Tuckers Birthday M Sommer:

Tucker's Birthday A. M. Sommer, 2007-08-01 Tucker's tales are fiction but Tucker himself is a real live boy. He was rescued from a place where he was abused and neglected and my brother and sister in law have been taking care of him ever since. Tucker's Dad even commented that these stories truly reflect Tucker's behavior with only a slight exaggeration. I wanted everybody to meet him so they can understand that the way we treat animals shows the way we treat people.

Tucker's Valentine A. M. Sommer, 2009-10 Sacred History, Sacred Literature Shawna Dolansky, 2008-06-30 Richard Friedman is well known in the field of biblical studies not only because of his contributions to the study of the Hebrew Bible which are many but also because he has written cogently and clearly for a much wider audience outside the academy most notably in his *Who Wrote the Bible* 1997. In addition his influence has crossed the boundaries of a variety of disciplines such as source criticism, archaeology, the ancient Near East as well as religious studies. The essays in this volume reflect the breadth and depth of Richard Friedman's life and work. Several contributors discuss topics related to the Hebrew Bible for example Jacob Milgrom examines the relationship between Ezekiel and the Levites and Carol Meyers discusses the Tabernacle texts in the context of Priestly influence on them. Ronald Hendel, Michael Homan and Robert Wilson explore the history of source criticism with detailed source critical analysis of Genesis 1-11 and the book of Kings. Jeffrey Geoghegan discusses the origins of the Passover in one of several insightful essays under the topic Israel and the Ancient Near East. Among the contributions specific to archaeology Baruch Halpern's provides a provocative Defense of Forgery. Lastly four contributors e.g. Alan Cooper discuss religion and religious studies along with ramifications for contemporary application. A fine collection of contemporary topics discussed by leading scholars in the field.

Inconsistency in the Torah Joshua A. Berman, 2017-06-12 Rather than viewing inconsistencies in the Torah as signs of revision this book identifies precursors for these phenomena in ancient Near Eastern writings. It claims that Enlightenment and German historicist influences corrupted critical study of the Bible and calls for a return to the more modest agenda set out by Spinoza.

Arts & Humanities Citation Index, 1991 A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6,800 major science and social science journals.

Much Ado about Marduk Jennifer Finn, 2017-05-22 Studies in Ancient Near Eastern Records (SANER) is a peer reviewed series devoted to the publication of monographs pertaining to all aspects of the history, culture, literature, religion, art and archaeology of the Ancient Near East from the earliest historical periods to Late Antiquity. The aim of this series is to present in depth studies of the written and material records left by the civilizations and cultures that populated the various areas of the Ancient Near East: Anatolia, Arabia, Egypt, Iran, the Levant, Mesopotamia and Syria. Thus SANER is open to all sorts of works that have something new to contribute and which are relevant to scholars and students within the continuum of regions, disciplines and periods that constitute the field of Ancient Near Eastern studies as well as to
