Troubled Legacies Heritage Inheritance In American Minority Literatures:

Troubled Legacies Michel Feith, Claudine Raynaud, 2015-09-18 What is being passed on The questions of heritage and inheritance are crucial to American minority literatures Some inheritances are claimed some are imposed and become stifling others still are impossible like the memories of oppression or alienation Heritage is not only patrimony however it is also a process in a state of constant reconfiguration The body its semiotics its genealogy its pressure points figures prominently as inevitable referent for the minority racial ethnic subject the performance and the writing of difference This collection of essays analyzes contemporary novels from major African American writers such as Gayl Jones Phyllis Alesia Perry Percival Everett John Edgar Wideman and Colson Whitehead and ethnic American novelists like Jeffrey Eugenides Philip Roth Gish Jen and Sergio Troncoso It also includes the study of a painting by African American artist Robert Colescott The first section of the book examines the inscription of African American writers relation to the nation s past the trauma of slavery the burden of foundational discourses or the legacy of the classical philosophical canon The second part of the text is an assessment of the postmodern aesthetics of contemporary black fiction in the construction of history unveiling the modalities of the palimpsest fragmentation intermediality mises en abyme in a complex grammar of haunting and denial Gathering essays on Greek American Jewish American Chinese American and Mexican American fiction the final section delineates new conceptions of ethnicity based on fluidity hybridity and performativity Cross ethnic experimentations in super diversity according to which identities become optional an array of choices rather than forced belonging seem to be pointing the way to the next stage that of a post racial post ethnic society Yet the conjugated strictures of race and class still limit these choices to a significant degree and the works discussed in this volume often playfully or sarcastically question the validity of the post They ultimately ask who shall inherit America

American Revenge Narratives Kyle

Wiggins, 2018-07-21 American Revenge Narratives critically examines the nation s vengeful storytelling tradition With essays on late twentieth and twenty first century fiction film and television it maps the coordinates of the revenge genre s contemporary reinvention across American culture By surveying American revenge narratives this book measures how contemporary payback plots appraise the nation s political social and economic inequities The volume s essays collectively make the case that retribution is a defining theme of post war American culture and an artistic vehicle for critique In another sense this book presents a scholarly coming to terms with the nation s love for vengeance By investigating recent iterations of an ancient genre contributors explore how the revenge narrative evolves and thrives within American literary and filmic imagination Taken together the book s diverse chapters attempt to understand American culture s seemingly inexhaustible production of vengeful tales

John Edgar Wideman and Modernity Michel Feith, 2024-01-12

The career of writer John Edgar Wideman has been the sort of success story on which America prides itself Coming from an inner city African American neighborhood he studied at the Universities of Pennsylvania and Oxford published his first novel at age twenty six

won two PEN Faulkner Awards as well as a MacArthur genius grant and has held several top teaching posts But profound tragedy has also marked his life both his brother and son received life sentences for murder and a nephew was killed at home after a bar fight His life thus illustrates how the strictures of race temper American notions of freedom and opportunity Wideman's engagement with race and identity has been nuanced and complex taking the form of what Michel Feith sees as a critical dialogue with modernity a moment in history which gave birth not only to the Enlightenment but also to American slavery and the conundrum of race Feith argues that the key work in the Wideman oeuvre is *The Cattle Killing* 1996 his only historical novel whose threads include the 1793 yellow fever epidemic in Philadelphia the 1856-57 Cattle Killing prophecy which wreaked havoc among the Xhosa tribe of South Africa and the contemporary situation of black ghettos in the United States Unfolding within the early days of the American Republic the novel offers a window through which all of Wideman's works and their central concerns ghettoization imprisonment familial relationships emancipation and the diasporic sense of history can be understood With clarity and theoretical sophistication Feith offers provocative new readings of Wideman's texts from the Homewood books based on his youth in Pittsburgh to his haunting memoir *Brothers and Keepers* In the postmodern era Feith suggests critics of modernity are not in short supply but few have the depth rigor and thoughtfulness of John Edgar Wideman

The Politics of Transparency in Modern American Fiction Paula Martín Salván, Sascha Pöhlmann, 2024 A much needed contribution to and critique of debates in the newly emerging field of transparency studies from the perspective of American literary studies In the twenty first century transparency has become an ambiguous buzzword both in the public and the private realms e.g. Wikileaks and the Snowden affair social media This volume takes its cue from the emerging field of transparency studies recent scholarly work in sociology political theory and cultural studies that identifies a hegemonic rhetoric of transparency in public and political life While scholars in this new field routinely gesture toward literature as the realm where secrecy may be productive they rarely engage with literature directly and literary studies itself remains notably absent from their debates This collection of essays seeks to redress that state of affairs by focusing on literary texts written in an American cultural tradition steeped in the interplay between transparency and exposure fear and secrecy security and surveillance and information and disinformation The essays draw on authors ranging from Whitman James and Ellison to Pynchon Morrison and Eggers to argue that American literature complicates theoretical assumptions about transparency made in other disciplines They question the field's strong theoretical emphasis on present day technopolitical practices and discourses as the location of hegemonic discourse on transparency and instead historicize such phenomena and extend them to discursive spheres that have so far been neglected such as issues of sexuality and race Edited by Paula Martín Salván and Sascha Pöhlmann Contributors Tomasz Basiuk Jesus Blanco Hidalgo Cristina Cheveresán Julia Faisst Michel Feith Julián Jimenez Heffernan Tiina Käläjä Juan López de Luque Umberto Rossi Jelena Sesnić Toon Staes Julia Straub Alice Sundman

The Self as Other in Minority American Life Writing Nelly Mok, Claudine

Raynaud,2019-03-22 Hinting at Rimbaud's provocative dictum that I is an other this anthology discusses a wide ranging array of twentieth century and contemporary minority American modes of life writing prompted by the following questions Who else hides behind this I that the author narrator character contractually claims to be What generic aesthetic political and socio cultural issues are at stake in a conception of the self as other The essays analyze autobiographical works from major Native American writers John Milton Oskison and Louise Erdrich an African American music hall artist Josephine Baker and writers John Edgar Wideman and Ta Nehisi Coates Caribbean American writers Jamaica Kincaid and Edwidge Danticat and Asian American writers Ruth Ozeki Cathy Park Hong Theresa Hak Kyung Cha and Loung Ung They shed light on autobiography as a collaborative writing and reading practice rather than as a self oriented genre probing the relational dimension of life writing Building on the feminist theorization of relationality and the political and aesthetic power of relational bonds they put forward the necessarily intersubjective dynamics of minority American self conceptions which originate in the writers experiences of otherness The articles highlight that the relational ethnic self characteristically inhabits the liminal spaces where modes of life writing overlap and can thrive in dialogical intertextual readings They foreground the subversive cathartic and memorializing potential of minority American modes of other writing whose ontological dimension is manifest in the writers quest for a sense of repossession and agency beyond communal boundaries Contributing to the up to date critical discussion on relationality not as a genre but rather as a reading and a storytelling practice they examine the ways it participates in a global transcultural approach to ethno racial issues in the United States

South Asian Diaspora Narratives Amit Sarwal, 2017-05-03 This book analyses the metaphysical and poetical notions and the processes of rooting into a culture and routing out of a culture in the context of South Asian diaspora in Australia These diasporic narratives are often characterised by bifurcated and dislocated identities that exist in a liminal space in between two identities two cultures and two histories Yet home remains through acts of imagination remembering and re-creation an important reference point The author argues that a clearer notion of politics of location is required to distinguish between the different kinds of dislocation the immigrants suffer both psychologically and sociologically The diaspora in Australia is an under studied topic and this book fills a lacuna in South Asian diaspora studies by analysing and calling upon a wide range of works in this field from historical anthropological sociological cultural and literary studies

Africa Shoots Back Melissa Thackway, 2003 Filmmakers in sub Saharan Francophone Africa have been using cinema since independence in the Sixties to challenge existing Western stereotypes of the continent The author shows how directors working in a postcolonial context that has inevitably influenced film agendas and styles have produced a range of alternative challenging representations Page 4 of cover
