Pickens, 2014-02-05 In the increasingly multi racial and multi ethnic American landscape of the present understanding and bridging dynamic cross cultural conversations about social and political concerns becomes a complicated humanistic project How do everyday embodied experiences transform from being anecdotal to having social and political significance What can the experience of corporeality offer social and political discourse And how does that discourse change when those bodies belong to Arab Americans and African Americans Ther A Pickens discusses a range of literary cultural and archival material where narratives emphasize embodied experience to examine how these experiences constitute Arab Americans and African Americans as social and political subjects Pickens argues that Arab American and African American narratives rely on the body's fragility rather than its exceptional strength or emotion to create urgent social and political critiques The creators of these narratives find potential in mundane experiences such as breathing touch illness pain and death Each chapter in this book focuses on one of these everyday embodied experiences and examines how authors mobilize that fragility to create social and political commentary Pickens discusses how the authors focus on quotidian experiences complicates their critiques of the nation state domestic and international politics exile cultural mores and the medical establishment New Body Politics participates in a vibrant interdisciplinary conversation about cross ethnic studies American literature and Arab American literature Using intercultural analysis Pickens explores issues of the body and representation that will be relevant to fields as varied as

The Atheist Muslim Ali A. Rizvi, 2016-11-22 In much of the Muslim world religion is the central foundation upon which family community morality and identity are built The inextricable embedment of religion in Muslim culture has forced a new generation of non believing Muslims to face the heavy costs of abandoning their parents religion disowned by their families marginalized from their communities imprisoned or even sentenced to death by their governments Struggling to reconcile the Muslim society he was living in as a scientist and physician and the religion he was being raised in Ali A Rizvi eventually loses his faith Discovering that he is not alone he moves to North America and promises to use his new freedom of speech to represent the voices that are usually quashed before reaching the mainstream media *The Atheist Muslim* In *The Atheist Muslim* we follow Rizvi as he finds himself caught between two narrative voices he cannot relate to extreme Islam and anti Muslim bigotry in a post 9/11 world *The Atheist Muslim* recounts the journey that allows Rizvi to criticize Islam as one should be able to criticize any set of ideas without demonizing his entire people Emotionally and intellectually compelling his personal story outlines the challenges of modern Islam and the factors that could help lead it toward a substantive progressive reformation *Little Odessa* Joseph Koenig, 2012-06-19 *DIV* In the grimy hell of Brighton Beach a stripper needs smarts to survive *divDIV divDIV* In the waning years of the Soviet Union only the very young or very old are allowed to immigrate to the United States Places like Brooklyn's Brighton Beach or as residents call it Little Odessa are flooded with teenage strivers eager to shake their accents and take what America has to offer Kate Piro is as ambitious as they come but her pluck only gets her as far as Times Square's Starlight Club where she dances naked under the stage name M Anita Supreme *divDIV divDIV* After being assaulted by a drunken Nigerian diplomat Kate meets a kindly cop who falls hard for the headstrong stripper He wants to save her or at least sleep with her but Kate doesn't need his help She's determined to get

Men in Color Josep M. Armengol, 2011-01-18 Comprising seven different chapters the collection *Men in Color* attempts to analyze and revisit the representation of ethnic masculinities both white and non white in and through contemporary U S literature and cinema If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities *Men in Color* attempts to provide an introductory perspective on different racialized masculinities simultaneously including African American Asian American Chicano Arab American and also white masculinity which is analyzed as another ethnic and gendered construct rather than as a paradigm of normalcy and universality By exploring several ethnic masculinities in relation to each other the present volume aims to highlight both the differences and the similarities between different patterns of masculinity showing how even as gender is inflected by race certain aspects or features of masculinity remain unchanged across the ethnic board Ultimately the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes such as the hypersexualization and or the feminization of ethnic males which recur in and across several ethnicities The constant tension and intersection between gender and race is the subject of this book which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st century world

Ortner,2013-02-27

The pioneering anthropologist Sherry B Ortner combines her trademark ethnographic expertise with critical film interpretation to explore the independent film scene in New York and Los Angeles since the late 1980s Not Hollywood is both a study of the lived experience of that scene and a critical examination of America as seen through the lenses of independent filmmakers Based on interviews with scores of directors and producers Ortner reveals the culture and practices of indie filmmaking including the conviction of those involved that their films unlike Hollywood movies are telling the truth about American life These films often illuminate the dark side of American society through narratives about the family the economy and politics in today s neoliberal era Offering insightful interpretations of many of these films Ortner argues that during the past three decades independent American cinema has functioned as a vital form of cultural critique **SPIN** ,2008-09 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today s most innovative sounds Whether covering what s new or what s next SPIN is your monthly VIP pass to all that rocks

One of the significant advantages of Towelhead books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them.
