Traditional Baptist Ministers Ordination Manual

Paul Basden, David S. Dockery

Traditional Baptist Ministers Ordination Manual:

Interfaces Baptists and Others David Bebbington, 2014-07-08 The book is a collection of twenty one essays discussing how Baptists throughout the world have related to other Christians and to other institutions and movements over the centuries The theme of this collection of twenty one essays Baptists and Others includes relations with other Christians and with other institutions and movements What the authors ask has been the Baptist experience of engaging with different groups and developments The theme has been explored by means of case studies some of which are very specific in time and place while others cover long periods and more than one country In the first half the contents are arranged by period The first section examines early Baptists the second nineteenth century Baptists in Britain and America and the third Baptists in the twentieth century The second half turns to various parts of the world There is a section on Australia another on New Zealand and a third on Asia and Africa The overall picture is one of a complicated series of relationships as Baptists defined themselves as different from other bodies and yet especially in the twentieth century tried to co operate in mission and ecumenical endeavour Baptists are often regarded as enthusiastic separatists and unenthusiastic ecumenists These essays based on hard evidence rather than passing impressions are a necessary correction to superficial prejudices and show the reality to be much more complex and nuanced as well as varied over time and place The book is a smorgasbord of delights Yet readers should avoid the temptation to pick and choose from the menu ensuring rather that each offering is digested so they enjoy a balance and nutritious meal Derek Tidball

Comparative

Religious Law Norman Doe, 2018-11-15 Comparative Religious Law provides for the first time a study of the regulatory instruments of Jewish Christian and Muslim religious organisations in Britain in light of their historical religious laws Norman Doe questions assumptions about the pervasiveness character and scope of religious laws from the view that they are not or should not be recognised by civil law to the idea that there may be a fundamental incompatibility between religious and civil law It proposes that religious laws pervade society are recognised by civil law have both a religious and temporal character and regulate wide areas of believers lives Subjects include sources of law faith leaders governance worship and education rites of passage divorce and children and religion State relations A Charter of the principles of religious law common to all three Abrahamic faiths is proposed to stimulate greater mutual understanding between religion and society and between the three faiths themselves
