lincoln reflects on the history of the Native American Renaissance up to and beyond his seminal work and discusses Native literature's legacy and future. The essays collected here underscore the vitality of Native American literature and the need for debate on theory and ideology.

The World, the Text, and the Indian Scott Richard Lyons, 2017-03-27. Advances critical conversations in Native American literary studies by situating its subject in global, transnational, and modernizing contexts. Since the rise of the Native American Renaissance in literature and culture during the American civil rights period, a rich critical discourse has been developed to provide a range of interpretive frameworks for the study, recovery, and teaching of Native American literary and cultural production. For the past few decades, the dominant framework has been nationalism, a critical perspective placing emphasis on specific tribal nations and nationalist concepts. While this nationalist intervention has produced important insights and questions regarding Native American literature, culture, and politics, it has not always attended to the important fact that Native texts and writers have also always been globalized. **The World, the Text, and the Indian** breaks from this framework by examining Native American literature not for its tribal national significance but rather its connections to global, transnational, and cosmopolitan forces. Essays by leading scholars in the field assume that Native American literary and cultural production is global in character; even claims to sovereignty and self-determination are made in global contexts and influenced by global forces. Spanning from the nineteenth century to the present day, these analyses of theories, texts, and methods from trans-indigenous to cosmopolitan, George Copway to Sherman Alexie, and indigenous feminism to book history interrogate the dialects of global indigeneity and settler colonialism in literary and visual culture.

Seeking the Self - Encountering the Other Tuomas Huttunen, Janne Korkka, 2020-11-09. **Seeking the Self - Encountering the Other** offers new insights into diasporic experiences, encounters, and representations.
