Bibliotheca Californiae California State Library, 1871 *Remote Sensing of Landscapes with Spectral Images* John B. Adams, Alan R. Gillespie, 2018-03-01 *Remote Sensing of Landscapes with Spectral Images* describes how to process and interpret spectral images using physical models to bridge the gap between the engineering and theoretical sides of remote sensing and the world that we encounter when we venture outdoors The emphasis is on the practical use of images rather than on theory and mathematical derivations Examples are drawn from a variety of landscapes and interpretations are tested against the reality seen on the ground The reader is led through analysis of real images using figures and explanations the examples are chosen to illustrate important aspects of the analytic framework This textbook will form a valuable reference for graduate students and professionals in a variety of disciplines including ecology forestry geology geography urban planning archaeology and civil engineering It is supplemented by a website hosting digital colour versions of figures in the book as well as ancillary images www.cambridge.org/9780521662214

Handbook of Sea-Level Research Ian Shennan, Antony J. Long, Benjamin P. Horton, 2015-02-19 Measuring sea level change be that rise or fall is one of the most pressing scientific goals of our time and requires robust scientific approaches and techniques This Handbook aims to provide a practical guide to readers interested in this challenge from the initial design of research approaches through to the practical issues of data collection and interpretation from a diverse range of coastal environments Building on thirty years of international research the Handbook comprises 38 chapters that are authored by leading experts from around the world The Handbook will be an important resource to scientists interested and involved in understanding sea level changes across a broad range of disciplines policy makers wanting to

appreciate our current state of knowledge of sea level change over different timescales and many teachers at the university level as well as advanced level undergraduates and postgraduate research students wanting to learn more about sea level change Additional resources for this book can be found at www.wiley.com/go/shennan/sealevel
