Trevor Ritland, Kyle Ritland

Tracking The Vanishing Frogs An Ecological Mystery:

Tracking the Vanishing Frogs Kathryn Phillips, 1994 In her novel like ecological study Phillips details scientists efforts in wetlands woodlands rain forests and laboratories to understand why so many species of frogs are vanishing She clearly describes the environmental and human factors that threaten these underappreciated creatures and draws a fascinating real world picture of how science and scientists work Photos *Tracking the vanishing frogs* Kathryn Phillips, 1994 **The Golden Toad** Trevor Ritland, Kyle Ritland, 2025-06-17 The Costa Rican cloud forest a mysterious amphibian killer and a vanished species with support from Leonardo DiCaprio s Re wild campaign twin documentarians and environmental writers follow their father s footsteps into the heart of the modern extinction crisis As young boys Trevor and Kyle Ritland were fascinated by the magnificent golden toad of Costa Rica a brilliant species their biologist father showed them in his projector s slide shows Native to only one wind battered ridgeline high on the continental divide above the cloud forests of Monteverde thousands of golden toads would congregate for a few weeks each year in ephemeral pools among the twisted roots to mate deposit their offspring and retreat again beneath the earth But from one year to the next the toads disappeared without a trace the last of them vanished more than thirty years ago Since then only rumors remain alleged sightings by local residents which beg the question could the golden toad still be alive In *The Golden Toad* Trevor and Kyle set off to investigate an environmental mystery with unexpected revelations a story that speaks to our own collective and uncertain future Guided by Costa Rican naturalists including the last person to have seen the golden toad alive Trevor searches for survivors while Kyle hunts the killer and their paths lead them through an imperiled forest a deadly pandemic and a changing climate finally intertwining at the site of the golden toad s last emergence deep in Monteverde s Bosque Eterno de Los Niños The toad s demise becomes a haunting foretelling of approaching ecological crisis but with a gold lining on the horizon *The Golden Toad* changes the conversation around extinction climate change and conservation while exploring environmental grief resurrection and hope in a changing world *Tales of an Ecotourist* Mike Gunter Jr., 2017-11-21 Combining humor and memorable anecdotes five famous ecotourist destinations offer a breathtaking backdrop to better understanding climate change Crossing the far corners of the globe *Tales of an Ecotourist* showcases travel from the hot and humid Amazon jungle to the frozen but dry Antarctic as a simple yet spellbinding lens to better understand the complex issue of climate change At its core climate change is an issue few truly understand in large part due to its dizzying array of scientific economic cultural social and political variables Using both keen humor and memorable anecdotes while weaving respected scientific studies along the way Mike Gunter Jr transports the reader to five famous ecodestinations from the Galapagos Islands to the Great Barrier Reef revealing firsthand the increasing threats of climate change Part travelogue part current events expos with a healthy dose of history ecology and politics these tales of ecoadventure tackle such obstacles head on while fleshing out much needed personal context to perhaps society s greatest threat of all Gunter takes us to the far corners of the globe to

understand the lived experience of climate change More than a travelogue *Tales of an Ecotourist* explains how getting outside out of our houses immediate surroundings and comfort zones can awaken all of us to the realities and urgency of a warming world This is a rich beautifully written and compelling book Paul Wapner author of *Living Through the End of Nature The Future of American Environmentalism* In *Tales of an Ecotourist* Mike Gunter Jr takes you on a remarkable journey both figuratively and literally as he recounts his experiences visiting some of the most amazing places on our planet As a genuine true to principles ecotourist he has an important lesson for us If we are to veer from our current path of global environmental degradation we will have to come to appreciate firsthand its remarkable wonder and beauty Michael E Mann coauthor of *The Madhouse Effect How Climate Change Denial Is Threatening Our Planet Destroying Our Politics and Driving Us Crazy*

The Globalization of Environmental Crisis Jan Oosthoek, Barry K. Gills, 2013-10-31 Previously published as a special issue of *Globalizations* this collection of essays addresses what is arguably the most pressing and urgent issue of our day the continuing development of global environmental crises and the need for new and urgent responses to them by the world community The contributors include social scientists environmental historians anthropologists and science policy researchers and together they give an overview of the history of the globalization of environmental crisis over the past several decades both in terms of the science of measurement and the types of policy and public responses that have emerged to date The specific issue areas addressed in the book cover a wide range of topics including international environmental governance North South inequalities climate change global warming tropical forests air pollution economic and paradigm shifts sustainability indigenous peoples and eco conservation EU environmental policy the United States and politicized climate science and more *The Globalization of Environmental Crisis* will be of particular interest to all those concerned with the on going debate over the state of the global environment and what to do about it

In Search of the Golden Frog Martha L. Crump, 2000-06-21 A chronicle of Crump s three decades as a field biologist and as a wife and mother in South and Central America Jacket

Amphibian Ecology and Conservation C. Kenneth Dodd, 2010 Describes the latest methodologies used to study the ecology of amphibians throughout the world Each of the 27 chapters explains a research approach or technique with emphasis on careful planning and the potential biases of techniques Statistical modelling landscape ecology and disease are covered for the first time in a techniques handbook

An Environmental History of the World Johnson Donald Hughes, 2001 This original work follows a chronological path through the history of mankind in relationship to ecosystems around the world Each chapter concentrates on a general period in human history each also has three case studies which illustrate the significant patterns occurring at that time

The Face of the Earth J. Donald Hughes, 2015-05-11 Although the organizing principle of virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the

past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs The Reporter's Handbook Steve Weinberg,1996 Reporters editors and journalists will find this third edition of The Reporter s Handbook an even more impressive resource than prior editions This essential tool for serious journalists identifies hundreds of documents and human sources in both private and government sectors It provides step by step methods for tracking paper trails people trails and computer trails The book also includes coverage of library research computer assisted reporting case studies anecdotes and IRE contest winning pieces This new edition features chapters on the environment transportation housing financial institutions international investigation utilities and non profit organizations Under the sponsorship of Investigative Reporters and Editors Inc Steven Weinberg has revised and polished this journalism classic into a must have reference guide for the classroom and the newsroom
