Refighting the Last War D. Clayton James, 2010-06-15 Distinguished historian D Clayton James offers a brilliant reinterpretation of the Korean War conflict Focusing on the critical issue of command he shows how the Korean War is a key to understanding American decision making in all military encounters since World War II Korea the first of America's limited wars to stem the tide of world communism was fought on unfamiliar terrain and against peasant soldiers and would become a template for subsequent American military engagements especially Vietnam And yet the strategic and tactical doctrines employed in Korea as well as the weapons and equipment were largely left over from World War II James the master biographer of MacArthur uses studies of military crises to examine the American high command in the Korean War He explores the roles leadership personalities and prejudices of five key commanders President Harry S Truman Generals Douglas MacArthur Matthew B Ridgway and Mark W Clark and Admiral C Turner Joy and then looks at six crucial issues confronting them in that conflict From the decision made by Truman without congressional approval to commit United States forces to combat in Korea to MacArthur's persistent fight for approval of his dangerous plan to assault Inchon to the judgment to finally open truce negotiations these turning points illuminate the American way of command in wartime James analyzes the ground level results and long term implications of each choice and sensitively explores the course that might have followed if other options had been taken Probing the nature and consequences of these military resolutions James shows how the conduct of the Korean War like every new war bears the imprint of the

Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author s personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt s endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2 5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening s validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected **Papers and Proceedings of the ... Revolution in Tropes is a groundbreaking study of rhetoric and tropes Theorizing new ways of seeing rhetoric and its relationship with democratic deliberation Jane Sutton and Mari Lee Mifsud explore and display alloiosis as a trope of difference exception and radical otherness Their argument centers on Aristotle s theory of rhetoric through particular tropes of similarity that sustained a vision of civic discourse but at the same time underutilized tropes of difference When this vision is revolutionized democratic deliberation can perform and advance its ends of equality justice and freedom Marie Odile N Hobeika and Michele Kennerly join Sutton and Mifsud in pushing the limits of rhetoric by engaging rhetoric alloiostrophically Their collective efforts work to display the possibilities of what rhetoric can be A Revolution in Tropes will appeal to scholars of rhetoric philosophy and communication

New Seeds of Profit Mark S. Ferrara, 2019-04-19 When Captain Christopher Newport and his crew landed on the muddy banks of the James River in 1607 after four months at sea they aimed to establish a new colony not for God or the greater good of humanity but for the sake of profit The Pilgrims who settled in Cape Cod in 1620 as agents of Plymouth Company found evidence of divine election in the fortunes they accumulated from a lucrative system of town founding in the New World The innovative and often ruthless entrepreneurs who followed these colonists carved out the immense North American frontier wilderness from the Atlantic Ocean to the golden sands of the California coast and they forged industrial and technological revolutions that shook the world New Seeds of Profit examines the role of business leaders from George Washington to Donald Trump in shaping the United States into a business nation unlike any other in world history By tracing the influence of industry and commerce on American society through portraits of successful entrepreneurs this book sheds light on the

esteemed place Americans reserve for their wealthiest business leaders and it measures the true cost of that adulation by demonstrating how enterprise driven solely by the bottom line imperils people and the environment In a story teeming with the heroes and villains of enterprise New Seeds of Profit offers an innovative business model that provides meaningful work to employees and socially responsible returns to investors while encouraging sustainable stewardship of the earth and advancing the common good Humanities ,1985 Founded in Fiction Thomas Koenigs,2024-11-26 This monograph presents a new history of early American literature that traces the diverse forms of fiction circulating in the early United States 1789 1861 and how they shaped the way Americans thought and argued about political and cultural issues of their age
