Toward A Natural Forest The Forest Service In Transition A Memoir:

Toward a Natural Forest Jim Furnish, 2015 The Forest Service stumbled in responding to a wave of lawsuits from environmental groups in the late 20th Century a phenomenon best symbolized by the spotted owl controversy that shut down logging on public forests in the Pacific Northwest in the 1990s The agency was brought to its knees pitted between a powerful timber industry that had been having its way with the national forests for decades and organized environmentalists who believed public lands had been abused and deserved better stewardship Toward a Natural Forest offers an insider's view of this tumultuous time in the history of the Forest Service presenting twin tales of transformation both within the agency and within the author's evolving environmental consciousness Drawing on the author's personal experience and his broad professional knowledge Toward a Natural Forest illuminates the potential of the Forest Service to provide strong leadership in global conservation efforts Those interested in our public lands environmentalists natural resource professionals academics and historians will find Jim Furnish's story deeply informed thought provoking and ultimately inspiring *This Land Is Your Land* Michael J. Lannoo, 2018-08-10 Field biology is enjoying a resurgence due to several factors the most important being the realization that there is no ecology no conservation and no ecosystem restoration without an understanding of the basic relationships between species and their environments an understanding gleaned only through field based natural history With this resurgence modern field biologists find themselves asking fundamental existential questions such as Where did we come from What is our story Are we part of a larger legacy In *This Land Is Your Land* seasoned field biologist Michael J Lannoo answers these questions and more in a tale rooted in the people and institutions of the Midwest It is a story told from the ground up a rubber boot based natural history of field biology in America Lannoo illuminates characters such as John Wesley Powell William Temple Hornaday and Olaus and Adolph Murie homegrown midwestern field biologists who either headed east to populate major research centers or went west to conduct their fieldwork along the frontier From the pioneering work of Victor Shelford Henry Chandler Cowles and Aldo Leopold to contemporary insights from biologists such as Jim Furnish and historians such as William Cronon Lannoo's unearthing of American and particularly midwestern field biologists reveals how these scientists influenced American ecology conservation biology and restoration ecology and in turn drove global conservation efforts through environmental legislation and land set asides *This Land Is Your Land* reveals the little known legacy of midwestern field biologists whose ethos and discoveries have enabled us to preserve and understand not just their land but all lands *Oregon Historical Quarterly* Oregon Historical Society, 2016 *Carboniferous-Permian Transition in Cañon del Cobre, northern New Mexico* Spencer G.
