Toward A Translation Criticism John Donne:

Toward a Translation Criticism Antoine Berman, 2009 Fran oise Massardier Kenney's translation of Antoine Berman's *Toward a Translation Criticism* makes available for the first time in the English speaking world one of the twentieth century's foundational texts in translation studies. Berman's book, published posthumously in France, develops an original concept of criticism of translation and a methodology to anchor the practice of this criticism. He demonstrates how the work of translation is a critical process as well as a creative one. Moving away from nonsystematic evaluative approaches that focus on the shortcomings of translations or the normative approaches that study the cultural and literary systems into which the translations are inserted, Berman applies the notion of ethics he developed in his earlier works, calling for a translation that is nonethnocentric and stipulating that the creativity required by translation be focused on the re-creation of the original in the other language without being over-determined by the personal poetics of the writer-translator. Berman achieves a rare combination of hermeneutic and stylistic analysis of commentary on the original and analysis of its translations, giving the reader access both to the language of the original to the way in which poetry and thought are deployed and to the actual work of translation. *Toward a Translation Criticism* is divided into two separate but interlinked parts, each focused on one element of the ethics of translation: theory, reflection, and practice; experience. In the first part, Berman presents what he calls a general productive criticism, while in the second part, he applies the general theoretical principles of this criticism to the analysis of the translations of John Donne's work into French and Spanish. The translation of Berman's text is accompanied by an introduction placing Berman's thought in its intellectual context and by supplementary notes that complete the bibliographic material presented in the French language version. This study is essential reading for translation studies scholars, readers interested in the creative literary process, in the nature of literary criticism, and in the philosophy of language. It will also be of interest to John Donne specialists.

On Qian Zhongshu's Conceptualization of Translation Chang, Chung-An, 2025-10-14. This book brings new perspectives and insights to the discipline of translation studies at a time when Western theories dominate its main discourse. By highlighting the significant contribution of Chinese scholar Qian Zhongshu, which encompasses a theoretical probing of the process and product of translation in both China and the West, the author demonstrates how Qian's reconceptualization of the concept of translation expands the discourse to include and integrate concepts from the history of translation in China. The concept of *huajing*, which is one of these cultural perspectives developed by Qian, transcends the conventional view of translation as a linguistic transfer, envisioning it instead as a dynamic realm where encounters with meaning between the textual worlds of China and the West can take place. Through a meticulous analysis of Qian's profound though stylistically fragmentary commentaries, the author reveals how his comparative vision creates connections by breaking down linguistic and cultural barriers, challenging notions of untranslatability that often hinder cross-cultural exchange and anticipating an inclusive and globalized understanding of

translation so urgently needed today *Dramatic Licence* Louise Ladouceur, 2012-05 Navigating through two languages and cultures Ladouceur studies translation strategies in the world of theatre The Language Loss of the Indigenous G. N. Devy, Geoffrey V. Davis, K. K. Chakravarty, 2016-02-26 This volume traces the theme of the loss of language and culture in numerous post colonial contexts It establishes that the aphasia imposed on the indigenous is but a visible symptom of a deeper malaise the mismatch between the symbiotic relation nurtured by the indigenous with their environment and the idea of development put before them as their future The essays here show how the cultures and the imaginative expressions of indigenous communities all over the world are undergoing a phase of rapid depletion They unravel the indifference of market forces to diversity and that of the states unwilling to protect and safeguard these marginalized communities This book will be useful to scholars and researchers of cultural and literary studies linguistics sociology and social anthropology as well as tribal and indigenous studies The Routledge Handbook of Persian Literary Translation Pounesh Shabani-Jadidi, Patricia J. Higgins, Michelle Quay, 2022-07-08 The Routledge Handbook of Persian Literary Translation offers a detailed overview of the field of Persian literature in translation discusses the development of the field gives critical expression to research on Persian literature in translation and brings together cutting edge theoretical and practical research The book is divided into the following three parts I Translation of Classical Persian Literature II Translation of Modern Persian Literature and III Persian Literary Translation in Practice The chapters of the book are authored by internationally renowned scholars in the field and the volume is an essential reference for scholars and their advanced students as well as for those researching in related areas and for independent translators of Persian literature **Migration Literature in Translation** Mattea Cussel, 2025-05-02 Migration Literature in Translation explores the unique case of Latinx literature translated into Spanish drawing from Latinx studies sociology political philosophy and cultural studies The book focuses on works by Helena Mar a Viramontes Achy Obejas Daisy Hernandez and Junot Diaz analysing migration literature and translation as a social practice Cussel introduces the integrated translation critique a new methodology that examines the transformation of texts through translation and their reception while incorporating empirical social research methods This innovative approach highlights the roles of various actors scholars translators authors reviewers and readers in shaping Latinx literary texts mobility and meaning across languages and cultures Through qualitative research including focus groups questionnaires and fieldwork in Europe Latin America and the US Cussel sheds light on how transnational readers engage with translated migrant stories By addressing the cultural social and political dimensions of translation this interdisciplinary work offers a sociological perspective on literary translation It is essential reading for scholars and students in the sociology of translation Latinx and migration literature and migration studies The Korean Labour Market after the 1997 Economic Crisis Joonmo Cho, Richard B. Freeman, Jaeho Keum, Sunwoong Kim, 2013-06-19 For economists policy makers and historians who want to learn how the Korean labor market dealt with the 1997 financial crisis and how this informed future policies this volume

Environmental Awareness and Governance Mohamed Mlile, David Stringer, Mohammed Larouz, 2025-09-04 Environmental Awareness and Governance Ecological and Discourse Perspectives is a comprehensive exploration that delves into the intricate relationship between language discourse and environmental issues This book begins by examining the role of environmental governance in Moroccan political parties electoral programs followed by an analysis of how Moroccan online media communicates water stress as a risk issue It also provides an ecological analysis of a computer animated Netflix film The Sea Beast and discusses the impact of climate change on Moroccan agriculture particularly focusing on the Generation Green strategy The editors and contributors explore the role of translation in the environmental movement and discusses the shift from the Anthropocene to the Capitalocene in the context of global climate change They also provide a critical discourse analysis of the environmental discourse of the COP27 highlighting the North South divide The latter part of this book focuses on environmental literacy and awareness among students and also examines the environmental awareness of Moroccan university students and its impact on their environmental practices The book further discusses the role of visual language in environmental representation using Moroccan cinema as a case study It explores the intersection of language translation and posthumanism focusing on cross species interaction in Margaret Atwood's trilogy This book concludes with an ecological interpretation of solastalgia in Mohsin Hamid's Exit West and a generic ecological reading of climate change in Kim Stanley Robinson's Science in the Capital Trilogy Each chapter provides a unique perspective on environmental issues making it a comprehensive resource for anyone interested in environmental studies

A Translational Sociology Esperança Bielsa, 2022-12-29 A Translational Sociology provides an interdisciplinary investigation of the key role of translation in society There is a growing recognition of translation's intervention in the intellectual history of sociology in the international reception of social theory and in approaches to the global literary and academic fields This book brings attention to aspects of translation that have remained more elusive to sociological interpretation and analysis investigating translation's ubiquitous presence in the everyday lives of ordinary people in increasingly multilingual societies and its key intervention in mediating politics within and beyond the nation In order to challenge a reductive view of translation as a relatively straightforward process of word substitution that is still prevalent in the social sciences this book proposes and develops a broader definition of translation as a social relation across linguistic difference a process of transformation that leaves neither its agent nor its object unchanged The book offers elaborations of the social cultural and political implications of such an approach as a broad focus on these various perspectives and their interrelations is needed for a fuller understanding of translation's significance in the contemporary

world This is key reading for advanced students and researchers of translation studies social theory cultural sociology and political sociology

Thomas Mann in English David Horton, 2013-04-11 Thomas Mann owes his place in world literature to the dissemination of his works through translation Indeed it was the monumental success of the original English translations that earned him the title of the greatest living man of letters during his years in American exile 1938-52 This book provides the first systematic exploration of the English versions illustrating the vicissitudes of literary translation through a principled discussion of a major author The study illuminates the contexts in which the translations were produced before exploring the transformations Mann's work has undergone in the process of transfer An exemplary analysis of selected textual dimensions demonstrates the multiplicity of factors which impinge upon literary translation leading far beyond the traditional preoccupation with issues of equivalence Thomas Mann in English thus fills a gap both in translation studies where Thomas Mann serves as a constant but ill defined point of reference and in literary studies which has focused increasingly on the author's wider reception

Karin Michaëlis' Bibi books Anna Wegener, 2021-02-01 Karin Michaëlis 1872-1950 was one of the most important Danish authors of the early 20th century and achieved enormous international success with her Bibi books about the life and adventures of a free spirited Danish girl named Bibi The series was not particularly popular in the author's native country however This book unravels the intricate reasons behind the strikingly asymmetrical reception of the Bibi series at home and abroad while at the same time deconstructing this homeabroad dichotomy by showing that the Bibi books are an example of transnational children's literature They did not have their home in Denmark in that Karin Michaëlis wrote them specifically for foreign publishers first and foremost the German Herbert Stuffer The book further argues that the Danish texts are rewritings rather than originals and explores some of the salient textual features of the Danish and German Bibi books Finally it examines the series reception by young Italian readers in Fascist Italy and Karin Michaëlis' Italian translator
