The Development Dance Haley J. Swedlund,2017-09-15 In a book full of directly applicable lessons for policymakers Haley J Swedlund explores why foreign aid is delivered in different ways at different times and why various approaches prove to be politically unsustainable She finds that no aid delivery mechanism has yet resolved commitment problems in the donor recipient relationship bargaining compromises break down and have to be renegotiated frustration grows new ways of delivering aid gain traction over existing practices and the dance resumes Swedlund draws on hundreds of interviews with key decision makers representing both donor agencies and recipient governments policy and archival documents in Ghana Rwanda Tanzania and Uganda and an original survey of top

level donor officials working across twenty countries in Sub Saharan Africa This wealth of data informs Swedlund s analysis of fads and fashions in the delivery of foreign aid and the interaction between effectiveness and aid delivery The central message of The Development Dance is that if we want to know whether an aid delivery mechanism is likely to be sustained over the long term we need to look at whether it induces credible commitments from both donor agencies and recipient governments over the long term **Handbook of Aid and Development** Raj M. Desai,Shantayanan Devarajan,Jennifer L. Tanzania and Uganda from the early 1980s to the present to understand the impact of foreign aid on industrial development. While foreign aid has been attacked by critics as wasteful, counterproductive or exploitative, Nitsan Chorev makes a clear case for the effectiveness of what she terms developmental foreign aid. Against the backdrop of Africa's pursuit of economic self-sufficiency, the battle against AIDS and malaria, and bitter negotiations over affordable drugs, Chorev offers an important corrective to popular views on foreign aid and development. She shows that when foreign aid has provided markets, monitoring and mentoring, it has supported the emergence and upgrading of local production. In instances where donors were willing to procure local drugs, they created new markets that gave local entrepreneurs an incentive to produce new types of drugs. In turn, when donors enforced exacting standards as a condition to access those markets, they gave these producers an incentive to improve quality standards. And where technical know-how was not readily available, donors provided mentoring. Local producers received the guidance necessary for improving production processes. Without losing sight of domestic political-economic conditions, historical legacies, and foreign aid's own internal contradictions, *Give and Take* presents groundbreaking insights into the conditions under which foreign aid can be effective. [Africa-China-Taiwan Relations, 1949-2020](#) Sabella Ogbobode Abidde, 2022-07-26. The ongoing tension and hostility between China and Taiwan in Africa are a continuation of the Chinese Civil War, 1927-1949, between the forces of the Chinese Communist Party (CCP) which remained in mainland China and the Kuomintang (KMT) of the Republic of China (ROC) which fled to the island of Taiwan. In the intervening years, China has claimed Taiwan as part of its territory and through persistent and aggressive political and economic efforts convinced much of the world to accept her as the sole and legitimate seat of the Chinese people and government. *Africa-China-Taiwan Relations, 1949-2020* provides a coherent account of why and how China was able to convince African governments to acquiesce to her claims, which have resulted in the expulsion of and the diplomatic isolation of Taiwan on the African continent. This volume, edited by Sabella Ogbobode Abidde, also explains Taiwan's unsuccessful efforts at blunting China's maneuvers. It further discusses the endogenous and exogenous factors that swayed African governments to switch their diplomatic allegiance away from Taiwan, a country that was for many years an ally and dependable partner in their quest for growth and development. Finally, the book contains critical assessments of the role and place of China and Taiwan and their current relationship with states and societies on the African continent. [Prosperity in Rural Africa?](#) Dan Brockington, Christine Noe, 2021. *Prosperity in Rural Africa* addresses questions related to tracking economic development in poor rural areas in the face of scarce data. The chapters collect insights and experience into the dynamics of rural societies in Tanzania, demonstrating that economic data can render development in these regions invisible. *Livelihood and Landscape Change in Africa: Future Trajectories for Improved Well-Being under a Changing Climate* Sheona Shackleton, Paul Hebinck, Chinwe Ifejika Speranza, Vanessa Masterson, Dian Spear, Maria Tengö, 2019-10-08. This book is based on a Special Issue of the journal *LAND* that draws together a collection of 11 diverse articles at the nexus of climate

change landscapes and livelihoods in rural Africa all explore the links between livelihood and landscape change including shifts in farming practices and natural resource use and management The articles which are all place based case studies across nine African countries cover three not necessarily mutually exclusive thematic areas namely smallholder farming livelihoods under new climate risk five articles long term dynamics of livelihoods and landscape change and future trajectories two articles and natural resource management and governance under a changing climate spanning forests woodlands and rangelands four articles The commonalities key messages and research gaps across the 11 articles are presented in a synthesis article All the case studies pointed to the need for an integrated and in depth understanding of the multiple drivers of landscape and livelihood change and how these interact with local histories knowledge systems cultures complexities and lived realities Moreover where there are interventions such as new governance systems REDD or climate smart agriculture it is critical to interrogate what is required to ensure a fair and equitable distribution of emerging benefits

The Political Economy of Climate Finance Effectiveness in Developing Countries Mark Purdon, 2024 In The Political Economy of Climate Finance Effectiveness in Developing Countries Mark Purdon contributes to broader debates on the international climate cooperation by evaluating how three different climate finance instruments have been undertaken in three countries Tanzania Uganda and Moldova and evaluates their effectiveness in actually reducing emissions He shows that the effectiveness of climate finance tools depends on the interaction between a nation s development policy paradigms and its interests in other sectors of their economies Purdon s findings further inform the design of international and transnational efforts to engage developing countries on climate change mitigation by emphasizing the importance of domestic politics and the state

The Struggles of Post-Independence Nigeria Ucheoma Nwagbara, 2022-02-01 In The Struggles of Post Independence Nigeria Ucheoma Nwagbara argues that despite Nigeria s oil wealth and arable agricultural land Nigerians are not any better today than they were before independence Nwagbara examines Nigeria s struggles with corruption reckless government spending poverty inequality crime and violent insurgency to show how successive Nigerian

leadership has failed to utilize the country's enormous natural and human resources to improve citizens' lives, eradicate poverty, and deliver broadly shared prosperity, especially to the middle class and the poor. Through his analysis, Nwagbara demonstrates that the nationalist ideals of dedicated and accountable leadership behind the struggle for independence in Nigeria have been betrayed, as the emergent post-colonial leadership cared only for personal survival and gain. Despite these failures, Nwagbara reveals that Nigeria may still have a chance to improve and recover if Nigerians unite and demand real change through political and social activism.
